Program & Policies Overview

The Alaska Migrant Education Program (MEP)
The U.S. Department of Education provides formula grants to States to establish or improve education programs for migratory children and youth. In turn, the Alaska Migrant Education Program provides grants to school districts to improve educational opportunities for migratory children to help them succeed in the regular school program, meet the challenging State academic standards that all children are expected to meet, and graduate from high school.

History
The Migrant Education Program is authorized by Title I, Part C of the Elementary and Secondary Education Act of 1965. Congress established the national Migrant Education Program in 1966 to provide funds to establish or improve educational programs designed to meet the unique needs of migratory children and youth. Congressional support has increased steadily since then.

The State of Alaska became involved with the Migrant Education Program in 1980 when the Federal definition of qualifying migratory activity was expanded to include both logging and fishing. Currently, 41 of Alaska’s school districts operate a Migrant Education Program.

Today, the Migrant Education Program identifies roughly 250,000 children across the country with approximately 13,000 migratory children in Alaska. With these funds, States and local schools provide a broad range of instructional and support services to supplement regular classroom instruction and to help migratory children overcome barriers arising from lifestyle, mobility, and educational interruption.

Purpose
The purpose of the Migrant Education Program is to:

- Assist States in supporting high-quality and comprehensive educational programs and services during the school year and, as applicable, during the summer or intersession periods, that address the unique educational needs of migratory children.
- Assure that migratory children who move among the States are not penalized in any manner by disparities among the States in curriculum, graduation requirements, and challenging State academic standards.
- Ensure that migratory children receive full and appropriate opportunities to meet the same challenging State academic standards that all children are expected to meet.
- Help migratory children overcome educational disruption, cultural and language barriers, social isolation, various health-related problems, and other factors that inhibit the ability of such children to succeed in school.
- Help migratory children benefit from State and local systemic reforms.¹

Goal
The primary goal of the Migrant Education Program is to ensure that all migratory children and youth reach challenging academic standards and graduate with a high school diploma that prepares them for responsible citizenship, further learning, and productive employment.

¹ ESEA §1301.
Legal/Authoritative Reference
The Migrant Education Program is authorized by the following legal and authoritative references:
- **Statute** – Elementary and Secondary Education Act (ESEA), Title I, Part C, §1301-1309, as amended by the Every Student Succeeds Act (ESSA)
- **Code of Federal Regulations** – 34 CFR §§ 200.81-200.89
- **Guidance** – MEP Policy Non-Regulatory Guidance

Organization
The Migrant Education Program (MEP) is organized at several different levels of government and operation:
- U.S. Department of Education - Office of Migrant Education (OME)
- Alaska Department of Education & Early Development - Migrant Education Office (MEO)
- School Districts - Local Migrant Education Program

Role of the Federal MEP Staff
At the Federal level, the Office of Migrant Education (ed.gov/programs/mep) administers the MEP nationally and provides guidance and support to States that receive grants. The OME has several responsibilities, including providing national leadership, conducting special initiatives, helping U.S. Department of Education (ED) to calculate State MEP allocations, monitoring State programs for compliance with Federal requirements, collecting and analyzing student performance data, developing regulations and guidance, and providing technical assistance on how to implement the MEP. A Federal program officer (i.e., contact person) is assigned to each State to assist and monitor its implementation of the MEP.

Role of State MEP Staff
OME awards MEP formula grants to the Alaska Department of Education & Early Development – Migrant Education Office (education.alaska.gov/ESEA/TitleI-C). The MEO is then responsible for the operation and administration of the State migrant education program. The MEO sub-grants the funds to districts to administer and operate local migrant education programs. MEO staff are responsible for overseeing all aspects of the administration of the program, including the State’s Identification & Recruitment (ID&R) system. The focus of the MEO is to provide overall leadership and direction for the State as a whole, and to ensure that local programs comply with all applicable laws and other requirements. The State is responsible for finding and enrolling migratory children from across the State, for determining their unique needs, and for developing a service delivery plan that uses resources in an equitable and effective manner. The MEO also provides statewide leadership and guidance to recruiters. When a recruiter asks a question that cannot be answered at the local level, the district should raise the question at the State level for a response.

Role of District MEP Staff
At the district level, the emphasis is on finding and serving individual migratory children. The recruiter, perhaps with assistance from other local staff, finds potentially eligible migratory children, determines whether they may be eligible for the MEP, and helps connect them with appropriate services. Once the child is identified and the child’s needs are assessed, migrant educators and others at the district level may provide extra services that are beyond those offered by the local school. For example, MEP teachers and tutors may provide in-home tutoring, after school coursework, or summer programs. Migratory children may also be eligible to receive services through other programs serving migratory students.

Local school districts that receive a sub-grant from the State Education Agency (SEA) to serve migratory children are responsible to the State MEP. When a recruiter or anyone else at the local level has a question or needs support, the recruiter should turn to an immediate supervisor for assistance. The supervisor may be an ID&R staff member or a local program coordinator who has broader duties. Local projects are often asked to gather local data for the State for evaluation purposes and also to inform State decision makers.
**Family Educational Rights and Privacy Act (FERPA)**

Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level.

Parents or eligible students (eligible students are children who have reached the age of 18 or have otherwise had FERPA rights transferred to them) have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.

Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement within the record setting forth his or her view about the contested information.

Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):

- school officials with legitimate educational interest,
- other schools to which a student is transferring,
- specified officials for audit or evaluation purposes,
- appropriate parties in connection with financial aid to a student,
- organizations conducting certain studies for, or on behalf of, the school,
- accrediting organizations,
- to comply with a judicial order or lawfully issued subpoena,
- appropriate officials in cases of health and safety emergencies, and
- State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, directory information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

**Family Policy Compliance Office**

1-800-USA-LEARN

U.S. Department of Education

400 Maryland Avenue, SW

Washington, D.C. 20202-8520

(ed.gov/policy/gen/guid/fpco/ferpa)
FERPA Overview
The Family Educational Rights and Privacy Act (FERPA) of 1974 is a Federal law which:

- Protects the privacy of student education records (including the hard copy Certificate of Eligibility (COE), as well as any electronic versions of the COE).
- Applies to all schools and educational agencies that receive funds under an applicable program of the U.S. Department of Education.
- Gives parents certain rights with respect to their children’s education records. These rights transfer to students when they turn 18 or attend a school beyond high school.
- Requires that educational agencies and institutions adopt a policy regarding how they meet the requirements of FERPA and how they notify parents and eligible students annually of their rights.

Parent Information
- Parents or eligible students have the right to access and inspect the student’s educational records.
- Parents or eligible students have the right to request that education records be corrected if they are found to be inaccurate or misleading.
- Generally, schools and districts must have written permission from the parent or eligible student before releasing any information from a student’s education record (including the COE).

Recruiter Information
When closing interviews with families, the following conditions and FERPA rights must be explained to parents:

- Before the interviewee signs the COE, have them review the COE for accuracy. By signing the COE, they are confirming that this move is an economic need for their family.
- Tell the parent: “The information that you have provided to us is confidential. By signing the COE, you give us permission to enroll your child into the Migrant Education Program (if they are approved). FERPA gives you the right to access and update your children’s records upon request.”
- Obtain a signature from the parent.
- Explain that the COE will be reviewed and after a determination of eligibility is made, the parent will be contacted and will be given a copy of the approved COE.
- Tell the parent: “If approved into the program, your children may be eligible to receive services such as: enrollment in the free lunch program, educational tutoring, and educational books.”
- Tell the parent: “You might receive a call from the Migrant Education Office (MEO) to verify the information on the COE.”
- Thank parents for their time and inform them that somebody will follow up with them once an official eligibility determination has been made.

FERPA Best Practices
Personally Identifiable Information (PII)
- Personally Identifiable Information includes, but is not limited to: child’s name, date/place of birth, parents’ names, addresses, student ID, etc.
- Personally Identifiable Information is protected under FERPA. Any notes with personally identifiable information should be shredded once the interview has concluded.
- Personally Identifiable Information may not be disclosed without written consent.
**Paper Security**
- Be sure to shred any extra copies of the COE, or any COEs that had mistakes.
- If recruiters keep notes of interviews, be sure to properly store/destroy them if they contain personally identifiable information (child’s name, parents’ names, address, student ID, date/place of birth, etc.).

**Electronic Security**
- Electronic COEs must be completed using official district computers (not personal computers) and copies must be securely deleted (not stored on the computer).
  - Laptop computers are required to have encryption to protect child data.
- If transmitting COEs to a parent's personal email account, consider obtaining parent permission (even verbal permission) prior to emailing. The district may consider password protecting the COE before emailing it to parents.
- Always use official district email accounts to send child data (COEs).
- When receiving reports containing personally identifiable student information, consider saving the report to a secure location and deleting the email. When sending reports, consider deleting the sent email.
- Consider password protecting documents containing personally identifiable student information before saving or sending them.

**COE Requests**
If another district requests a copy of a COE:
- Ask if that child has moved to their district and is enrolling in their district.
- Ask if the parent signed a written release.
- Check if the current district has a written release on file.
- Call the MEO and inform us of the child’s move and we can coordinate with the receiving district.

**Online Safety and Security**
To protect the information of Alaska’s migratory children, it is important to keep cyber security in mind. Recruiters, records managers, and other MEP staff must ensure that child data is secure by utilizing best practices in regards to password and email security. MEP staff should be careful when accessing or sharing confidential child data. Only those with a business need to know should receive MEP data or access to the MIS2000 database (via the Desktop App or the Alaska Migrant Web System), or district MEP data systems.

Some of the most common threats to data security are email phishing and weak passwords. It is important that MEP staff recognize such threats and protect their accounts with strong passwords. Passwords, usernames, and other credentials should never be shared. MEP child information must only be accessed from official district computers. Computers must be encrypted to ensure the protection of data. District staff accessing MEP data from the Alaska Migrant Web System, must have official district email addresses. Furthermore, MEP staff should only email MEP data securely, complying with district policies, with those with a business need to know.

District MEP staff must adhere to all district cyber security policies in order to protect migrant data. Computers should be locked when unattended. Digital information should be stored in an encrypted format where technically possible. Any information printed from the Alaska Migrant Web System, Desktop App, and other services should be kept securely (locked up) when not in use. Any security breaches must be reported to the State MEO immediately.
Password Security
It is important that users have strong passwords and utilize best practices when accessing secure data systems. Passwords for secure systems should meet district policy requirements. Passwords should:

- contain a minimum of eight characters,
- have a mixture of uppercase and lowercase letters, numbers, and special characters (#, @, !, etc.), and
- be changed periodically.

It is equally important to know that passwords should not be:

- shared among users,
- remembered using an internet browser’s “remember password” feature, or
- written down or kept in an area where they are easily discoverable.

Email Security
District staff must utilize caution when responding to email requests and/or sending migrant program data. District staff should follow district policy when emailing MEP data and should use official district emails only. Below is a list of best practices:

- Do not open unexpected attachments.
- Do not click on suspicious links within emails.
- Install and update anti-virus software on all devices.
- Learn how to recognize phishing.
- Only give email addresses to websites and services that are trustworthy.

MEP staff should only email child data securely to individuals with a business need to know. MEP staff must follow district policies and procedures to ensure that data is protected.

Recognizing Phishing
One common threat to data security is email phishing. Phishing is an attempt to obtain sensitive information such as usernames, passwords, and other personal information, often for malicious reasons. The individual phishing will disguise themselves as a reputable entity in electronic communication in order to gain the user’s trust and obtain access to sensitive materials. Users should be wary of emails soliciting identification and/or password information from them. Please be aware that the Alaska Migrant Web System and State MEP staff will never email users to ask for their account credentials.

Users must learn how to recognize phishing emails. Some common hallmarks of phishing include but are not limited to:

- Messages that contain threats to shutdown accounts or devices.
- Requests for personal information (passwords, etc.).
- Language pushing the user to act fast, such as “urgent.”
- Forged email addresses (ones that look similar to official but are not quite right).
- Poor writing and bad grammar emails.

For more information on data security, contact the district’s IT department or the State Migrant Education Office.
Administering the Program

The purpose of this section is to provide guidance to the Federal programs coordinator and/or migrant coordinator in the design and execution of the district’s Migrant Education Program (MEP). Federal programs coordinators and/or migrant coordinators have several responsibilities for the MEP including, but not limited to: oversight of the MEP, program planning, fiscal management, data collection, coordination of all MEP components, professional development and training, cross-program coordination, and quality control.

General Requirements of the MEP

Districts that receive Title I-C funds must carry out a variety of activities as a condition of participating in the program including, but not limited to:

- Identifying and recruiting migratory children and youth.²
- Establishing and implementing a system of quality controls for the proper ID&R.³
- Promoting interstate and intrastate coordination of services for migratory children.⁴
- Conducting parent and family engagement in the planning and operation of the local MEP.⁵
- Identifying and addressing the unique educational needs of migratory children and youth.⁶
- Evaluating the effectiveness of the MEP to improve services provided to migratory children.⁷

General Responsibilities of the Federal Programs Coordinator

Federal program coordinator and/or migrant coordinator responsibilities include, but are not limited to:

Program Planning and Oversight

Identifying the Unique Needs of Migratory Children and Youth

- Work with the district Parent Advisory Council to help identify the unique needs of the migratory children and youth within the district.
- Send the annual Migrant Education Program survey out to parents of migratory children to get feedback on the district MEP, and the unique needs of the district’s migratory children and youth.
- Send the annual Migrant Education Program survey out to district staff to get feedback on the district MEP, and the unique needs of the district’s migratory children and youth.

Planning Supplemental Activities

- Use the identified unique needs of the district’s migratory children and the grant application to plan supplemental activities and services for migratory children.
- Ensure Title I-C funds supplement services provided by other State or local funds for migratory children.
- Ensure Title I-C activities and services align with the State’s Comprehensive Needs Assessment (education.alaska.gov/ESEA/TitleI-C/docs/cna_final_report.pdf) and the strategies outlined in the State’s Service Delivery Plan (education.alaska.gov/ESEA/TitleI-C/docs/migrant_service_delivery_plan.pdf).
- Ensure Title I-C costs of the service or activity follow the cost principles described in the Uniform Grant Guidance (Subpart E of 2 CFR Part 200).

---

² ESEA, Section 1304(c)(8)
³ 2 CFR § 200.89(d)
⁴ ESEA, Section 1304(b)(3)
⁵ ESEA, Section 1304(c)(3)
⁶ ESEA, Section 1306(a)(1)
⁷ 2 CFR § 200.84
Grant Planning and Fiscal Management
- Use the Grants Management System (GMS) to submit the Title I-C portion of the ESEA Consolidated Application.
- Complete revisions to the Title I-C portion of the ESEA Consolidated Application, as required.
- Ensure the application for the Migrant Education Literacy Grant is completed and sent to DEED.

Ensuring all Required Plans are Written and Updated
- Establish written plans for identification & recruitment, quality control, needs assessment, service delivery, evaluation, and parent and family engagement.

DEED has created an optional template for districts to use that consolidates the required written policies and procedures district must have for the migrant education program into one document. It includes: Identification & Recruitment Plan, Quality Control Plan, Comprehensive Needs Assessment, Service Delivery Plan, and Evaluation Results. Please note that the template is optional, but districts must have written policies and procedures that are covered in the template (education.alaska.gov/ESEA/TitleI-C/docs/District-Level-Guiding-Template.docx.).

Data Collection and Reporting

Tracking the Title I-C Funded Services Migratory Children and Youth Receive
- Establish and maintain a method of tracking supplemental services provided with Title I-C funds.
- Create a written service delivery plan.

Ensuring all Reports are Submitted
- Work with the district records manager to ensure that data provided on reports are accurate.
- Work with the district records manager to ensure that all reports are submitted by the due dates.

Identification & Recruitment

Training
- Federal programs directors and migrant coordinators should attend an in-person training within one year of hire.
- Federal programs directors and migrant coordinators should attend an in-person training once every three years to keep up to date with migrant identification, recruitment, and records management procedures.
- Ensure that recruiters and records managers attend fall training annually or as directed by DEED.

Quality Control
- Establish a quality control process for ensuring the correctness of the information used to determine each child’s eligibility under the MEP definitions.

Recruit and Re-recruit Migratory Children and Youth by November 15th
- Develop a written ID&R Plan that includes recruitment efforts year-round throughout the community.
- Hire qualified staff and provide for annual training related to the State’s ID&R procedures.
- Meet all deadlines for the submission of records and adhere to the State’s established procedures for the identification and recruitment of migratory children and youth.
- Work with the district records manager to ensure that all migratory children and youth in the district are recruited annually before the November 15th deadline.
- Continue recruitment year-round as children come to the attention of the MEP (i.e., mid-year transfers, new qualifying moves)
Statewide Guiding Documents
The Alaska Migrant Education Program is based on two guiding documents required of all States. They are the Comprehensive Needs Assessment (CNA) and the Service Delivery Plan (SDP). Both documents for Alaska can be found on DEED’s Title I-C webpage (education.alaska.gov/ESEA/TitleI-C).

Comprehensive Needs Assessment (CNA)
The primary purpose of a CNA is to guide the overall design of the MEP on a statewide basis. Alaska’s most recent CNA was finalized in December 2018. The CNA committee identified four areas of need for the Alaska MEP: academic support in ELA and math, high school graduation, school readiness, and support services.

A needs assessment is a systematic assessment and decision-making process that progresses through a defined series of phases to determine needs, examine their nature and causes, and set priorities for future action. A needs assessment is comprehensive as long as it:

- includes both needs identification and the assessment of potential solutions;
- addresses all relevant performance targets established for migratory children (i.e., proficiency in ELA and mathematics, graduation rates, dropout rates, and any other program goals set for migratory children);
- identifies the needs of migratory children at a level that is useful for program design purposes;
- collects data from appropriate target groups (i.e., parents, or teachers);
- examines data disaggregated by key subgroups; and
- is conducted on a statewide basis.

Service Delivery Plan (SDP)
States are required by ESEA to develop a migrant-specific plan that will assist migratory children in making progress toward achievement of the State’s long-term goals and measurements of interim progress. This plan, known as the Service Delivery Plan (SDP), outlines the delivery and evaluation of the services provided to migratory children through their MEP. The SDP is developed from the results of an up-to-date statewide CNA.

The SDP is a comprehensive plan that describes the services the State will provide directly or through districts to meet the unique needs of migratory children; in other words, it is the State’s operational plan for the MEP.

Alaska’s most recent Service Delivery Plan was updated as of February 2019. This plan outlines strategies for meeting the needs of migratory children and youth identified in the CNA. It also sets Measurable Program Outcomes (MPOs) on which the migrant education program will be evaluated.

Evaluation of Effectiveness
States are required to evaluate the effectiveness of the MEP and to provide guidance to their local projects on how to conduct local evaluations. A proper evaluation can provide powerful information regarding how best to use MEP funds to achieve the desired result. The evaluation determines whether and to what degree the program is effective in relation to the performance targets and measurable outcomes. The main methods used to do this are by measuring:

- The progress toward the desired outcomes (MPOs) the MEP aimed to achieve in the SDP.
- The level of implementation of each strategy in the SDP to determine the extent to which MEP services were delivered with fidelity.

Fidelity of Strategy Implementation (FSI) Tool
The FSI Tool is a self-assessment resource for districts to evaluate their implementation of migrant-funded services in the Service Delivery Plan Goal Areas (education.alaska.gov/ESEA/TitleI-C/docs/migrant_service_delivery_plan.pdf). More information can be found in the Migrant Reports section, which starts on page 50.
District Level Program Planning

District Continuous Improvement Cycle

Overview
In planning the district’s MEP, consider the annual continuous improvement cycle of the Migrant Education Program. In this cycle, each step in developing a program—assessing needs, identifying strategies, implementing strategies, and evaluating the results builds on the previous activity and informs the subsequent activity.

The needs assessment provides an opportunity to review data about migratory children and review the progress toward program goals included in the MEP program evaluation. This information is used to identify further needs and to propose evidence-based strategies to meet those needs. The needs assessment, in turn, informs the service delivery plan. In the process of developing a plan for providing services to migratory children, a planning team reviews the strategies, prioritizes them, and develops a plan for implementing them.

The program evaluation assesses the level of implementation, and the MEP uses the results to improve its delivery of services, in particular for migratory children identified under the Priority for Services (PFS) provision. The MEP also uses the program evaluation to determine the progress of migratory children toward Federal and State goals. The program evaluation feeds into the needs assessment process and the cycle continues.

Needs Assessment
A needs assessment is a systematic assessment and decision-making process that progresses through a defined series of phases to determine needs, examine their nature and causes, and set priorities for future action. Similar to the State CNA, districts conduct a local needs assessment to determine the needs of local migratory children. The district can consult a variety of sources for the needs assessment including, but not limited to: annual staff surveys, annual parent surveys, annual State assessment results, and progress monitoring assessment results.

During the monitoring process, DEED will verify that the district needs assessment is aligned with the State CNA, including elements in the following four goal areas: academic support in ELA and mathematics, high school graduation, school readiness, and support services. DEED will also verify that the needs assessment has identified the unique educational needs of migratory children that result from their migratory lifestyle and other needs of migratory children that must be met in order for them to participate effectively in school.

The district cannot reasonably design the MEP or determine the grade levels and instructional areas on which individual projects should focus without information on the unique educational needs of all eligible children identified in the district. At the district level, a needs assessment determines:

1. the extent of the needs of migratory children and youth in the district area and how those needs relate to the priorities the State has established;
2. how to design local services; and
3. which students should receive services.

For more information, refer to DEED’s Needs Assessment Guidance (education.alaska.gov/ESEA/TitleI-C/docs/NeedsAssessmentGuidanceTitleI-C.pdf).
**Service Delivery Plan**

The district’s service delivery plan should be a written document that outlines many of the district’s policies and procedures. In the district’s service delivery plan, the district must choose the applicable strategies from the list of service delivery strategies in the State SDP to implement to meet the needs of the district’s migratory children. The service delivery plan is the basis for the use of all MEP funds in the district.

States must develop measurable outcomes for the MEP that are appropriate measures of the success of the program and that contribute to the achievement of the State’s performance targets. Districts must develop measurable outcomes that are aligned with the State’s measurable outcomes for the MEP.

The service delivery plan helps the district develop and articulate a clear vision of:

1. the needs of migratory children;
2. the district and State’s MEP measurable outcomes and how they help achieve the State’s performance targets;
3. the services the district MEP will provide; and
4. how to evaluate whether, and to what degree, the program is effective.

For additional information, refer to DEED’s Provision of Services Guidance (education.alaska.gov/ESEA/TitleI-C/docs/ProvisionofServicesGuidanceTitleI-C.pdf).

**Evaluation of Effectiveness**

Districts must conduct a local project evaluation that measures both the implementation of the project and student performance against the district’s measurable outcomes, the State’s measurable outcomes, and the State’s performance targets.

Evaluations allow districts to:

1. determine whether the program is effective and document its impact on migratory children;
2. improve program planning by comparing the effectiveness of different types of interventions;
3. determine the degree to which projects are implemented as planned and identify problems that are encountered in program implementation; and
4. identify areas in which children may need different MEP services.

As a resource, DEED provides districts with a Migrant Summative Data Report (MSDR) annually in the spring. This document is just one of several resources districts should utilize when evaluating their local MEP.

The results from the evaluation can be incorporated into the needs assessment for the following year.

For additional information, refer to DEED’s Program Evaluation Guidance (education.alaska.gov/ESEA/TitleI-C/docs/ProgramEvaluationGuidanceTitleI-C.pdf).

**Fidelity of Strategy Implementation (FSI) Tool**

The FSI Tool is a self-assessment resource for districts to evaluate their implementation of migrant-funded services in the Service Delivery Plan Goal Areas (education.alaska.gov/ESEA/TitleI-C/docs/migrant_service_delivery_plan.pdf). More information can be found in the Migrant Reports section, which starts on page 50.
Consultation Requirements

Parents of Migratory Children

Parent and family engagement is an integral part of all Title I programs, including the MEP. Research shows that parents play a significant role in the academic achievement of their children. Therefore, it is important for parents and schools to develop partnerships and build ongoing dialogues to improve student achievement. Title I supports parent and family engagement by enlisting individual parents to help their children do well in school. In order to receive MEP funds, districts must implement programs, activities, and procedures that effectively engage parents of migratory children.

Districts must consult with parents of migratory children in the planning and operation of the Migrant Education Program. This consultation must be in a format and language understandable to the parents. Districts are required to have, at minimum, one annual meeting of parents of migratory children, although a local Parent Advisory Council (PAC) is recommended.

The annual meeting should address the following:

- consultation with parents of migratory children regarding the planning and operating of the local migrant education program,
- the design and implementation of the local migrant Service Delivery Plan,
- migratory child data showing progress on performance targets and measurable program outcomes,
- information about the migrant program services available to their children, and
- strategies to increase engagement of parents of migratory children in supporting their children’s education.

Benefits of Parent Consultation

As the first teachers of their children, parents know the needs of their children best and can provide insight into their children’s strengths and weaknesses. As such, parents of migratory children can play a pivotal role in planning the educational programs and projects in which their children participate. Engaging parents of migratory children in planning the MEP also builds their capacity to assist in their children’s learning at home. In addition, parental engagement in the planning of the program enables parents to understand the program and have informed conversations with MEP and school staff regarding their children’s education. Through their participation in the planning process, parents of migratory children are also more likely to become advocates and supporters of the program because they have a personal stake in its success.

Tribes or Tribal Organizations

To ensure timely and meaningful consultation on issues affecting American Indian and Alaska Native students, districts that meet the requirements below must consult with appropriate officials from tribes or tribal organizations approved by the tribes located in the area served by the districts prior to the district’s submission of their ESEA Consolidated Application. Such consultation must be done in a manner and in such time that provides the opportunity for such appropriate officials from tribes or tribal organizations to meaningfully and substantively contribute to such plan.

Districts that are required to consult with tribes or tribal organizations are districts:

- with an enrollment of American Indian or Alaska Native students that is not less than 50 percent of the total enrollment of the local educational agency; or
- that received a grant in the previous fiscal year under Title VI (Indian Education) that exceeded $40,000.

---

8 ESEA, Section 1304(e)
9 ESEA, Section 8538(a)
10 ESEA, Section 8538(c)(1)
Each district that is required to conduct this consultation must maintain in the district’s records and provide to the State a written affirmation signed by the appropriate officials of the participating tribes or tribal organizations approved by the tribes, that the consultation required by this section has occurred. If such officials do not provide such affirmation within a reasonable period of time, the district must forward documentation that such consultation has taken place to the State.\(^{11}\)

**Private Schools**

Districts must engage in timely and meaningful consultation with appropriate private school officials.\(^{12}\) The district and private school officials shall both have the goal of reaching agreement on how to provide equitable and effective programs for migratory eligible private school children, on issues such as:

- how the children’s needs will be identified;
- what services will be offered;
- how, where, and by whom the services will be provided;
- how the services will be assessed and how the results of the assessment will be used to improve services;
- the size and scope of the equitable services to be provided to the eligible private school children, the amount of funds available for those services, and how that amount is determined;
- how and when the district will make decisions about the delivery of services; and
- whether the district shall provide services directly or through a separate government agency, consortium, or entity, or through a third-party contractor.

Each district shall maintain in their records, and provide to the State, a written affirmation signed by officials of each participating private school that the meaningful consultation required by this section has occurred. The written affirmation shall provide the option for private school officials to indicate such officials’ belief that timely and meaningful consultation has not occurred or that the program design is not equitable with respect to eligible private school children. If such officials do not provide such affirmation within a reasonable period of time, the district shall forward the documentation that such consultation has, or attempts at such consultation have, taken place to the State.\(^{13}\)

For more information, visit the [DEED Private School webpage](education.alaska.gov/eea/private-schools) (education.alaska.gov/esa/private-schools)

\(^{11}\) ESEA, Section 8538(b)

\(^{12}\) ESEA, Section 8501(c)(1)

\(^{13}\) ESEA, Section 8501(c)(5)
Activities and Supplemental Services

For purposes of the MEP, services are a subset of all the activities that the MEP provides through the program. Although districts may spend MEP funds on many types of allowable activities, some of these activities do not constitute a service (e.g., identification and recruitment or parent and family engagement activities). Services are distinct in that they are the educational or educationally related activities provided to migratory children to enable them to succeed in school. Because student success is the overarching goal of the MEP, services are a vital aspect of the program. In providing services, districts must give priority to migratory children who are priority for service (PFS).

In general, districts may use migrant education funds for allowable activities and supplemental services, as long as those activities and services address an identified need of migratory children. Refer to the General Spending Considerations section on page 26 for information regarding how to determine if Title I-C funds may be used for a particular activity or service.

Activities

Some expenses are allowable that are not used to provide direct services to students.

Possible activities a district could fund:

- Identification & Recruitment
- Records Management
- Administration of the Program
- Migrant Parent and Family Engagement
- Migrant Parent Meetings
- Professional Development (i.e., training programs for school personnel to enhance their ability to understand and appropriately respond to the needs of migratory children)

Supplemental Services

The U.S. Department of Education, Office of Migrant Education (OME) has issued specific non-regulatory guidance to define what constitutes a service in the MEP. For purposes of the MEP, services are a subset of all the activities that the MEP provides through its programs and projects. Although States and districts may spend MEP funds on many types of allowable activities, some of these activities do not constitute a service (i.e., identification and recruitment or parent and family engagement activities). Services are distinct in that they are the educational or educationally related activities provided to migratory children to enable them to succeed in school. Because student success is the overarching goal of the MEP, services are a vital aspect of the program.

Services are those educational or educationally related activities that:

- directly benefit a migratory child;
- address a need of a migratory child consistent with the State’s Comprehensive Needs Assessment (education.alaska.gov/ESEA/TitleI-C/docs/cna_final_report.pdf) and Service Delivery Plan (education.alaska.gov/ESEA/TitleI-C/docs/migrant_service_delivery_plan.pdf);
- are evidence-based or, in the case of support services, are a generally accepted practice; and
- are designed to enable the program to meet its measurable outcomes and contribute to the achievement of the State’s performance targets as outlined in the Service Delivery Plan.\textsuperscript{14}

\textsuperscript{14} Non-Regulatory Guidance, Chapter V, #A1
**Types of Supplemental Services**

OME differentiates services per the following definitions:

- **Instructional** – MEP-funded\(^{15}\) supplemental services that provide evidence-based instruction to migratory children in a subject area on a regular or systematic basis, usually for a predetermined period of time. It can include instruction provided by MEP-funded teachers or MEP-funded paraprofessionals. It can include correspondence courses taken by a student. The one-time act of providing instructional packets to a child or family does not constitute an instructional service.

- **Support** – MEP-funded\(^{16}\) supplemental services to provide support and advocacy to migratory children. These services include, but are not limited to, health, nutrition, counseling, and social services for migratory children, necessary educational supplies, and transportation.

Possible services a district could offer:

- Academic Instruction
- Tutoring
- After School Programs
- Help with School Supplies
- Graduation Support
- Career Education Services
- Support Services
- Health Services
- Distance Learning Programs
- Counseling and Testing Services
- Parent and Family Engagement Activities
- Referral to Local Agencies
- Preschool Services
- Literacy Materials through the Literacy Grant
- Family Literacy Nights
- Saturday Programs
- Summer or Intersession Programs
- Credit Recovery Programs

**Types of Service Delivery**

Districts have used a wide variety of service delivery designs. Districts can offer one or more types of programs to migratory children:

- During school day, during regular school year
- Extended time during regular school year
- Summer school
- Preschool

Note that it is often difficult to show that migrant services are supplemental if the district’s migrant program is offered during the school day, during the regular school year.

**Consolidation of Title I-C Funds into a Title I-A Schoolwide Program**

Under certain conditions, ESEA allows Title I-A Schoolwide schools to consolidate Title I-C funds with other Federal, State, and local funds to support any component of the educational schoolwide plan. Consolidation of Title I-C funds is a three-step process:

1. prerequisites must be met,
2. data must be gathered and analyzed, and
3. documentation must be uploaded in GMS.

For further information about consolidation of Title I-C funds into the schoolwide program, please consult the guidance located in the GMS Document Library (gms.education.alaska.gov/DocumentLibrary) and/or contact the migrant program manager. Contact information can be found on page 150.

---

\(^{15}\) MEP-funded is any supplemental service that is funded in whole or in part with Migrant Education Program funds.

\(^{16}\) MEP-funded is any supplemental service that is funded in whole or in part with Migrant Education Program funds.
Selecting Migratory Children for Supplemental Services

When selecting children for services, the district should:

1. identify the eligible migratory children with unique educational needs who reside in the area;
2. determine the educational and educationally related needs of the children to be served;
3. determine the focus of the program (i.e., instructional areas) based on a needs assessment; and
4. select children with the greatest need for MEP services according to the priority for services criteria on page 20.

Priority for Services

In accordance with the Priority for Services (PFS) provision, the districts must prioritize services for migratory children who have made a qualifying move within the previous one-year period and who: are failing, or most at risk of failing, to meet the challenging State academic standards; or have dropped out of school.

Alaska’s districts receiving Title I-C, Migrant Education Funds must target funds to provide services to migratory children. Districts may serve children who do not meet the “priority for services” criteria so long as they serve children who meet the criteria first. For example, a MEP project that operates only in the summer may serve migratory children who reside in the area during the summer, as long as it gives priority for summer services to migratory children who meet the priority for services criteria. Refer to page 20 for Alaska’s PFS criteria.

Preschool and Dropped Out of School

In addition to children who meet the criteria of the PFS provision, the needs of preschool migratory children and migratory children who have dropped out of school must also be addressed by the districts, as part of its effort to address the unique educational needs of migratory children more generally.

It is a requirement that that the unique needs of migratory children, including preschool migratory children and migratory children who have dropped out of school, are identified and addressed. Furthermore, districts must, in carrying out their programs and projects, address the unmet needs of preschool migratory children and migratory children who have dropped out of school.

Continuation of Services

Under the continuation of services provision, school districts may choose to offer continuation of services (COS) to migratory children whose eligibility has ended, under the following conditions:

1. A child who ceases to be a migratory child during a school term shall be eligible for services until the end of such term (i.e., fall, spring, summer).
   - The first subsection of the COS provision provides that any child who ceases to be migratory (i.e., reaches the end of their MEP eligibility period) during a school term shall be eligible for services until the end of such term. The U.S. Department of Education Office of Migrant Education (OME) interprets this to be applicable to any formerly eligible child, including OSY, and regardless of whether or not the child received MEP-funded services during their eligibility period.
2. A child who is no longer a migratory child may continue to receive services for 1 additional school year, but only if comparable services are not available through other programs.
   - The second subsection of the COS provision allows a child who is no longer MEP-eligible to continue to receive MEP services for one additional school year, but only if comparable services are not available. This may be applied to OSY, provided that he/she received MEP-funded services at some point during his/her period of eligibility, and provided that the MEP is able to document that comparable services are not available.

---

17 ESEA, Section 1304(d)
18 ESEA, Section 1304(d)
19 ESEA, Section 1304(b)(1)
20 ESEA, Section 1304(c)(4)
21 ESEA, Section 1304(e)
3. Students who were eligible for services in secondary school may continue to be served through credit accrual programs until graduation.
   - OME interprets the third subsection of COS to be applicable to a specific subset of all formerly eligible migratory children, based on the use of the term “students” rather than “children,” so only those children who meet all of the following criteria may be served through credit accrual programs until graduation:
     - Received MEP-funded services at some point during their period of eligibility (not necessarily credit accrual services),
     - Were MEP-eligible while in secondary school, and
     - Are considered by the State to be secondary school students.

Examples:

<table>
<thead>
<tr>
<th>COS Provision</th>
<th>Brief Description</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>If EOE is mid-semester, can <strong>continue</strong> to be served until end of that semester.</td>
<td>Child EOE in October. Serving him/her until winter break would be COS 1.</td>
</tr>
<tr>
<td>2</td>
<td>Already EOE can <strong>continue</strong> to receive services for 1 more school year, if comparable services are not available elsewhere.</td>
<td>Child EOE in October. Serving him/her until the end of the school year would be COS 2.</td>
</tr>
<tr>
<td>3</td>
<td>Already EOE secondary student can <strong>continue</strong> to receive services (credit accrual only) until graduation, if comparable services are not available elsewhere (must have previously received services in grades 7-12).</td>
<td>Child EOE in June after 10th grade. He/she received services in 8th, 9th, &amp; 10th grade. Providing credit accrual services (only), until he/she graduates would be COS 3.</td>
</tr>
</tbody>
</table>

Before the district provides services under these provisions, it should consider whether the child’s unmet unique educational needs are addressed by the general school program and whether migratory children who have a priority for services have already been served.

Please note that utilizing any of the above COS provisions needs to be a continuation of services. That is, a migratory child must have previously received supplemental services through the MEP during his/her eligibility period in order to qualify for continuation of services. A formerly eligible child should not be receiving Title I-C services for the first time after his/her eligibility has ended.

Be aware that children who have aged out of the program, graduated, or whose eligibility has ended due to a cancelled COE (and do not have eligibility from a previous COE) are not eligible for continuation of services.

**Children Who Have Aged Out of the MEP**

The U.S. Department of Education Office of Migrant Education (OME) does not consider individuals who aged out of the program to be eligible for the MEP, nor do they consider such individuals eligible to receive MEP services under the COS authority, because such individuals do not meet the definition of “child.” As described in Chapter II of the MEP Non-Regulatory Guidance (NRG), in order to be eligible for the MEP, a child must meet the definition of “migratory child” and “eligible children” in the statute and regulations that apply to the MEP and have the basis for MEP eligibility documented on a Certificate of Eligibility (COE). According to section 1115(c)(1)(A) of the Elementary and Secondary Education Act of 1965 (ESEA) as amended (incorporated into the MEP by sections 1304(c)(2), 1115(b), and 1309(3) of the ESEA and 34 CFR §200.103(a)), a “child” needs to be under 20 years of age, or under 22 years of age with an active Individualized Education Program (IEP) on file.

As described in Chapter V, A9 of the MEP NRG, in certain situations, a local operating agency (LOA) may continue to provide MEP services to children whose MEP eligibility has ended. However, given the use of the term “child” in this statutory provision (see section 1304(e) of the ESEA, as amended), OME interpret COS to be applicable only to individuals who meet the definition of “child”. OME acknowledge that the third COS provision (see section 1304(e)(3)) of the ESEA, as amended) uses the term “students” as opposed to “child”, but they consider students to be a subset of all children for purposes of the MEP.
Priority for Services (PFS) Criteria

The State of Alaska receives MEP funds from the U.S. Department of Education, Office of Migrant Education, to carry out the Federal Title I, Part C law which requires that priority must be given to migratory children who have made a qualifying move within the previous 1-year period and who— (1) are failing, or most at risk of failing, to meet the challenging State academic standards; or (2) have dropped out of school. 22

Alaska’s Migratory Children Priority for Services Criteria

One factor from criteria A and one factor from either criteria B1 or criteria B2 must be met in order for a migratory child/youth to be considered PFS. Criteria A + (Criteria B1 or Criteria B2) = PFS Student.

Criteria A

A student meets the criteria for making a qualifying move within the previous 1-year period of:

☐ The Qualifying Arrival Date (QAD) of the most recent migrant move was within the previous 1-year period,

AND

Criteria B1

A student meets the criteria for failing, or most at risk of failing, to meet the challenging State academic standards if one of the following criteria exists:

☐ Any eligible migratory child in grades K-2 who is determined to be at risk of failing to meet the challenging State academic standards through a district-determined assessment such as the DIBELS, the English language proficiency assessment, or appropriate universal screening assessment; or

☐ Any eligible migratory child in grades 3-9 who is below proficient in English language arts and/or math on the State summative assessment; or

☐ Any eligible migratory child in grades 10-12 who is determined to be at risk of failing to meet the challenging State academic standards through failing grades – student receiving D grade or below, or an incomplete, in a course during the previous 1-year period; or

☐ Any eligible migratory child in grades 10-12 who is determined to be at risk of failing to meet the challenging State academic standards through retention of grade – student is enrolled in same grade level from one school year to the next.

OR

Criteria B2

A student meets the criteria for dropping out of school if:

☐ The eligible student has dropped out of school.

22 ESEA, Section 1304(d)
**Identifying Priority for Services (PFS) Students**

**Grades K-2**

1. For students who were in grades K-2 during the 2020-2021 school year, the MEO will identify those students who meet Criteria A of the PFS definition by having made a qualifying move within the previous 1-year period. The MEO will send this list of K-2 students to the districts at the beginning of the 2021-2022 school year. Refer to page 18 for **PFS definition**.
   
   - This list will contain names of students in grades K-2 during the 2020-2021 school year who had a qualifying arrival date (QAD) between 06/01/2020 through 05/31/2021.
   - Due to low participation rates for the 2020-2021 State summative assessment, students in grades 3-9 may also be included in the list sent to districts. Please follow the same guidelines for these students as the K-2 students.

2. Districts will be responsible for sending back the list of K-2 students to the MEO by **October 15, 2021**, noting which of the students are failing or at risk of failing, to meet the challenging State academic standards.
   
   - These students should be selected based on district determined criteria, such as DIBELS, the English language proficiency assessment, preschool recommendation, or another appropriate universal screening assessment.

3. The MEO will flag these students as PFS in MIS2000.
   
   - The Data Field that flags students as PFS can only be accessed for data entry by the MEO.
   - District personnel will be able to see whether a student has been flagged as PFS in MIS2000.

4. Districts can request an updated PFS list that includes students in all grades (K-12) after November 15.

5. Records managers should ensure that the list of PFS students is communicated to the migrant program coordinator and/or person overseeing the PFS program so that appropriate services are targeted to these students.

**Grades 3-9**

1. For students who were in grades 3-9 during the 2020-2021 school year, the MEO will identify those students who meet Criteria A and Criteria B1 or B2 of the PFS definition using a combination of data from MIS2000 and the State summative assessment data.

2. The MEO will send this list of all Priority for Services students to each district records manager and migrant coordinator at the beginning of the 2021-2022 school year. Refer to page 18 for the **PFS Definition**.
   
   - This list will contain names of students in grades 3-9 during the 2020-2021 school year who had a qualifying arrival date (QAD) between 06/01/2020 through 05/31/2021 and were below proficient in English language arts and/or math on the 2020-2021 State summative assessment or had dropped out of school.
   - Due to low participation rates for the 2020-2021 State summative assessment, some students in grade 3-9 may be included in the K-2 list sent for district determination of PFS status. Please follow the same guidelines for these students as the K-2 students.

3. The MEO will flag these students as PFS in MIS2000.
   
   - The Data Field that flags students as PFS can only be accessed for data entry by the MEO.
   - District personnel will be able to see whether a student has been flagged as PFS in MIS2000.

4. Districts can request an updated PFS list that includes students in all grades (K-12) after November 15.

5. Records managers should ensure that the list of PFS students is communicated to the migrant program coordinator and/or person overseeing the PFS program so that appropriate services are targeted to these students.
Grades 10-12

1. For students who were in grades 10-12 during the 2020-2021 school year, the MEO will identify those students who meet Criteria A and Criteria B1 or B2 of the PFS definition using a combination of data from MIS2000.

2. The MEO will send this list of all Priority for Service students to each district records manager and migrant coordinator at the beginning of the 2021-2022 school year. Refer to page 18 for PFS definition.
   - This list will contain names of students in grades 10-12 during the 2020-2021 school year who had a qualifying arrival date (QAD) between 06/01/2020 through 05/31/2021 and had failing grades, retention of grade, or had dropped out of school.

3. The MEO will flag these students as PFS in MIS2000.
   - The Data Field that flags students as PFS can only be accessed for data entry by the MEO.
   - District personnel will be able to see whether a student has been flagged as PFS in MIS2000.

4. Districts can request an updated PFS list that includes students in all grades (K-12) after November 15.

5. Records managers should ensure that the list of PFS students is communicated to the migrant program coordinator and/or person overseeing the PFS program so that appropriate services are targeted to these students.

Identifying PFS Migratory Children During the School Year
If any additional migratory children meet the PFS criteria during the 2021-2022 school year, the records manager must alert the MEO data specialist to flag that student as PFS.

Examples:

- A 5th grade student is newly certified as migrant, and has a qualifying arrival date within the previous 1-year period. The student scored below proficient on the State summative assessment.
- An 11th grade migratory child, who has a qualifying arrival date within the previous 1-year period, drops out of school.
Coordination with Other Programs

Districts must identify and address the unique educational needs of migratory children by providing them a full range of services from appropriate local, State, and Federal educational programs. In providing these services, districts must plan jointly with local, State, and Federal programs and integrate the MEP with services provided by other programs. By coordinating with other programs, the districts ensure that the needs of migratory children are met through a variety of sources in a way that leverages other program funds and optimizes the use of MEP funds for the unique needs of migratory children. Districts must determine the children’s needs and identify all the available services that address these needs. Districts should then coordinate with those programs and agencies to provide services that meet the identified needs and help ensure that migratory children have access to appropriate programs and services.

Districts need to consider a full range of programs and carefully determine which ones to coordinate with in order to maximize the quality of, and access to, educational opportunities for migratory children. Below are a few examples of programs in which districts may coordinate with to meet the needs of migratory children.

Other ESEA Programs

Title I-A

Districts that receive Title I-A must ensure that eligible migratory children and formerly migratory children are selected to receive Title I-A services on the same basis as other eligible children. In a schoolwide program, schools must implement reform strategies that address the needs of all children in the school. In a targeted assistance school, migratory children are eligible to participate in the Title I, Part A program on the same basis as other eligible children.

Title III-A

If the district qualifies for a Title III sub-grant, migratory children who are English Learners must be selected to receive Title III services on the same basis as all other English Learner children.

Title IV-A – Student Support and Academic Enrichment

This program is intended to improve students’ academic achievement by increasing the capacity districts to: 1) Provide all students with access to a well-rounded education; 2) Improve school conditions for student learning; and 3) Improve the use of technology to improve the academic achievement and digital literacy of all students.

Title IV-B – 21st Century Community Learning Centers

This program supports the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools.

Title V-B – Rural & Low-Income School Program / Small Rural School Achievement Program

The purpose of these programs is to provide rural districts with financial assistance for initiatives aimed at improving student achievement. Awards are issued annually through the U.S. Department of Education (USED).

Title VI-A – Indian Education

It is the purpose of this program is to support the efforts of districts, tribes and tribal organizations, and other entities in developing programs for American Indian/Alaska Native students that are designed to: meet the unique cultural, language, and educational needs of such students; and ensure that all students meet the challenging State academic standards. USED manages these awards.

---

23 ESEA, Sections 1304(b) and 1306(a)
24 ESEA, Section 1112(c)(1)
25 ESEA, Sections 1114(b)(7)(i) and (iii)
26 ESEA, Sections 1115(c)(2)(A) and (C)
**McKinney-Vento Homeless Assistance Act - Education for Homeless Children**

Collaboration between MEP and the local Homeless Liaison to serve migratory children and youth experiencing homelessness ensures that services are provided in an efficient, non-duplicative fashion and that students receive a full range of supports to meet their needs.

MEP personnel can provide the local Homeless Liaison with the following: insights on the work patterns of local migrant communities, understanding of the educational, health, emotional, or social needs unique to migratory children; locations of migrant camps and communities; referrals of migratory children and youth who may be experiencing homelessness; and contact and communication with families of migratory children whose children may be eligible for, and in need of, the educational services provided by the McKinney-Vento Act.

The local Homeless Liaison can provide MEP personnel with the following: guidance in determining which migratory children and youth are eligible for McKinney-Vento services according to the definition of homeless; understanding of the provisions of the McKinney-Vento Act and ways it may be used to provide services, including immediate school enrollment and school stability, to eligible migratory children; assistance with accessing supports available through Title I, Part A, homeless set-aside funds; and knowledge of community referral resources, including providers of health, mental health, housing, and basic needs services.

By working together, the MEP and the local Homeless Liaison benefit migratory children and youth experiencing homelessness in their education and beyond by ensuring they are served efficiently and effectively with a comprehensive array of services.

**Other Federal Programs**

The Office of Migrant Education has compiled various coordination resources for the MEP (results.ed.gov/resources/resources).

**U.S. Department of Agriculture – Child Nutrition Programs**

The Child Nutrition Programs provide healthy, nutritious meals and snacks to the Nation’s children. Through the National School Lunch Program and School Breakfast Program, school children have access to healthy meals. Through the Special Milk Program, school children who do not have access to other meal programs can supplement their day with a serving of milk. Through the Child and Adult Care Food Program, children in childcare settings have access to healthy meals and snacks. Day care centers and home day care providers can participate in these programs. Through the Summer Food Service Program, children are provided healthy meals during those times when school is closed for the summer.

**U.S. Department of Education – Individuals with Disabilities Education Act (IDEA)**

IDEA provides early intervention, transitional services, professional development, technical assistance, and dissemination of knowledge about best practices to improve results for children with disabilities, including migratory children with disabilities.

**U.S. Department of Health and Human Services – Head Start Program**

Provides comprehensive developmental services to income eligible children from birth to age 5 in order to increase their school readiness.

**U.S. Department of Education – Carl D. Perkins Career and Technical Education Act**

The purpose of this program is to develop more fully the academic knowledge and technical and employability skills of secondary education students and postsecondary education students who elect to enroll in career and technical education programs and programs of study.
Fiscal Management

Sub-Grants to School Districts

Below are brief descriptions of each of the sub-grants a district may receive through Title I-C. For more information regarding the applications, award determinations, and funding periods refer to the Title I-C Spending Handbook (education.alaska.gov/ESEA/TitleI-C/docs/SpendingHandbook-TitleI-C.pdf).

ESEA Consolidated Application

Each school district operating a local MEP is funded by the Alaska Department of Education & Early Development (DEED) through a sub-granting process. The total amount allocated to applicants is based on the availability of Federal funds and on sub-granting factors determined by DEED. Title I-C MEP subgrant funds are not guaranteed. School districts are authorized by DEED to expend MEP funds through the approval of grant applications called the ESEA Consolidated Grant Application.

DEED considers the following factors in determining sub-grants to school districts:

- The availability of other funds.
- The number of migratory eligible children served during the regular school year.
- The number of migratory eligible children who were not served.
- The number of migratory children served during the summer.
- The number of migratory children in grades 3-9 scoring below or far below proficient on at least one State summative assessment in ELA and mathematics.
- The number of migratory children meeting the priority for services (PFS) definition.
- Identification & recruitment needs based on the total number of eligible migratory children and youth.

Annual Fall Training on the Identification & Recruitment of Migratory Children

DEED provides annual training for recruiters, records managers, migrant coordinators, SEA Reviewers, and Federal programs coordinators in the fall. On years in which DEED hosts in-person training on the identification and recruitment of migratory children, most expenses for attending the training are reimbursable to the district. DEED considers the approximate number of attendees and their projected costs to attend training. This information is provided to DEED annually during the registration process in the spring. Note: For the 2021-2022 school year, Fall Training will be virtual; therefore, no subgrants will be given to districts.

Alaska Migrant Education Literacy Grant

The Alaska Migrant Education Literacy Grant is a supplemental migrant education grant awarded to districts who choose to participate. The goal of this supplemental grant is to support districts in improving literacy with migratory children and their families. Family literacy night are encouraged, as well as supporting literacy efforts of migratory children who are not yet in school and those who have dropped out of school.

DEED considers the following factors when determining the award amount:

- how many districts applied, and
- the estimated number of migratory eligible children that will be participating (taken from a district’s submitted application).

State Parent Advisory Council (PAC)

The Alaska Migrant Education State Parent Advisory Council meets annually and is comprised of members from six (6) regions in Alaska. The council helps the MEO develop, implement, and review plans for the State MEP.

DEED considers the approximate number of in-person meetings and the distance which the PAC representative would have to travel to attend the meetings when determining the allocation amount for each grant. Note: For the 2021-2022 school year, all PAC meetings will be virtual; therefore, no subgrants will be given to districts.
General Spending Considerations

**All Federal Funds**

There are three general issues that affect districts spending Federal funds.

First, all costs charged to U.S. Department of Education (USED) grants must be *necessary and reasonable* considering the amount of money being spent and the needs of the program.\(^{27}\) This requirement comes from a set of Federal regulations known as the Uniform Grant Guidance (UGG), which applies to all Federal grants including ED grants.\(^{28}\)

UGG affects ED grant spending in a number of ways. It:

- **Lists costs that may never be paid for with Federal funds.**\(^{29}\) For example, Federal funds can never pay for alcohol\(^{30}\) and typically cannot pay for lobbying.\(^{31}\)
- **Lists general criteria all costs supported with Federal funds must satisfy.**\(^{32}\) For example, Federal funds can only pay for costs that are allocable to the relevant grant.\(^{33}\)
- **Sets additional requirements for certain costs supported with Federal funds.**\(^{34}\) For example, districts that use Federal funds for employee salaries and benefits must keep records documenting how much time the employees spend on grant activities.\(^{35}\)
- **Sets rules for how districts procure goods and services** with Federal funds,\(^ {36}\) how they track items paid for with Federal funds,\(^ {37}\) and the **kinds of records** they must keep about their grant spending.\(^ {38}\)

Second, activities supported by ED funds must be **consistent with the district’s application** for funds approved by DEED.\(^ {39}\)

Third, as discussed throughout this document, some ESSA programs require districts to spend on activities that are supported by evidence, are demonstrated to be effective, or that are consistent with a formal needs assessment. Even where this is not required, ED grant spending has the most impact when districts spend Federal funds on effective activities designed to meet program goals. To do this, districts are encouraged to:

- Carefully consider the needs of students, educators, and other relevant stakeholders,
- Determine which activities are most likely to effectively address those needs, and
- Prioritize those activities when deciding what costs to support with ESSA funds (unless those activities are being paid for by other funding sources).

For more information on how to adhere to Uniform Grant Guidance (UGG) and the Education Department General Administration Regulations (EDGAR), visit DEED’s [Federal Grants Management webpage](education.alaska.gov/grants/fed-grants).

\(^{39}\) 34 CFR § 76.700
Title I-C Migrant Education Program Funds

Determining Allowability
When determining if MEP funds may be used to support a particular activity or service, the district must determine the following:

1. the activity or service comports with the results of the State’s Comprehensive Needs Assessment (education.alaska.gov/ESEA/TitleI-C/docs/cna_final_report.pdf) and the strategies outlined in the State’s Service Delivery Plan (education.alaska.gov/ESEA/TitleI-C/docs/migrant_service_delivery_plan.pdf);\(^{40}\)
2. the MEP funds must first be used to meet the identified needs of migratory children that result from their migratory lifestyle, and to permit these children to participate effectively in school;\(^ {41}\)
3. the activity or service meets the needs of migratory children that are not addressed by services available from other Federal or non-Federal programs;\(^ {42}\)
4. the MEP funds are used to supplement, rather than supplant, the use of non-Federal funds;\(^ {43}\) and
5. the costs of the service or activity must comport with the cost principles described in the Uniform Grant Guidance (Subpart E of 2 CFR Part 200). The cost principles require, among other things, that costs of the service or activity be reasonable, necessary, and allocable (or chargeable) to the MEP relative to the benefit received.\(^ {44}\)

In terms of numbers 3 and 4 in the list above, documentation of efforts to investigate non-MEP resources is important for quality control. It also serves as evidence of compliance with the statute in case of a State or Federal monitoring or audit. For example, if speaking with service agencies, another Federal Program Director, or district officials, be sure to document the name and title of individuals spoken with and the date of the conversation.

Supplement, Not Supplant and Unaddressed Needs
Supplement, not supplant, means that funds must be used to provide for extra support or services. ESEA specifically applies the following rule to MEP funds: all Federal funds under this program shall supplement and not supplant all other non-Federal funds.\(^ {45}\) The MEP statute makes it clear that MEP services are in addition to, not in lieu of, other services that can or should be provided by the core educational program or by any other program.

Each of the instructional services provided with MEP funds must be supplemental to the core instruction provided by a district, and whenever possible, should NOT occur during the regular school day. If services are provided during the school day, the district must document the supplemental nature of those services.

The MEP statute also requires that MEP funds be used to address the needs of migratory children that are not addressed by services available from other Federal or non-Federal programs.\(^ {46}\) This is very similar to the supplement, not supplant rule, but it applies to services funded by Federal or non-Federal programs. In essence, it means that if there are other services available that address the needs of migratory children (including services provided with Title I-A or Title III funds), then migratory children must be selected for, and provided those services, on the same basis as other eligible children—prior to applying MEP funds.

\(^{41}\) ESEA, Section 1306(b)(1)
\(^{42}\) ESEA, Section 1306(b)(2)
\(^{43}\) 34 CFR § 200.87
\(^{44}\) 2 CFR § 200
\(^{45}\) 34 CFR § 200.87
\(^{46}\) ESEA, Section 1306(b)(2)
Interstate and Intrastate Coordination

It is a requirement that MEP funds are used to promote interstate and intrastate coordination of services to migratory children.\(^47\) This effort must include, but is not limited to, providing educational continuity through the timely transfer of pertinent school records, including health information, when children move from one school to another, and whether or not such moves occur during the regular school year. Interstate and intrastate coordination helps reduce the effects of educational disruption that migratory children experience as a result of repeated moves.

Interstate coordination refers to collaborative activities undertaken by two or more States to improve the education of migratory children in those States. Ideally, this term refers to the collaborative activities that two or more States assume to improve the education of migratory children who move between those States. Intrastate coordination refers to efforts involving two or more districts within a State to improve educational services to migratory children in that State.

Interstate and intrastate coordination strategies may include, but are not limited to, the following types of services between and among districts and States:

- Notifying "receiving" school districts about families of migratory children who have moved to those districts.
- Promoting the exchange of student educational records.
- Developing academic credit accrual and academic credit exchange programs.
- Collaborating in the development of summer-term project curriculum.
- Exchanging teachers and teaching materials.
- Exchanging information on health screenings and health problems that interrupt a student's education.

A State meets its requirements for student records transfer by participating in the Migrant Student Information Exchange (MSIX), the nationwide system administered by the U.S. Department of Education for linking and exchanging specified educational and health information for all migratory children. Regulations require states to collect, maintain, and submit to MSIX 76 Minimum Data Elements (MDEs) and otherwise exchange and use that information to facilitate enrollment, placement, and accrual of secondary credits towards graduation and MEP participation.\(^48\)

Transfer of Student Records

Section 1304(b)(3) requires interstate and intrastate coordination by providing for educational continuity through the timely transfer of pertinent school records (including health information) when children move from one school to another, whether or not the move occurs during the regular school year.

The timely transfer of student records can be an effective means of reducing the effects of educational disruption on migratory children. It enables school officials (e.g., school registrars, teachers, and guidance counselors) to make appropriate decisions regarding a student’s enrollment in school, grade placement, and academic plan (including, but not limited to, credit accrual and exchange).

Districts must request the records of eligible migratory children who arrive in their district and must transmit records of those migratory children who move out of their State or district to another location in a timely manner.

---

\(^{47}\) ESEA, Section 1304(b)(3)

\(^{48}\) 34 CFR § 200.85
**ESEA Monitoring**

Districts’ ESEA grants are monitored through the Federal programs monitoring process. Please contact the district’s DEED ESEA program manager for information regarding the risk assessment process DEED utilizes to determine the districts monitored each year. During the monitoring visit, the migrant program manager reviews the Title I-C program and the migrant identification & recruitment specialist provides a technical assistance visit with the district records manager. For more information about technical assistance visits, refer to the Technical Assistance Visit (page 33) and Technical Assistance Preparation Checklist (page 140) sections.

Common documents that could be requested during the monitoring and technical assistance visits are:

- Identification & Recruitment Plan
- Quality Control Plan
- Needs Assessment, Service Delivery Plan, and evaluation results
- ESEA Consolidated Application
- Paper copies of COEs and ARCs from the past 10 years
- Parent and staff survey results
- Migratory children and youth data
- Student records transfer request form
- Minutes/agendas from migrant parent meetings
- Migrant consolidation documentation (if applicable)

ESEA Monitoring Form can be found on DEED’s Forms page (education.alaska.gov/forms).

Quality Control

The Alaska Migrant Education Program (MEP) has created quality control processes that ensure that only eligible migratory children are recruited for the MEP and that all eligibility decisions are supported by appropriate documentation. These processes reflect the regulatory requirements of 34 CFR § 200.89.

All school districts that receive MEP funding from the Alaska Department of Education & Early Development must develop and follow a local quality control plan. The district quality control plan must describe how the district intends to follow Alaska’s MEP quality control guidelines and procedures.

The Alaska Migrant Education Program’s quality control goals are to:

1. identify and recruit all eligible migratory children and youth, including preschool migratory children and migratory children who have dropped out of school, in Alaska;
2. ensure that proper migratory eligibility determinations are made by MEP personnel; and
3. ensure that the districts and State maintain strong and accurate documentation.

Quality Control Procedures

Analysis and Accuracy of Migrant Reports

Any discrepancies between reports generated by the district and the MEO need to be reported to the MEO immediately. Refer to page 150 for the MEO contact information.

Staff Training

Statewide Training

The identification and recruitment (ID&R) of eligible migratory children in the Alaska is mission critical. Each year, approximately 13,000 children in Alaska, and their families, are identified and recruited for the MEP by migrant district personnel. It is a requirement of the Alaska Migrant Education Program to annually train and guide recruiters and records managers on how to identify and recruit migratory children, and how to make appropriate eligibility determinations. It is the Alaska Migrant Education Program’s responsibility to make sure district personnel carry out quality control procedures designed to ensure accuracy of recruiters’ and records managers’ eligibility determinations and written eligibility documentation. This is accomplished through recruiter and records manager training.

Recruiters, records managers, designated SEA reviewers, and new migrant program coordinators are required to receive annual MEP training on identification and recruitment. The Migrant Education Program’s fall trainings for recruiters and records managers are provided at several regional sites throughout the State. DEED funds the travel costs for district personnel to attend these trainings. On an as needed basis, webinars are hosted for personnel who could not attend an in-person training.

Topics covered during DEED’s statewide trainings include, but are not limited to: program overview, eligibility requirements, detailed walkthrough of COE, interviewing, COE completion, FERPA, cyber security, Alaska Migrant Web System, eligibility determination process, administering the program overview, recruiters and records managers duties, quality control requirements, reporting requirements, and the Alaska Migrant Database (MIS2000). All annual fall training materials, the Recruiter Handbook, and the Records Manager Guide can be found on the Title I-C webpage (education.alaska.gov/ESEA/TitleI-C).
Local Training

All staff involved with the district’s MEP should be given local training regarding local procedures and issues. The district should ensure that new manuals and training materials are given to all migrant staff. Local migrant training should include all people involved with migrant identification, recruitment, and eligibility certification.

Depending on the district, this may include:

- Recruiters
- Records Managers
- Data Entry Specialist
- Migrant Program Coordinators
- Designated SEA Reviewers
- Superintendents
- Principals
- Federal Programs Coordinators
- Teachers
- Counselors
- Registrars
- Paraprofessionals

District Migrant Staff Communication and Coordination

There should be effective workflow and communication between migrant staff members. The roles and responsibilities of each staff member should be understood by everyone in the program.

Communication and coordination steps should include:

- All migrant staff should understand the district’s migrant program including the program structure, purpose, requirements, services offered, and families served.
- Migrant staff should know their individual job requirements and understand how they fit into the workflow of the program.
- The lines of communication within the district, with the MEO, or with other districts should be clear.
- The district staff structure should be such that the workflow ensures the district’s program meets all requirements for State and Federal migrant regulations and laws.

Accuracy of Eligibility Determinations

The Alaska Migrant Education Program has several layers of review prior to a child being approved as eligible for the program. Every Certificate of Eligibility (COE) and Annual Recertification of No New Moves (ARC) must be quality reviewed by the recruiter, records manager, and designated SEA reviewer. By signing a COE or ARC, each district staff member ensures that the COE or ARC is complete, filled out correctly, and that the information meets the MEP eligibility requirements. Recruiters and records managers do not determine final eligibility.

After the COE or ARC data is entered into MIS2000 and uploaded, the MEO’s eligibility specialist reviews the information to ensure that it meets all eligibility requirements. The MEO makes the final eligibility determination on all COEs and ARCs. For more information on the appeals process, refer to page 41. Children new to the MEP are not eligible for services until the COE is approved by the MEO.

- Each COE is reviewed by qualified and trained records managers at each district. Training occurs each fall and additional training can be provided on a case-by-case basis, if necessary.
- The Eligibility Specialist at the MEO reviews each COE. If corrections are needed or information is unclear, the COE is sent back to the district for revision. It is reviewed again by the Eligibility Specialist once it is returned.
- If needed, the eligibility specialist will bring COE questions to the ID&R specialist and/or data specialist at the MEO. If questions still exist regarding child eligibility, the COE will go to a team meeting for team review. Team meetings are held weekly.
- If there are questions or doubts regarding eligibility or other unusual factors at the district level, the district office should contact the MEO (page 150).
- Children are not eligible for services in the Migrant Education Program until the COE is approved by the MEO.
Quality Control and Identification & Recruitment (ID&R) Plans

Quality Control Plan
Quality control is a vital part of a successful Migrant Education Program (MEP). All districts with a MEP should follow basic quality control procedures. A quality control process must be established through a written quality control plan. The quality control plan protects the integrity and accuracy of identification and recruitment policies and procedures. It also ensures that all potential migratory children are identified and recruited, only eligible children are certified as eligible, and policies are in place to ensure migratory children files and data are accurate.

Each district must have a written quality control plan on file. It is a document that establishes a quality control process for ensuring the integrity and accuracy of the identification and recruitment policies and procedures of a district-level MEP. This includes:

- Maintaining accurate migratory child data records in MIS2000 with all required data elements;
- Resolving data discrepancies;
- Sending and receiving migratory child records;
- Validating and verifying all information on COEs and migratory child records;
- Entering information into MIS2000 in a timely manner; and
- Validating and verifying all information reported to the MEO.

The MEO reviews districts’ quality control plans during monitoring and technical assistance visits. It is recommended that districts utilize the Migrant Education District Level Guiding Documents (education.alaska.gov/ESEA/TitleI-C/docs/District-Level-Guiding-Template.docx).

ID&R Plan
Identification and recruitment (ID&R) in Alaska consists of a well-conceived and well-coordinated process to ensure that the State is making timely and accurate eligibility determinations. Each district must have a written ID&R Plan on file. The purpose of an ID&R Plan is to ensure efficient identification and recruitment of migratory children within a district-level MEP.

Important roles within ID&R are the recruiter and the records manager. Coordination between these two positions is crucial for a successful ID&R process. In districts in Alaska, there may be one or more people in each position, depending on the size of the district. The two positions work closely during fall recruitment and collaborate on identification tasks and COE reviews. The recruiter works directly with families and the community. The records manager usually works with records, reports, and the migrant database. The duties are divided between the two positions as follows:

- **MEP Recruiter** – responsible for identification, recruitment, and COE completions.
- **MEP Records Manager** – responsible to review and verify COEs and submit them through MIS2000 to DEED, conduct enrollment and withdrawal activities, generate migrant lists and reports, and maintain the student records files.

The MEO reviews districts’ ID&R plans during monitoring and technical assistance visits. It is recommended that districts utilize the Migrant Education District Level Guiding Documents (education.alaska.gov/ESEA/TitleI-C/docs/District-Level-Guiding-Template.docx).
Prospective Re-Interviewing

The United States Department of Education’s Office of Migrant Education (OME) requires each State to conduct an annual review of the program’s eligibility determinations. Re-interviewing may alert the MEO to misunderstandings of the eligibility requirements at the district level. It may also help to find clerical or computer errors. The prospective re-interviews are conducted by trained and qualified personnel who are independent of the original interviews. The prospective re-interviews may be conducted either in-person or by telephone.

Interviewees are selected from a random student list generated by MIS2000. Interviews are conducted using a standard eligibility interview form. Following the interview, the answers from the form are compared to the COE. If the information contradicts the information on the COE or indicates that the family is not eligible for the migrant program, the MEO will bring the COE and issues raised during the re-interview to the attention of the records manager. The records manager will then have the opportunity to provide additional information such as notes from the recruiter, further information regarding the family’s migrant moves, as well as other pertinent information. The MEO will work with district staff until all questions and data integrity issues are resolved. An interviewee signature on a COE certifies that a parent is willing to talk to the MEO, should they be contacted.

COE Quality Control Review

Each year, at the conclusion of the major fall recruitment push, the MEO conducts a COE quality control review. Districts not being monitored or receiving a technical assistance visit by the MEO will have a random sample of COEs reviewed. The sample size is based on the migratory population size of the district and risk factors. The MEO pulls a sample of students approved in the current recruiting season. If inconsistencies are found between the hard copies and the data in MIS2000, the MEO alerts the district’s records manager, and the records manager then addresses the issues with the recruiters. This quality control process ensures accurate data at both the district and the MEO.

Technical Assistance (TA) Visits

The MEO conducts technical assistance visits with districts in conjunction with the ESEA Consolidated Monitoring visits. Each school year, the MEO will conduct approximately ten technical assistance visits with migrant staff. These technical assistance visits will be conducted virtually, or onsite at the district. During these visits, a staff member from the MEO will conduct a thorough review of the district’s identification and recruitment procedures, quality control procedures, migrant files, and compliance with eligibility requirements.

Technical Assistance Eligibility Verification from the MEO – This process involves calling a small percentage (10% of a district’s migratory population with a maximum of 20), drawn at random, of families of migratory children within that district to verify that the information on the COE is accurate. This is done prior to the technical assistance visit. Technical assistance eligibility verification will also be used to verify that original COEs in district files match what is in MIS2000.

Technical Assistance Form – An interview based on the technical assistance form will be conducted. The MEO staff will ask the records manager a series of questions about the district’s identification and recruitment procedures, review the district’s COE and ARC files, and review supporting files. This helps guide the visit, noting any areas of strength or where improvements could be made.

Training – The technical assistance visit also provides a retraining or extended training opportunity for migrant staff. During the on-site visit, a staff member from the MEO will devote time to answering questions, assisting records managers with MIS2000 entry and reports, developing and improving recruitment procedures, and any other specific requests.
MIS2000 Overview

Please note that all data and pictures of data shown throughout this guide are fictitious. This is done to protect child privacy and give the user an accurate look at systems and requirements.

About MIS2000

MIS2000 is the database used to store all migratory child data for the Alaska Migrant Education Program (MEP). MIS2000 is a firebird-based, Microsoft Windows-compatible, database program which stores all COE and enrollment information for Alaska’s migratory children. MIS2000 was developed by MS/EdD of Little Rock, Arkansas, and has been adapted to meet the unique data needs of Alaska’s MEP.

The data held in MIS2000 is used for all migratory child eligibility decisions. All information regarding enrollment and withdrawal dates, supplemental program information, and family contact information is contained in MIS2000. Further, the database is used by the MEP to complete federally mandated reports and to allocate funds to school districts. All data entered into MIS2000 comes from the COEs and ARCs submitted by the district and from district reports requested by the MEO.

MIS2000 can be accessed and interacted with in two ways: 1) Through the Alaska Migrant Web System and 2) through the MIS2000 Desktop App. Both tools draw from the same MIS2000 database but look and operate slightly differently. The MIS2000 database remains constant, but the way users interact with it varies slightly depending on whether they are using the Desktop App or the Web System. As of school year 2020-2021, the Desktop App is optional, as all records manager duties can be completed through use of the Web System. Unless otherwise noted, all usages of “MIS2000” in this guide refer the MIS2000 database from which the Desktop App and Web System pull information, and not the specific platform (Desktop App or Web System) used to access that database.

Starting in school year 2021-2022, the Records Manager Guide will focus solely on the Alaska Migrant Web System. If you need information regarding the Desktop App, download the MIS2000 Desktop Application Guide from DEED’s Title I-C webpage (education.alaska.gov/esea/TitleI-C – navigate to the “Identification & Recruitment” tab).

For more information on MIS2000, general questions, further assistance, or to report a problem, please contact the MEO. Refer to page 150 for MEO Contact Information.

Migrant Records Exchange Initiative (MSIX)

In order to achieve the goal of facilitating the transfer of education records between States and districts in those States to which migratory children move Section 1308(b)(1) of the ESEA, as amended, requires OME to “assist States in the electronic transfer of student records and in determining the number of migratory children in each state.” Furthermore, Section 1308(b)(2) requires OME, in consultation with the States to “ensure the linkage of migratory child record systems for the purpose of electronically exchanging, among the States, health and educational information regarding all migratory students eligible under this part.”

Established and administered by USED contract, the Migrant Student Information Exchange (MSIX) system is the technology that allows States to share educational and health information on migratory children who travel from State to State and who as a result, have student records in multiple States’ information systems. MSIX works in concert with the existing migratory child information systems that States currently use (MIS2000 in Alaska) to manage their migrant data to fulfill its mission to ensure the appropriate enrollment, placement, and accrual of credits for migratory children nationwide.

In Alaska, the MEO primarily utilizes MSIX on the districts’ behalf to:

1. Check migrant status of children newly arrived in the State, at the districts’ request.
2. Send move notifications when children leave the State.
3. Receive move notifications from other States when children move to Alaska.

Districts should work directly with the MEO if they have questions regarding a child’s migrant status in another district or State. If a child is migrant eligible in another State, the MEO is able to obtain that child’s records to help facilitate migrant recruitment and ensure placement in appropriate classes and grade levels. When a migratory child leaves the State, the district should notify the MEO as soon as possible regarding when and where a child is transferring. This ensures that a child will continue to receive migrant education services in their new location.

**MIS2000 Updates**
The following updates have been made to the MIS2000 database for the 2021-2022 school year.

**Electronic Signatures (COEs)**
The Web System now supports electronic signatures for COEs. Currently, electronic signatures must be collected in person through the Web System, with a stylus, finger, mouse, etc. Collection of electronic signatures is detailed in the section [COEs in the Web System](#), which begins on page 76.

**Electronic Certification (ARCs)**
The Web System now supports electronic certification of ARCs. Now, instead of printing and signing an ARC, users will check a certification checkbox. This will automatically populate the user’s name and date in the signature field, as well as a certification comment in the School History Line(s) created. More information can be found in the section [ARCs in the Web System](#), which begins on page 104.

**Take Ownership Feature (COEs)**
When COEs are submitted to the records manager level from the recruiter level (Incomplete to New status), records managers will now need to claim ownership of those COEs. This allows districts to have multiple records managers who can pick and choose which COEs they are going to review/approve. In certain circumstances, records managers may also need to take ownership of COEs rejected by the MEO. The take ownership process is detailed in the section [COEs in the Web System](#), which begins on page 76.

**Take Ownership Feature (ARCs)**
When ARCs are submitted from the recruiter level to the records manager level, records manager will now need to claim ownership of those ARCs. This allows districts to have multiple records managers who can pick and choose which ARCs they are going to review/approve. More information can be found in the section [ARCs in the Web System](#), which begins on page 104.

**Merge Student Restrictions**
If a records manager attempts to merge students with different sexes or birthdates during the COE approval process, the merge will be prevented, and an error message will appear. This helps prevent merging distinct child records. Contact the MEO if you believe the children are the same.

**Records Manager-Level Signature Clearing**
Records managers now have the ability to clear/edit all signatures on COEs they own in New/Rejected status. This process is detailed in the section [COEs in the Web System](#), which begins on page 76.

**Approve Child Restrictions**
When approving children onto a COE, the search feature will now limit which existing children appear in the search results. Existing children with a permanent term code (D, G, or Y), as well as children who are 22 years of
COEs Require Attention Message

Upon logging in, users will receive an alert at the top the screen if there are COEs that require their attention. Refer to the section Flash Messages/Alerts COEs in the Web System, which begins on page 70 for more information.

Web System Messages

The Web System now has functionality allowing the MEO to create messages that all users will see upon logging in. These messages will appear at the top of the screen each time a user logs in and will remain visible until a user closes the message. The MEO may use these to remind districts of upcoming deadlines, notify districts that important documents/reports are available, etc.

Desktop App Removed from Records Manager Guide

The Records Manager Guide will now focus solely on the Alaska Migrant Web System. If you need information regarding the Desktop App, download the MIS2000 Desktop Application Guide from DEED's Title I-C webpage (education.alaska.gov/esea/TitleI-C – navigate to the “Identification & Recruitment” tab).

Uploading COEs and Map Attachments to MIS2000

The Web System now has functionality allowing district users to upload scanned copies of COEs & map attachments into the MIS2000 database. Any COE that contains one or more ink signatures must have a scanned copy uploaded to MIS2000 prior to submitting to the MEO. Likewise, any COE that requires a map attachment (moves within a 15,000+ square mile district) must have a map depicting the move uploaded prior to submitting to the MEO. More information can be found in the section Uploading Attachments on page 96. This update also impacts district records retention requirements. See the section Records Retention, which begins on page 42, for more information.

Errors/Submission Checks

Enroll Dates for Grades 00 & OY Prohibited (COEs & ARCs) - If an enroll date is entered on a COE or ARC for children with grade 00 or OY, an error message will appear.

Future Date Error - All dates on a COE must be on or before the current date.

Missing Signatures and Signature Fields Errors - Error checks are in place to ensure that signature fields have been completed. If an electronic signature panel is blank, then the Signature on File checkbox for that field must be marked. If the Signature on File checkbox is not marked, then the electronic signature panel must be signed. If neither the electronic signature panel signed nor the Signature on File checkbox is marked, an error will occur. An error will also occur if the same signature field has both the Signature of File checkbox is checked and the electronic signature panel signed. Additionally, all signature data fields must be completed regardless of whether the COE contains electronic signatures or ink signatures.

Document Attachment Errors - Error checks are in place to ensure that the appropriate files have been uploaded when a COE is submitted to the MEO. An error will occur if any of the Signature on File checkboxes have been checked but no document has been attached. An error will also occur if the district names listed in question 1 or 4 of the Qualifying Moves & Work Section are the same for both the To and From districts but no map has been uploaded to the Web System. While recruiters have the ability to upload documents to the Web System, it is the records manager’s responsibility to ensure that COEs are submitted with the necessary documents.
The Records Manager

Role of the District Records Manager

This guide provides an in-depth timeline of a records manager’s responsibilities throughout the school year. The MEO recommends that these procedures be followed as closely as possible by district migrant staff in order to ensure that all migrant files are accessible, organized, and updated. There are some unique needs and circumstances that may cause districts to modify their procedures; however, records managers should consult the Migrant Education Office (MEO) before making changes. Records management and reporting procedures are intended to:

- provide systematic procedures for tracking COEs/ARCs through the identification and recruitment process;
- simplify filing procedures, eliminate duplicate copies, and make file retrieval easier; and
- ensure that records are organized and maintained in compliance with State and Federal guidelines.

Records managers are responsible for ensuring that all forms, resource materials, reports, and lists are prepared for migrant recruitment. Districts must keep all migrant files and related information in a central location. Most districts begin recruitment at the start of the school year and continue through the November 15 deadline. Records managers are encouraged to recruit on a year-round basis as they become aware of new children or children with new migrant activity.

If records managers have questions, need assistance with file maintenance or with other job duties, they should contact the MEO. Refer to page 150 for MEO Contact Information.

Records Managers’ Responsibilities

Training

- Attend the annual migrant education fall training on identification & recruitment.
- Review all training materials to better understand the necessary information needed to make eligibility determinations for the MEP.
- Train new recruiters and other district staff about the MEP.

Manage Recruitment Process

- Provide recruiters with needed materials: Fall Recruitment Report, Certificates of Eligibility (COEs), Annual Recertifications of No New Moves (ARCs), maps, etc.
- Set recruiter deadlines for interviews and COE/ARC completion.
- Obtain designated SEA reviewer signature on COEs.
- Review and enter complete and accurate COEs/ARCs into MIS2000.
- Review and validate recruiter COEs in MIS2000.
- Review and approve ARCs in MIS2000.
- Regularly submit entered COEs/ARCs in MIS2000 to the MEO for approval.
- Work with the MEO to correct COEs/ARCs.
- Make sure every child on the Fall Recruitment Report has been contacted.
- Provide parents with their eligibility determinations and a signed copy of their completed COE.

Filing/Reports

- Maintain COE/ARC records and all other migrant files following guidelines set forth in this guide. Refer to the Records Retention section on page 42.
- Ensure all required migrant reports (page 50) are submitted by due dates to the MEO. Refer to page 122 for Records Managers’ Critical Dates.
Fall Recruitment

Identification Methods

Federal regulations require that a satisfactory effort be made to identify all eligible migratory children. Every effort must be made to find and enroll every migratory child who lives in the district, regardless of when they arrive in the district, whether they enroll in school, or how long they stay.

It is not enough to enroll children that come to school. Special efforts need to be made to find and certify eligible children not in an Alaska public school including private school children, homeschool children, dropouts, infants, and preschoolers. Records managers often assist with migrant identification. This section describes various identification and recruitment methods.

Questionnaires

Within the school district, questionnaires given to parents as part of the annual school enrollment packet are a valuable tool for finding potentially eligible migratory children. Refer to page 142 for sample questionnaires. Questionnaires can be brief, including a few questions concerning basic migrant eligibility requirements. The migrant staff member will collect the questionnaires and determine which families should be contacted for an interview based on their answers.

This identification method can be very useful throughout the school year if the district continues to use the questionnaire for all new and transferring students.

The sample forms are included only as a guide; each district may want to develop its own questionnaire. It is important that the questions are worded carefully to avoid confusion and frustration for the parents. The MEO is always available for assistance.

District Outreach

- **Referrals** – Referrals from school officials are another valuable identification method. Teachers, counselors, and administrators should be provided with basic instructions concerning the eligibility requirements for the migrant program. If school officials believe a child might qualify for the migrant program, they can let migrant staff know. This referral can be done informally, or a referral form can be made available by the district’s migrant program.

- **Newsletter** – Another way to bring attention to the migrant program is to include articles explaining the importance of the program in the school newsletter.

- **Information Booths** – Many districts find it effective to set up information booths at school events such as: assemblies, start of school parent/student orientation meetings, parent-teacher conferences, literacy nights, etc.

Community Outreach

Districts are responsible for informing the community about their migrant program. Examples include:

- **Posters/Flyers** – Posters and/or flyers placed in prominent places and in areas of migrant work activity are used to notify the public of the migrant program. Many districts find harbors, post offices, grocery stores, Laundromats, community halls, housing units, fish processors, and preschools to be locations that are useful for reaching families of migratory children.

- **Newspaper Articles, Radio Announcements, TV Advertisements** – Articles concerning the migrant program can be submitted to the local newspaper, radio, TV station.

- **Community Organizations** – Many community organizations can provide connections to families. Providing information to and communicating with social service agencies, tribal councils, employers, libraries, PTAs, employment centers, and other community organizations can facilitate referrals.
• **Word of Mouth** – Many families are referred through word of mouth by other families of migratory children.

• **Social Media** – Many families frequently turn to social media platforms to connect with district, schools, and programs. Utilizing social media to advertise the program and connect to community members and families is a valuable tool for the MEP. Social media posts might include information on recruitment, services, and family engagement activities.

### Identification & Recruitment Materials

Each year, records managers must obtain and provide their recruiters with:

- copies of the COE (printed, electronic, web) for the current school year,
- copies of the ARC (printed, electronic, web) for the current school year,
- *Recruiter Handbook,*
- *Records Manager Guide* (as needed),
- Fall Recruitment Report, and
- other training materials and notes.

Training materials are updated annually and distributed at the migrant fall trainings. They can also be downloaded from the [MEO website](education.alaska.gov/ESEA/TitleI-C). Current manuals and materials should be stored with migrant files. All fall training materials from previous years should be discarded to avoid confusion.

### Maps

Each district should have a map that outlines the area of its school district. The map needs to be more detailed than a map of the entire State. School district maps must be:

- reviewed annually, and updated showing common migrant activity sites, distances, and school district boundaries,
- have a legend/scale for determining distance,
- available in the district’s migrant office, and
- distributed to recruiters.

Districts are responsible for ensuring that all migrant staff understand the location of the school district boundaries and any important details (landmarks, water boundaries) that are required to indicate that a move was across school district boundaries, or that the move was 20 miles or more, one way, in a school district of more than 15,000 square miles.

Moves across district boundaries do not require a map attached to the official COE on file at the district/in MIS2000.

Moves within a district that is greater than 15,000 square miles always require a map to be attached to the official COE on file at the district/in MIS2000 to document that both the child’s moves and the worker’s moves were at least 20 miles or more, one way, to a temporary residence.

One map tool districts may use is the [Alaska Schools & Education Map](#). This particular map will show all of Alaska’s public school district boundaries, as well as the communities & schools within them. Districts can use this resource to track routes, measure distances, and print custom maps. Instructions for the [Alaska Schools & Education Map](#) can be found on page 147.

### Important Lists and Reports

During recruiting, there are several lists and reports that records managers will need to prepare and refer to during the recruiting process. Lists pulled from MIS2000 that will be highly useful during recruitment include
the Snap 12 and Snap 6 reports. Refer to the Reports & Lists section starting on page 50 for a detailed list and descriptions of these reports.

**Additional Paperwork Preparation**

The next step is to prepare the paperwork for recruiters. Recruiters will need to have:

- new blank COE and ARC forms and/or electronic COE and ARC forms with current school year;
- access to the web COE and ARC (as applicable);
- pre-printed COEs (copies of last year’s COEs), if requested;
- copies of the parent questionnaires/surveys that indicate the family may have made a qualifying move, if applicable; and
- a list of children from the district’s Fall Recruitment Report that they must contact, listed in order of priority.

The blank hard copy and electronic COE and ARC must have the current school year printed on the top right corner. Use of a previous year’s COE/ARC forms is not permitted.

**Tracking Recruitment Progress**

During the fall recruitment period, records managers should establish a regular schedule for receiving progress reports from recruiters regarding their contacts and interviews with families of migratory children. This is important because it allows the records manager to provide updates to the MEO and assess whether the recruiting strategies need to be adjusted. Records managers are encouraged to call the MEO for assistance as needed. After the **November 15** deadline, records managers should establish a procedure for regular communication with the district recruiters.

Each district will need to have a system for tracking the progress of migrant recruitment. Effective processes include:

- setting recruitment deadlines;
- regular communication between recruiters and records managers;
- a uniform method of noting progress on recruitment paperwork;
- a system in place for collecting completed COEs and ARCs from recruiters; and
- an organized filing system.

**Submitting COEs**

Records managers should submit their COEs to the MEO as early as possible. This allows time for the MEO to review the information and get back to the districts with questions, if necessary, before the **November 15** deadline.

On **November 15**, districts are required to:

- submit the completed Fall Recruitment Report, and
- have entered and submitted all COEs for review and approval by the MEO.

The COEs submitted to the MEO and approved as eligible by the November 15 deadline establish the district’s Federal child count for funding purposes.

For more information and instructions, refer to Approving a COE in the Web System starting on page 88 and Creating a COE in the Web System starting on page 76.
Submitting ARCs
Annual Recertifications of No New Moves (ARCs) should be entered and submitted to the MEO as early as possible. This allows time for the MEO to review the information and get back to the districts with questions, if necessary, before the **November 15** deadline.

The ARCs entered and approved by the November 15 deadline establish the district’s Federal child count for funding purposes.

For more information and instructions, refer to the sections Creating an ARC in the Web System (page 104) and Reviewing an ARC Submitted through the Web System (page 108).

Eligibility Notification
Records managers are responsible for notifying families of their child’s eligibility determination, including those not approved. Records managers need to provide families with a copy of their child’s current school year COE. The COE copy sent to families can be a copy showing actual signatures, or the approved PDF version from MIS2000 with only typed signature information. Refer to page 145 for a sample eligibility notification letter. If there are any questions about eligibility at the district level, the issue should be referred to the eligibility specialist at the MEO for guidance.

Appeals Process
The MEO makes the final eligibility determination on all COEs. If a district or a parent would like to appeal a decision from the MEO, they may do so using the processes detailed below.

*District Appeals Process*
If a district would like to appeal the eligibility determination of a COE made by the MEO, it may submit a written request (via email) to the MEO for a second review. The MEO will conduct a team review of the COE and provide a written response to the district’s records manager regarding eligibility determinations. If the district is still not satisfied with the decision, it may contact the migrant program manager directly. If the situation continues to be unresolved, the migrant program manager will contact the regional representative from OME to assist.

*Parent Appeals Process*
If parents would like to appeal the eligibility determination made by their district or the MEO, they must first contact their district’s records manager. The records manager will review the eligibility determination with the parent. If the parents are not satisfied with the response from the records manager, they may contact the MEO (page 150) directly (via phone or email). The MEO will review the eligibility determination as a team and provide a written response to the parents. If the parents are still not satisfied with the decision, they may contact the migrant program manager directly. If the situation continues to be unresolved, the migrant program manager will contact the regional representative from OME to assist.
**Records Retention**

Records managers are responsible for ongoing recruitment of new children, providing migrant eligibility information to school district staff, and maintaining the migrant files. It is the job of the records manager to ensure that migrant COE and ARC files are kept in an orderly fashion. The following section describes recommended migrant file organization. Starting in school year 2020-2021, files may be stored physically (paper copies), or electronically. This section will cover both hard-copy and electronic records retention. Starting in school year 2021-2022, the MIS2000 database will store all new COEs and ARCs, so retention of these documents at the district level will not be required. Previous year COEs and ARCs must still be retained for their entire retention periods.

**Definition of a “Record”**

Per AS 40.21.150(6), a record is defined as “any document, paper, book, letter, drawing, map, plat, photo, photographic file, motion picture film, microfilm, microphotograph, exhibit, magnetic or paper tape, punched card, electronic record, or other document of any other material, regardless of physical form or characteristic, developed or received under law or in connection with the transaction of official business and preserved or appropriate for preservation by an agency or a political subdivision, as evidence of the organization, function, policies, decisions, procedures, operations, or other activities.” In other words, school districts may store records in any format as long as the record remains readable and accessible for its retention period.

Additionally, the Uniform Guidance (2 CFR §200.335) states that when original records are paper, electronic versions may be substituted through the use of duplication or other forms of electronic media provided that they are subject to periodic quality control reviews, provide reasonable safeguards against alteration, and remain readable. Therefore, the district may choose to scan copies of their migrant eligibility records (e.g., Certificate of Eligibility, Annual Recertification of No New Moves) and store them electronically. Refer to the Destroying Old Records section (page 48) for more information on the required retention period of migrant eligibility forms.

All migrant records should be stored securely so that only individuals with a business need to know can access them.

**Types of Records**

There are a variety of records that districts will need to retain. Below is a list of migrant record types that districts will likely keep on file, as well as recommended naming conventions to help with the organization of these records.

**Certificate of Eligibility (COE) Filing**

The COE is the most important document in the migrant files; it is the basis for each child’s migrant eligibility. The original COE must be kept by the district office for **ten school years**. COEs created in school year 2021-2022 and after will be stored by the MIS2000 database, so these COEs are not required to be retained at the district level. The information on the COE is sent to the MEO through MIS2000 where it is entered and uploaded. Instructions on creating COEs in the Web System start on page 76.

**Annual Recertification of No New Moves (ARC) Filing**

The ARC should be filed with the most recent eligible COE. Information on the ARC is sent to the MEO through MIS2000 where it is entered and uploaded. Entering ARCs into the Alaska Migrant Web System is covered on page 104. The ARC must be attached to the original COE and kept by the district office for **ten school years**. ARCs created in school year 2021-2022 and after will be stored by the MIS2000 database, so these ARCs are not required to be retained at the district level.
Active Files
These are COEs and ARCs for families with at least one currently eligible migratory child. The COEs and ARCs have been reviewed and approved by the MEO. They should be organized into family bundles and kept in the Active File, as long as at least one child listed on the COE and ARC remains eligible in the program.

Pending Files
These are COEs and ARCs that have not yet been approved by the MEO. Depending upon the number of COEs and ARCs a district has, the records manager may want to file these in categories, as the follows:

- District Review – Completed COEs and ARCs that need the signature of the Designated SEA Reviewer.
- Questions – COEs with specific eligibility concerns that require review or approval from the MEO.
- To Be Entered – COEs and ARCs that have been approved at the district level, but have not been entered into MIS2000.
- Uploaded – COEs and ARCs that have been entered into MIS2000 and uploaded for the MEO review. Hold COEs in this file until they have been reviewed by the MEO.
- Corrections and Clarification – COEs and ARCs that have been reviewed by the MEO, but more information or corrections are required from the district in order to determine eligibility. The corrections must be entered into MIS2000 and uploaded to the MEO for another review once that information is provided.

Inactive Files
These are COEs and ARCs for families of migratory children who are not currently eligible, but could become eligible in the future. For a COE or ARC to be categorized as inactive, every child listed on the COE or ARC must be in inactive status. Some possible reasons why COEs and ARCs may become inactive: all children on the COE or ARC move out of the district, their eligibility ends or parents withdraw children from the program. The completed Inactive Form/File Tab can be attached to the bundle, explaining the reason and date that each child was made inactive. If any child could become eligible again, the family bundle is kept in this file. Refer to page 141 for the Inactive File Labels Template.

Gone Forever File
These are COEs and ARCs for migratory children who cannot become eligible again, because they graduated from high school, aged out (turned 20 years old or 22 if an active IEP is on file), or are deceased. A family bundle can only be placed in this file if every child listed on the COE is in Gone Forever status. Many districts combine the Gone Forever files with the Inactive files. Either method can be used as long as files are clearly labeled.

Canceled COEs
COEs for children who did not qualify for the program because they did not meet all the eligibility requirements.

Other Migrant Files
- Documentation on Termed out Children – This could include correspondence with families of migratory children, or district documentation on the termination of eligibility for a child.
- Other Paperwork – Any other documentation provided to the MEO for eligibility verification.
- Map of School District – Every district is required to maintain a school district map showing district boundaries and work locations such as fish camps, rivers, etc. Maps must have a scale.

Correspondence
This includes printed letters, e-mail messages, or other important information sent by the MEO or U.S. Office of Migrant Education (OME) regarding the Migrant Education Program in general. It may include the MEO guidance, deadlines, trainings schedules, or correspondence sent by the records manager to the MEO.
**MIS2000 Migrant Lists**

There are several useful lists of migratory children and youth that can be kept filed with the migrant records; however, once a district no longer has need of a Snap report printed from MIS2000, it can choose to securely destroy it. For more details on MIS2000 lists, refer to page 54.

- Current Eligible Student List (Snap 12)
- District All Eligible Service/Lunch List
- Missing Eligible Students
- Eligibility Status Report (Snap 6)
- COEs Active and the Children on each COE (Snap 7)
- Priority for Service Student (Snap 14)
- MEO Provided Lists (Missing Eligible, PFS 3-12)
- PrePrints

**Reports**

Districts are required to submit several reports throughout the year. These should be kept with the district’s migrant files. These reports must be kept for five school years, after which they can be destroyed. For more information each report, refer to Migrant Reports on page 50.

- Summer Withdrawal Report
- PFS K-2 Report
- Fall Recruitment
- Course History Reports
- Alaska Migrant Education Literacy Grant Final Report
- Mass Withdrawal Report
- Fidelity of Strategy Implementation

**Physical Records Maintenance**

Before school year 2020-2021, districts were required to store hard copy, paper copies of migrant files. This section will cover guidance for districts wishing to continue storing physical copies of migrant records. Physical records should be kept in a secure, locked location to prevent unauthorized access to student data.

**COE/ARC Filing**

The COE is the most important document in the migrant files; it is the basis for each child’s migrant eligibility. The information on the COE is sent to the MEO through MIS2000 where it is entered and uploaded. Instructions on creating COEs in the Web System start on page 76.

The ARC should be filed with the most recent eligible COE. Information on the ARC is sent to the MEO through MIS2000 where it is entered and uploaded. Entering ARCs into the Alaska Migrant Web System is covered on page104. The ARC must be attached to the original COE.

Both COEs and ARCs must be kept by the district office for ten school years.

For districts storing paper copies of COEs & ARCs, it is recommended that districts file their COEs according to the following specifications:

- When filing COEs & ARCs, they should be grouped into family bundles by family last name. ARCs should be kept with the most recent COE.
- The family name is determined by the last name of the first child listed on the COE/ARC, who is the youngest qualifying child in the family.
- Within the family bundle, COEs/ARCs should be in descending chronological order, with the most recent COE in the front of the family bundle.
• After eligibility has been confirmed, all COEs/ARCs should be attached to the front of the appropriate family bundle.
• The family bundle must be filed according to the most recently approved COE/ARC.
• Due to blended families and other circumstances, the family last name may change from year-to-year.
• Remember that COEs and ARCs must be kept for ten school years before being destroyed.

Electronic Records Retention

Beginning in school year 2021-2022, the MEO is allowing districts to store their migrant records electronically. Per AS 40.21.150(6), a record is defined as “any document, paper, book, letter, drawing, map, plat, photo, photographic file, motion picture film, microfilm, microphotograph, exhibit, magnetic or paper tape, punched card, electronic record, or other document of any other material, regardless of physical form or characteristic, developed or received under law or in connection with the transaction of official business and preserved or appropriate for preservation by an agency or a political subdivision, as evidence of the organization, function, policies, decisions, procedures, operations, or other activities.” In other words, school districts may store records in any format as long as the record remains readable and accessible for its retention period.

Additionally, the Uniform Guidance (2 CFR §200.335) states that when original records are paper, electronic versions may be substituted through the use of duplication or other forms of electronic media provided that they are subject to periodic quality control reviews, provide reasonable safeguards against alteration, and remain readable. Therefore, the district may choose to scan copies of their migrant eligibility records (e.g., Certificate of Eligibility, Annual Recertification of No New Moves) and store them electronically. Refer to the Destroying Old Records section (page 48) for more information on the required retention period of migrant eligibility forms.

General Electronic Records Guidance

Electronic records must be reliably and securely maintained:

• Electronic records should be maintained in their electronic form, because preserving the context and structure of records and facilitating access to them are best accomplished in the electronic environment.
• Records created and maintained within reliable electronic recordkeeping systems should serve, in most cases, as the official record copy.

Electronic records must be preserved without loss of any vital information for as long as required by law and policy:

• The future usability of electronic records must be ensured through the development of migration or conversion strategies designed to update hardware, software and storage media.
• Electronic records must include or be linked to the essential metadata describing content and structure of the business record and the context of its creation.

Electronic records must be accessible and retrievable in a timely manner throughout their retention period:

• Electronic records must be easily accessible in the normal course of business.
• Electronic records must be searchable and retrievable for reference and secondary uses including audits, legal proceedings, and historical research.

Access to electronic records must be controlled according to well-defined criteria. Recordkeeping systems must ensure that electronic records are protected from unauthorized access:

• School districts must take measures to prevent unauthorized access to private and confidential electronic records by identifying records that are subject to restrictions.
• Records must be accessed to the minimum amount necessary to perform a business activity or function.
**Maintenance and Long-term Preservation of Electronic Records**

To ensure that electronic records are readable for future use a proactive maintenance plan must be implemented. The maintenance plan would involve migrating records when operating systems and/or software applications are changed or upgraded. It is best practice to create a documentation trail when files are migrated from one system to another, and this documented trail file should include: systems and software specifications, date of migration, name and job title of person responsible for migration, and description of any loss of information that may occur during the migration process. Electronic records are best maintained in a managed environment that includes regular system back-ups and a disaster recovery plan.

The National Archives publishes a list of [preferred formats for electronic records](archives.gov/records-mgmt/policy/transfer-guidance-tables.html).

**Migrant Electronic Records Retention**

If a district chooses to begin maintaining their migrant eligibility records electronically, they must follow the [General Electronic Records Guidance](#) outline on page 45. This section provides additional expectations for maintaining electronic migrant eligibility records.

Districts must have the final approved version of any COE/ARC securely saved in their electronic filing structure. These forms must match what is approved in MIS2000.

The COE/ARC must be easily readable. Poor quality scan/faxes are not acceptable.

Each COE that requires a map be attached must have such map saved with the COE in the same document. The COE and map must be saved as a single file – they cannot be saved as separate files. Even if a family moves to the same place each year, a map must be attached to the COE each year.

The filing structure and naming conventions must be consistent and easily understandable. Districts are not required to go back in time and save previous year migrant eligibility records electronically. They can continue to maintain the paper files until the end of their retention period. However, if a district chooses to migrate previous year migrant eligibility forms to their electronic records, each migrant eligibility form (with applicable required attachments) must be saved as individual files. It is not acceptable to scan all migrant eligibility forms into one document; this would not meet the requirements of being easily accessible and retrievable.

Districts must work with their IT department to ensure that the electronic records are maintained in a managed environment that includes regular system back-ups and a disaster recovery plan and to implement measures to prevent unauthorized access to the confidential migrant eligibility forms.

Plans must be in place around migrating records when operating systems and/or software applications are changed or upgraded. It is imperative the district avoids file format obsolescence (i.e., Microsoft Word 1996). There should also be a plan in place around migrating records from one format to another to ensure continued access using new technologies. Districts should avoid media and hardware/software obsolescence (i.e., floppy disks).
Written Plan
Districts choosing to save migrant eligibility forms electronically must have clear written procedures that describe how the records are:

- reliably and securely maintained,
- preserved for future readability,
- accessible and retrievable in a timely manner,
- protected from unauthorized access, and
- kept for the entirety of their required retention period

Refer to the Electronic Records Retention (page 45) section for more information regarding the requirements for electronic records.

Possible Electronic File Structures and Naming Conventions

Example of File Structure
In general, DEED strongly encourages districts to create folders for each fiscal year. Within the fiscal year, there would be folders for approved, submitted to the MEO, and canceled records. This would allow records managers to keep track of the records while they are in process for approval. Districts must keep approved records separate from those in process and canceled. As COEs and ARCs are moved through the process, the records managers would move the COEs and ARCs from the “Submitted to the MEO” file to the appropriate “Approved” file. Below is a screen shot of what one year’s filing structure could look like.

Possible COE/ARC Naming Conventions
DEED does not have a mandatory naming convention. However, it is expected that the district is consistent in their naming convention and that the naming enables individuals to efficiently find specific COEs and ARCs. Below are two examples of naming conventions districts could use.

Option 1
Save the COEs by the COE ID # (generated from the migrant student information system, MIS2000), plus the last name of children on the COE.

Save the ARCs by the COE ID # of the COE that it recertified, plus the last name of children on the COE, and then add “ARC” to the end of the name.

Examples:
- The approved 2021-2022 COE for the Anderson family is COE ID# of AK0-21-15595. The electronic record name would then be: “AK0-21-15595Anderson”
- The approved 2021-2022 ARC for the White/Kendall family recertified their 2020-2021 COE (COE ID# AK0-20-99999). The electronic record name would then be: “AK0-20-99999WhiteKendall ARC”
Option 2
Save the COEs and ARCs by the last name, then the first names of the children, followed by “COE” or “ARC,” and then the fiscal year.

Examples:

- An approved 2021-2022 COE for the Anderson family that has two children named Alicia Anderson and Matthew Anderson on it would have the record name: “Anderson, AliciaMatthew – COE – FY21”
- An approved 2021-2022 ARC for the White/Kendall family that has three children named Tom White, Jessica Kendall, and Levon Kendall on it would have the record name: “WhiteKendall, TomJessicaLevon – ARC – FY21”

MIS2000 Retention of COEs and ARCs
Beginning in school year 2021-2022, districts will no longer be required to retain COEs and ARCs. COEs and ARCs prior to 2021-2022 must continue to be retained at the district for their required retention period. Due to the changes to signature collection for COEs and ARCs, all COEs and ARCs (beginning 2021-2022 school year) will be stored by the MIS2000 database. ARCs now include electronic assurances that take the place of ink signatures. COEs can now be signed electronically within the MIS2000 database. For COEs that cannot be completely signed electronically, quality control checks require that those COEs are scanned and uploaded into the database. Move maps must also be uploaded into the database, where appropriate. These changes mean that the MIS2000 database now houses all relevant data related to records retention for these documents, and that districts are no longer required to retain/maintain these documents moving forward. All COEs and ARCs prior to 2021-2022 must be retained at the district for the required ten years.

Districts are strongly encouraged to abide by the following guidelines regarding this change in retention of ARCs and COEs:

- Securely store all new COEs (and move maps, if applicable) containing one or more ink signatures at least until approved by the MEO.
- Securely store all new COEs (and move maps, if applicable) until the end of the school year.
- When uploading ink-signed COEs and/or move maps to the Web System, please use the following file naming conventions:
  - COEs – COE ID # followed by the last name(s) of the children included (Example: AK0-21-123456Lastname)
  - Move Maps – COE ID #, followed by the last name(s) of the children included, followed by the word “Map” (Example: AK0-21-123456-LastnameMap)

Please note that COEs and ARCs prior to 2021-2022 must still be maintained by districts for the entirety of their retention period (10 years). Migrant reports are not affected by these changes and must also be retained for their required retention period (5 years).
Destroying Old Records

**COEs/ARCs are kept for a total of 10 years.** Districts should only have COEs and migrant paperwork dating back to the 2012-2013 school year in their files. Older COEs/ARCs should be shredded, even if the family still has active children in the program. COEs/ARCs from 2011-2012 and all prior years must be securely shredded.

**Example:** A COE that indicates that a child made a qualifying move in October 2011 means that the child will remain eligible, without another qualifying move, until October 2014. A child eligible in October 2014 would be included in the Federal child count for the period 09/01/2014-08/31/2015 and would generate Federal FY16 (State FY17) funding for Alaska. Federal FY16 (State FY17) funds may be used until September 30, 2018. DEED does not need to submit the final expenditure report for these funds to USED until December 31, 2018. *The three-year record retention period begins in December 2018 when DEED submits the final expenditure report and runs until December 31, 2021. Therefore, the district would have to keep the COE until December 31, 2021.*

Reports can be shredded/destroyed after **five years** and printed MIS2000 lists (Snap reports) can be shredded as the district no longer has need of them. All migrant records (including COEs, ARCs, reports, migrant lists, correspondence and other notes) should be reviewed and old files shredded annually.

Reports & Lists

Migrant Reports

States are required to collect and report minimum data elements (MDEs) to the U.S. Department of Education – Office of Migrant Education (OME). MDEs are data elements that States must collect and maintain in their migratory child databases (i.e., MIS2000) for each of their eligible migratory children in order to make those data available to other States via the national migratory child database, MSIX.

Alaska collects the federally required MDEs for each migrant eligible child through COEs, ARCs, statewide data collections, and the various migrant reports listed below. If the district has questions regarding migrant reports, contact the data specialist at the MEO. For MEO contact information, refer to page 150.

Reports are exchanged between the MEO and district staff utilizing the Alaska Migrant Web System. This is done to protect migrant data and child privacy. For more information, refer to Web System File Transfer Exchange Protocol starting on page 72.

Summer Enrollment and Withdrawal Report

This report is only for districts that run a migrant-funded summer program. Districts will receive the Summer Enrollment and Withdrawal Report from the MEO in mid-August each year. Records managers report the supplemental program services migratory children received during the summer program on this Summer Withdrawal Report. The deadline for submission of this report to the MEO is September 30.

This report should be completed for any summer program regardless of whether or not it crosses the fiscal year.

- **2021 Summer** (Between 2020-2021 and 2021-2022 school years) Report due September 30, 2021
- **2022 Summer** (Between 2021-2022 and 2022-2023 school years) Report due September 30, 2022

Information collected on the Summer Enrollment and Withdrawal Report for students that participated in a migrant funded summer program:

<table>

<tr>
<td>COS Provision</td>
<td>Enter which continuation of services provision was used to provide services after a child’s eligibility ends. See page 18 for more information on continuation of services.</td>
</tr>
<tr>
<td>Comments</td>
<td>Provide any other information the MEO should know about each student.</td>
</tr>
</tbody>
</table>

Sample Migrant Reports can be found starting on page 123.
**PFS K-2 Report**

This list will contain the names of students in K-2 (during the previous year) who have made a qualifying move within the previous 1-year period and will be sent to districts by the MEO. Districts will be responsible for sending back the list of K-2 students to DEED by **October 15**, noting which of the students are failing, or at risk of failing, to meet the challenging State academic standards. These students should be selected based on district-determined criteria, such as DIBELS, preschool recommendation, etc. The deadline for submission of this report to the MEO is **October 15**.

<table>

<tr>
<td>Qualify as PFS</td>
<td>This is a yes (Y) or no (N) field used by the district to denote whether the child qualifies as PFS.</td>
</tr>
<tr>
<td>What Method Used to Determine “At Risk of Failing”</td>
<td>In this field, the district will describe the method used to determine that the migratory child is at risk of failing to meet the challenging State academic standards.</td>
</tr>
</tbody>
</table>

*Sample Migrant Reports* can be found starting on page 123.

**Fall Recruitment Report**

The Fall Recruitment Report (FRR) serves as a to-do list showing all of the eligible children in the district who have not yet reached their End of Eligibility date. The records manager must contact the families of all of the children on the FRR. It is the main report used for fall recruitment; completion of this report by the district records manager is mandatory. Districts will receive the Fall Recruitment Report from the MEO in mid-August. The report must be filled out and returned to the MEO in electronic format by the **November 15** deadline and the district must keep a copy on file (electronic or hard copy) with the migrant records.

All families of the children on the Fall Recruitment Report should be contacted and interviewed to determine if their children:
- are still living in the district, **and**
- have made a new move(s), **and**
- are still attending school in the district.

All students whose eligibility ended during the summer or whose eligibility will expire at the beginning of the school year should be contacted first.

Information collected on the Fall Recruitment Report:

<table>
<thead>
<tr>
<th>Data Element</th>
<th>Description</th>
</tr>
</thead>
</table>
| Term Code                        | List a term code (reason why the student exited the MEP before the end of their eligibility), if applicable.  
  - Example: family moved to another district, district would enter term code "M."  
  - Refer to page 127 for a complete list of term codes. |
| Term Date                        | Provide the date the student "termed out," if term code was provided.  
  - Example: family moved to another district on 10/15/20.  
  - Make sure to list all graduates and their graduation dates (term date). |
| Family Interviewed               | Mark if the family was interviewed. |
| New Move and No New Move         | Mark if a COE or an ARC was completed for the student. |
| Uploaded                         | Mark if the COE/ARC was uploaded to the MEO in MIS2000. |
| Why No COE/ARC                   | List reason why there was no COE or ARC completed, if applicable. |
| Notes                            | Enter any other information the MEO should know regarding the student. |
If the district does not recertify all eligible children by **November 15** each year, they will not be in the district count and the district will not receive funding for them. However, they are still eligible for, and entitled to receive, migrant supplemental program services and free meal benefits.

**Sample Migrant Reports** can be found starting on page 123.

**Course History Reports**

Each district is required to report course history on all currently eligible migratory children, grades 9-12. This data is collected and reported to the MEO twice a year. Districts will receive the Course History Report twice a year (December 15 and May 1), which will include all eligible migratory children for the current school year, grades 9-12. The deadline for submission of the Course History Report to the MEO are twice a year, on **January 31** (semester one) and **June 30** (semester two).

Information collected on the Course History Reports:

<table>

<td>Provide any pertinent notes the MEO should know.</td>
</tr>
</tbody>
</table>

**Sample Migrant Reports** can be found starting on page 123.

**Alaska Migrant Education Literacy Grant Final Report**

This report is for districts that choose to participate in the Alaska Migrant Education Literacy Grant. It is a short, final report that serves as the conclusion of the Literacy Grant year. The Final Report will be sent to districts in the spring. Districts will indicate how many books were ordered and how many migratory children received books. Districts will also describe the book distributions, and any associated activity, on the report. The deadline for submission of this report to the MEO is **April 30**.
Mass Withdrawal Report

Districts will receive the Mass Withdrawal Report from the MEO in early April each year. The Mass Withdrawal Report serves two purposes: to withdraw all migratory children and youth from MIS2000 each year, and to provide the MEO with a list of supplemental services each migratory child received during the school year. Through the Mass Withdrawal Report, districts also report term codes and dates, such as graduates, out of school youth, and families who have moved out of district. The Mass Withdrawal Report is one of the major resources consulted for preparing State and Federal reporting. Instructions on the Mass Withdrawal Report are provided in the spring. Federal Programs Directors/Migrant Coordinators need to review the Mass Withdrawal Report and complete the cover page worksheet. The deadline for submission of this report to the MEO is June 15.

Information collected on the Mass Withdrawal Report:

<table>

</tbody>
</table>

Sample Migrant Reports can be found starting on page 123. For questions regarding migrant funded supplemental services and/or how to report these services, contact the data specialist at the MEO. For MEO contact information, refer to page 150.

Fidelity of Strategy Implementation (FSI) Tool

Required by the U.S. Department of Education’s Office of Migrant Education, the FSI Tool is a self-assessment resource for districts to evaluate their implementation of migrant-funded services in the Service Delivery Plan Goal Areas (education.alaska.gov/ESEA/TitleI-C/docs/migrant_service_delivery_plan.pdf). This resource will help address the implementation evaluation of the Alaska Migrant Education Program (MEP), aid in determining the extent to which MEP services are delivered with fidelity, and inform State MEP staff and the program evaluator about the level of Strategy implementation at each local MEP. Reflecting on services provided during the 2020-2021 school year, districts will complete the FSI Tool for Regular School Year and Summer (as applicable) Programs. Districts will rate only those activities that were planned and carried out (do not rate planned activities that have not yet occurred), and only those activities implemented using Title I-C funds.
MEO Provided Lists

Missing Eligible Students
This report is useful to districts after fall recruitment is over. The report lists the children in the district that still have migrant eligibility but were not recertified for the current school year. The MEO will run the missing eligible student list for the districts and send out in mid-December.

Priority for Services 3-12 List
This list contains the names of students in grades 3-12 who have made a qualifying move within the previous 1-year period and who are failing, or most at risk of failing, to meet the challenging State academic standards or have dropped out of school. The children on this list have already been determined to be PFS for the current school year; the district is not determining their PFS status. This list will be sent to districts by the MEO at the beginning of the school year, and should be used to target services to children most in need.

MIS2000 Lists (Snap Reports)
MIS2000 has a number of built-in reports, called “Snap Reports”, that records managers can pull as needed. Below are instructions on how to pull them (Web System only), as well a description of each report.

Pulling Reports in the Web System
Records managers have access to a Reports tab in the Alaska Migrant Web System (ak.msedd.com). Recruiters do not have access to this tab. From the Reports tab, the records manager can access the following Snap reports:

1. 01 PrePrints Top
2. 06 Eligibility Status Report
3. 07 COEs ACTIVE and the children on each COE
4. 12 Monthly Eligible_Updated
5. 14 Priority For Service Students
6. Migrant Lunch List

For detailed information about each of these Snap reports, refer to the Snap Reports Details section starting on page 55.

To run a Snap report in the Web System, refer to the instructions below:

1. Navigate to the Reports tab of Alaska Migrant Web System (ak.msedd.com).

2. Use the drop-down list in Number 1 to select the desired report.

3. In Number 2 click on filters required for each report and complete the comparison.
   • District Display Code is always a required field.

4. Under Then a Comparison, select the = button.

Under the Then Your Values... enter the required District Display Code (use all capital letters).

5. Click on Add Filter button. When the filter has been successfully added to the report, a line will appear in the box beside the Date Range fields.

6. Enter Date Range, if applicable.

7. Under Number 3 click Run Report button.
8. Once the report has run, the report can be saved in either CSV or PDF format.
   - The CSV format allows the user to open and manipulate the report in Excel.

If the report produces no results, users will see the message, “The report produced no results” at the top of the REPORTS tab screen. **Note:** This message also appears when filters are applied incorrectly. If users receive this message unexpectedly, please double check the use of any filters and try again. If reports are not pulling correctly, please contact the MEO (page 150).

**Snap Reports Details**

**PrePrints Top**

**Report Details**

**Purpose:** This report produces a PDF of all active COEs in the district, based on the START DATE selected by the user. Note: Information is populated in an old version of the Alaska COE – do not use for records retention purposes.

**Run:** PREPRINTS TOP

**Instructions:** Click on the REPORTS tab and select SNAP! REPORTS in the drop-down menu. Choose report PREPRINTS TOP. Click DISTRICT.DISPLAYCODE under FIELDS, check the = in the COMPARISON, and enter the DISTRICT DISPLAY CODE in the VALUES box (e.g. AKDNCG). Click ADD FILTER. Click in the START DATE field enter date 08/01/YYYY (current school year), then click RUN REPORT.

**Fields Included:** This report includes all items on the COE, but leaves signature fields blank.

**Eligibility Status Report (Snap 6)**

This is a report, by COE ID, of the district’s current school year COEs that have been entered into MIS2000, but are not active (i.e., not yet approved by the MEO). This report will tell the records manager the COEs current status (incomplete, new/rejected, reviewed/verified, and canceled).

**Report Details**

**Purpose:** This report is a list by COE ID of the COEs that are not active/approved. It will tell the district its COE status: not determined, incomplete, or canceled.

**Run:** ELIGIBILITY STATUS (SNAP 6)

**Dates:** Run for the current school year. Use 21/22.
**Instructions:** Click on the **Reports** tab and select **Snap! Reports** from the drop-down menu. Choose report **06 Eligibility Status** Report. Click on **District.DisplayCode** under the **Fields**, check the = in the **Comparison** and enter the **District Display Code** in the **Values** box (e.g. AKJCHF). Click **Add Filter**. Click on **Coe.SchoolYear** under the **Fields**, check the = in the **Comparison**, and enter 20/21 in the **Values** box. Click **Add Filter**. Click **Run Report**. Save this report in Excel.

**Fields Included:** District Name; COE ID; Approval Status; Owner User Id; District Code; Coe Seq; Student Last First Middle; School Year; Student Seq; Student ID; Birth Date; District Code 1; Gen Date; Owner

**Code Explanation:** I – incomplete (district must upload to MEO), N – new (district needs to either search for students or fix missing or incorrect information), V – verify (MEO to review), or C – canceled.

To filter further by approval status, click on **Coe.ApprovalStatus** under the **Fields**, check the = in the **Comparison**, and enter the desired code (I, N, V, or C) in the **Values** box. Click **Add Filter**. Click **Run Report**.

Please note that only one code (I, N, V, or C) can be selected as a filter at a time. Example: If a user wishes to see only COEs in status “I” and status “N”, the report will need to be run twice – once for each code.

**COEs Active and the Children on each COE (Snap 7)**
This report lists the district’s active COEs and the children on them for the current school year. This report only lists students who have been certified or recertified on a COE for the current school year. Children recertified via an ARC will not appear on this list.

**Report Details**
**Purpose:** This report is a list the district’s active/approved COEs and the children on them.

**Run:** **COEs Active and the Children on each COE (Snap 7)**

**Dates:** Run for the current school year. Use 21/22.

**Instructions:** Click on the **Reports** tab and select **Snap! Reports** from the drop-down menu. Choose report **07 COEs Active and the Children on each COE**. Click on **District.DisplayCode** under the **Fields**, check the = in the **Comparison** and enter the **District Display Code** in the **Values** box (e.g. AKVRQX). Click **Add Filter**. Click on **Coe.SchoolYear** under the **Fields**, check the = in the **Comparison**, and enter 21/22 in the **Values** box. Click **Add Filter**. Click **Run Report**. Save this report in Excel.

**Fields Included:** COE ID; Coe Status; Approval Status; District Name; Student ID; Last Name; First Name; Middle Name; Birth Date; Eligible Code; Facility ID; Enroll Date; Grade; Type; Approved Date; Type

**Monthly Eligible Updated (Snap 12)**
This is a list of all migratory children who are currently eligible in the records manager’s school district, and who have been recertified for the current school year. This report now also includes Priority for Services (PFS) status. It includes migratory children who are one of the following:

- Attending school in the records manager’s district.
- Attending school in another district but reside in the records manager’s district.
- Too young for school.
- Not attending any school.

The Monthly Eligible Updated List should be saved on a district computer that is easily accessible to the records manager. It can be used to track children not attending school, note family changes, and create other reports that the school district may need for migratory children. Depending on the needs of the district, an updated list
may be shared with district personnel to keep them informed of which children are enrolled in the MEP. This data is confidential information and should not be shared publicly.

**Report Details**

*Purpose:* This is a list of all migratory children who are currently eligible (recertified for the current school year) in the records manager’s school district. This report now also includes Priority for Services (PFS) status. This includes migratory children:

- Attending school in the records manager’s district.
- Attending school in another district.
- Too young for school.
- Not attending any school.

**Run:** MONTHLY ELIGIBLE_UPDATED (SNAP 12)

**Dates:** Run for the current school year. Use 08/01/21 for START DATE and do not enter an END DATE.

**Instructions:** Click on the REPORTS tab and select SNAP! REPORTS from the drop-down menu. Choose report 12 MONTHLY ELIGIBLE_UPDATED. Click on DISTRICT.DISPLAYCODE under FIELDS, check the = in the COMPARISON, and enter the DISTRICT DISPLAY CODE in the VALUES box (e.g. AKDNCG). Click ADD FILTER. Enter the date 08/01/21 in the START DATE box. Do not enter an END DATE. Click RUN REPORT. Save this report in Excel.

**Fields Included:** District Name; District Code; Facility Name; Facility ID; Student ID; Last Name; Last Name 2; First Name; Middle Name; Birth Date; Grade; Enroll Date; Term Type; Eligible Code; Res Date; Funding Date; Approved Date; School Year Move; COE ID; QA3 Date; QA Date; Current Address; Current City; State; Zip; Mailing Address; Mailing City; State; Zip; Email; Phone; Priority for Service; Sh Seq

**Priority for Services Students (Snap 14)**

This report lists the children determined to be PFS who are within their three years of eligibility as determined by an approved COE on file in the user’s district. This report is an unduplicated list of students by the current year. PFS status is attached to the student and not the district. This means that as students move between districts they carry their PFS status with them. As districts certify transfer students, the district should check PFS status in MIS2000 by looking at student records and running the “14 Priority for Services Students” Snap report.

**Report Details**

*Purpose:* This report is a list the district’s PFS children for the current school year. Please be aware that PFS status is attached to the child and not the district. This means that as children move between districts, they carry their PFS status with them. Additionally, children who may have moved from the district but have PFS status for the given year and an eligible COE on file, will show up on this list.

**Run:** Priority For Services Students (Snap 14)

**Dates:** Run for the current school year. Use 21/22.

**Instructions:** Click on the REPORTS tab and select SNAP REPORTS in the drop-down menu. Choose report 14 PRIORITY FOR SERVICE STUDENTS. Click on DISTRICT.DISPLAYCODE under the FIELDS, check the = in the COMPARISON and enter the DISTRICT DISPLAY CODE in the VALUES box (e.g. AKVRQX). Click ADD FILTER. Click on COE.SCHOOLYEAR under the FIELDS, check the = in the COMPARISON, and enter 20/21 in the VALUES box. Click ADD FILTER. Click RUN REPORT. Save this report in Excel.

**Fields Included:** Student Seq; Student ID; Last Name; Last Name 2; First Name; Middle Name; School Year; Pfs Start Date; Pfs End Date
**Migrant Lunch List**

The Migrant Lunch List is a list of all eligible migratory children in the records manager’s district as of July 1 of the current school year, regardless of whether a new school history line has been entered for them. These children have end of eligibility (EOE) dates that happen on or after July 1 of the current school year. This report should be used for free meal benefits eligibility under the Child Nutrition Program (CNP).

Free Meal Benefits Eligibility:

<table>
<thead>
<tr>
<th>EOE Date</th>
<th>Guidance</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>EOE Before July 1st</td>
<td>District must contact the families of all migratory children whose eligibility ended before July 1st of the current school year. Starting on the first day of school, these students have a 30-day carryover period for continued free meal benefits. After the 30-day period, they are no longer eligible for the free meal benefits unless they are recruited by their district before the end of the 30 days and a new COE is determined eligible by the MEO.</td>
<td>Student meets the end of their eligibility on May 15, 2021. Because the student EOE’d before July 1, 2021, starting on the first day of school the student has a 30-day carryover period for continued meal benefits.</td>
</tr>
<tr>
<td>EOE On or After July 1st</td>
<td>If a migratory child’s eligibility ended on or after July 1st of the current school year, the migratory child is categorically eligible for free meal benefits until the end of the school year. The families of these students must still be contacted by the district in order to update eligibility status.</td>
<td>Student meets the end of their eligibility on July 20, 2021. Because the student EOE’d on or after July 1, 2021 the student is eligible for free meal benefits until the end of the school year.</td>
</tr>
<tr>
<td>Not EOE’d</td>
<td>If the migratory child still has eligibility (regardless of whether they were recertified), they are categorically eligible for free meal benefits.</td>
<td>Because the student has not EOE’d, the student is eligible for free meal benefits.</td>
</tr>
</tbody>
</table>

If the district does not recertify all eligible children by November 15 each year, they will not be in the district count and the district will not receive funding for them. However, they are still eligible for, and entitled to receive, migrant supplemental program services and free meal benefits.

**Primero Edge**

The MEO provides the DEED Child Nutrition Program with monthly, statewide, migrant lunch lists. These lists are imported into the statewide Child Nutrition Program database, Primero Edge. It is recommended that district MEP staff work with their local child nutrition teams to find students who are migrant eligible, but have not been recruited by the district. This will assist districts in identifying and recruiting migratory children that are attending school in their district, but have migrant eligibility from other districts.

**Report Details**

*Purpose:* This is a list of all eligible migratory children in the records manager’s district, including those that the district did not recertify during the previous school year. This report should also be used for free meal benefits eligibility. Refer to page 58 for more information regarding free lunch benefits.

*Run:* **Migrant Lunch List**

*Dates:* Run for the current school year. Use 07/01/20 for the **Start Date**.
**Instructions:** Click on the **Reports** tab and select **SNAP! Reports** from the drop-down menu. Choose report **Migrant Lunch List**. Click on **District.DISTRICT.DISPLAYCODE** under **Fields**, check the = in the **Comparison**, and enter the **District Display Code** in the **Values** box (e.g. AKDNCG). Click **Add Filter**. Enter the date 07/01/20 in the **Start Date** box. Click **Run Report**. Save this report in Excel.

**Fields Included:** District Code; District Name; Last Name; Last Name 2; First Name; Middle Name; Birth Date; Student ID; Qa3 Date; Enroll Date; Student Seq; DomID; DBID; Sh Seq; Term Type; Term Date

Note: If the records manager does not recertify all eligible children by **November 15** each year, they will not be in the district count and the district will not receive funding for them, but they are still eligible for, and entitled to, migrant supplemental program services and free meal benefits.

---

**Facility List**

**Report Details**

**Purpose:** This report provides a current list of all the schools in the district.

**Run:** **Facility List**

**Instructions:** Click on the **Reports** tab and select **SNAP! Reports** in the drop-down menu. Choose report **Facility List**.

- For a list of the district’s schools only, click **District.DISTRICT.DISPLAYCODE** under **Fields**, check the = in the **Comparison**, and enter the **District Display Code** in the **Values** box (e.g. AKDNCG). Click **Add Filter**, then **Run Report**.
- For a list of all schools in the State of Alaska, click **Run Report**.

**Fields Included:** Facility Name; Facility ID; Facility Number; District Name; District Code
DEED Data Collections Involving Migrant Status

The Alaska Department of Education & Early Development (DEED) collects data from school districts at various times of the year to comply with Federal reporting requirements in addition to those required by the MEP. Migrant status is a part of three of these data collections: Fall OASIS, Participation Rate (P-Rate), and Summer OASIS. Having migrant status verified through these data collections serves to ensure that:

- the Alaska Migrant Database, MIS2000, is as accurate and up to date as possible,
- migratory children are recruited and served as they move between districts, and
- that Federal reporting is accurate and timely.

For more information regarding the OASIS data collections contact DEED’s data management team (education.alaska.gov/data-center/data-management).

Fall OASIS and P-Rate

To alleviate the data collection burden, the MEO works closely with the data management team at DEED for the OASIS data collections. For the Fall OASIS and P-Rate data collections, the MEO provides the list of migrant eligible children on the pre-determined count dates for each data collection. This ensures that:

- district staff are able to focus on ensuring that all migratory children are identified and recruited prior to the November 15, Fall Recruitment deadline,
- data generated for the district (district report card, etc.) is as accurate and up to date as possible, and
- after the submission window has closed, the district is provided with a list of identified migratory children (identified and recruited by a former district) to recruit and serve as appropriate.

Summer OASIS

The Summer OASIS data collection contains a student record for any child who was enrolled in the district for at least one day during the current school year. DEED defines the current school year as July 1 to June 30, annually (example: 21/22 School year is from July 1, 2021 to June 30, 2022). The due date of the Summer OASIS data collection is July 15. This file is how the department determines important information such as graduation rate.

For the Summer OASIS data collection, districts are responsible for inputting migrant status in a Y/N field for each of the children listed in the file. This information is validated against a list of all of the eligible migratory children pulled by the MEO from MIS2000. This list contains any child who was certified as migrant eligible (in the district) for at least one day between July 1 and June 30. This list could potentially have children listed as migrant, who ended their eligibility before the first day of school.

Importance of the district submitting migrant status for the Summer OASIS file:

- The inclusion of migrant status in this data collection ensures that information entered into MIS2000 is as up to date as possible. Through this process, many AKSIDs and DOBs for migratory children are corrected.
- This validation ensures that district student information systems have up-to-date migrant statuses.
- Through the file submission process, the district is provided with a list identified migratory children (identified and recruited by a former district) to recruit and serve as appropriate.
- The data generated for the district (district report card, etc.) is as accurate and up to date as possible.
Web System for Records Managers

About the Web System
The Alaska Migrant Web System (ak.msedd.com) is a secure website utilized in several ways to help streamline Alaska’s Migrant Education Program. It is the primary platform through which users access the MIS2000 database. Listed below are some of the applications of the Alaska Migrant Web System:

- A **secure transmission** portal of migratory child data between recruiters, records managers, and the Migrant Education Office (MEO).
- A **recruiting tool** for recruiters and records managers to use to complete a Certificate of Eligibility (COE) or Annual Recertification of No New Moves (ARC) and submit to the district migrant database, MIS2000.
- A generator of migratory child **snap reports**.

Web System Aligned to State of Alaska Security Standards
The Web System has been aligned to State of Alaska security standards. This includes:

- A **Privacy Notice** that users must accept upon log in, in order to access the Web System. Refer to page 64 for more information.
- Passwords must be changed every 90 days.
- Passwords must meet State of Alaska security requirements, which are:
  - be at least eight characters long, and
  - be sufficiently complex. This means the password contains a mixture of uppercase and lowercase letters, numbers, and symbols.

Web System Basics

Accessing the Web System

**Authorized Users**
The Alaska Migrant Web System is for the use of the Alaska Department of Education & Early Development Migrant Education Program, and may be accessed and used only for official Migrant Education Program business, and by authorized personnel using district issued computers.

Recruiters, records managers, and other authorized users of the system must annually sign a user access agreement form prior to access being granted access to the Alaska Migrant Web System.

Terms of the agreement include:

- To safeguard the security of any password provided to you by system administrators.
- To not share the system access you have been given.
- To follow FERPA guidelines and not distribute or share any student information or migrant records.
- To not perform actions on Alaska Department of Education & Early Development Information Technology resources which are inconsistent with the spirit of this agreement, violate any State or Federal law, or result in system instability.
- To ensure that the computer used to access the system is protected by anti-virus software with current updates and is free of any malicious code or applications.
- To not download and save student information from the Web System to a personal computer.
- To have encryption software installed if the computer used is a laptop.
- To immediately notify DEED of any potential data breaches.
Termination of Access
User access to the Alaska Migrant Web System will be terminated when staff no longer have a business need for the access, such as recruiting being complete for the school year, employees changing jobs, employees resigning, etc. It is the responsibility of the records manager/migrant coordinator to immediately notify the MEO when authorized personnel have been terminated or no longer have a business need for access to the system.

The duration of access to the Web System for recruiters is determined by the migrant coordinator/records manager and is marked on the Migrant Web System Recruiter Access Form. Access will be granted for either of the terms described below:

- July 1st to December 31st, or
- July 1st to June 30th.

Once the term is completed, users are disabled in the Web System until a new access form has been completed.

Setting Up User Accounts
The Alaska Migrant Web System is located at ak.msedd.com. After the signed User Access Agreement form is received by the MEO, a profile will be built in the system for each user. In order to use the Alaska Migrant Web System, users are required to possess a district issued email.

Username – The username for each migrant staff member will be their district issued email.

Password – Users create their own passwords for the Alaska Migrant Web System.

- Please note that passwords must comply with State of Alaska security standards outlined on page 8.

Setting Passwords
Steps to setting up a password for the Alaska Migrant Web System:

1. After the MEO receives the user access agreement and builds a user profile, an activation email from the Web System (support@msedd.com) will be auto generated and sent to the user at their district email address.

2. The email will prompt the user to activate their account by clicking on the included hyperlink, or copying and pasting the customized web address into their internet browser.

3. Both the hyperlink and web address included in the email will lead the user to the same page, where the user can create a password for the system. Their first and last name will be populated into the FIRST NAME and LAST NAME boxes shown below.

4. The user will need to type a password into the field labeled ENTER YOUR PASSWORD.
   a. Passwords must be strong. For more information on strong passwords, review the Online Safety and Security section starting on page 7.

5. The user will be required to confirm their password by typing their password in the box labeled AND AGAIN TO CONFIRM.

6. Click the SAVE button.
Resetting Passwords

In the event that district staff need to reset their passwords to the Alaska Migrant Web System, please follow the steps outlined below:

1. In an internet browser, go to the Alaska Migrant Web System (ak.msedd.com).
2. Click on the FORGOT YOUR PASSWORD? hyperlink.
3. Enter the district email address where prompted and click on the REQUEST PASSWORD RESET button.
4. The user will receive an email prompting them to click on the password reset link or to copy and paste the individualized link to an internet browser.
5. The user will be prompted to create and validate their new password. Enter new password in the top line labeled ENTER YOUR NEW PASSWORD. Confirm new password in the second line labeled AND AGAIN TO CONFIRM. Click on the SAVE button.
**Signing In**
Steps to signing into the Alaska Migrant Web System:

1. In an internet browser, go to the Alaska Migrant Web System (ak.msedd.com).
2. Enter the user’s district email address in the first field, marked **EMAIL ADDRESS**.
3. Enter the user’s password in the second field marked **PASSWORD**.
4. Click on the **SIGN IN** button.

---

**Privacy Notice**
Users must **READ** and **ACCEPT** the information below to login into the Alaska Migrant Web System.

You are accessing a State of Alaska (SOA) information system, which includes any SOA device attached to the system (e.g., a State-owned thumb drive), the system does not include any non-SOA device (e.g., a personal cell phone or computer) used to access the system. The system exists for SOA-authorized use only. By using it, you consent to the following conditions:

- The SOA routinely intercepts and monitors communications and data stored on this information system and on any attached non-SOA device for purposes including, but not limited to, penetration testing, maintaining network operations and defense, monitoring for personnel misconduct, conducting law enforcement activities, and undertaking counterintelligence investigations. (The SOA does not intercept or monitor communications or data on personal devices used to access the SOA information system: i.e., as long as such devices are not attached to the system).
- At any time, the SOA may inspect and seize data stored on this information system and on any attached non-SOA device.
- Communications using and data stored on this information system and any attached non-SOA device are not private, such communications and data may be disclosed or used for any SOA-authorized purpose.
- This information system includes security measures (e.g., authentication and access controls) to protect SOA interests. These measures are not for your personal benefit.
- Unauthorized use of this information system is prohibited and may subject the user to disciplinary action (including dismissal) and to criminal and civil penalties.

This Notice applies only to your consent to monitoring when using this information system. It does not affect any other consent by you or any obligations you owe the SOA. For example, it does not affect your obligation to provide the SOA all State records that you have stored on any non-SOA device or non-SOA system, and if you receive an allowance for an employee-owned device, it does not affect your agreement that all records related to the device may be reviewed by the SOA or a court to locate any records related to SOA business. v.3
Navigating the Alaska Migrant Web System

**Home Tab**
The user will always be brought to the **HOME** tab upon successfully logging in to the Web System.

The **HOME** tab consists of the **STUDENTS** and **COEs** subtabs.

**Students Subtab**
Using the **STUDENTS** subtab the user can search for the individual records of children and youth who are currently (or have been) migrant eligible. Users will only have access to student information through the Alaska Migrant Web System, if the student has previously been certified as migrant eligible in their district.

**Searching for Students**
Users can search for the records of individual migratory children from their district in the Alaska Migrant Web System using the search bar provided.

**Basic Search**
To search for a specific child, type their name or part of their name, in the search bar. Click the SEARCH button or use the enter key on the keyboard to complete the search. A list of matching results (if any) will be displayed.

To see the enrollment information on a particular child, click on the ARROW button to the left of the desired child. Clicking on the arrow will expand to show available school history and enrollment information.
Searching Tips:
In addition to searching for names or partial name, the basic search bar has the capability to search for dates.

- To search for a specific date range type dates like: **MM/DD/YYYY-MM/DD/YYYY**.
- For a date range with no end date: **MM/DD/YYYY-**.
- Hover over the drop-down arrow in order to see instructions for searching.

- The drop-down arrow will show a list of the user’s recent searches.

- Be sure the search is set for **ALL STUDENTS**, in order to see the most complete list of search results.

Advanced Search
To use the advanced search, click on the **PLUS (+) SYMBOL** on the right-hand side of the webpage.
Clicking on the advanced search symbol (+) will bring up the following dialog box.

<table>
<thead>
<tr>
<th>Student Name</th>
<th>Birth Date</th>
<th>Enroll Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Parents</td>
<td>QAD</td>
<td>COE Date</td>
</tr>
<tr>
<td>Recruiter</td>
<td>EOE Date</td>
<td></td>
</tr>
</tbody>
</table>

The advanced search options include the following fields:

- **STUDENT NAME** – the name, or partial name, of a migratory child as listed in the Child Data Section of an approved COE.
- **PARENTS** – the name, or partial name, of either parent listed in the Family Data Section of an approved COE.
- **RECRUITER** – the name of the recruiter who completed the COE in the Alaska Migrant Web System.
- **BIRTH DATE** – the birth date (mm/dd/yyyy) of a child listed in the Child Data Section of an approved COE.
- **QAD** – the Qualifying Arrival Date as listed in question 3 of the Qualifying Moves & Work Section of an approved COE.
- **ENROLL DATE** – the enroll date (mm/dd/yyyy) of a child listed in the Child Data Section of an approved COE.
- **COE DATE** – the date that a COE was created in MIS2000.
- **EOE DATE** – the end of eligibility date for a child(ren) listed on a particular approved COE. The EOE date is exactly three years after the QAD listed in question 3 of the Qualifying Moves & Work Section.

The user can use one or more of these fields during the advanced search. To complete the advanced search enter information next to the desired field and hit the **SEARCH** button.

To cancel the advanced search click on the symbol in the upper right-hand corner of the webpage.

**COE Subtab**

The **COE** subtab can be used to search for students and COEs that are fully approved, newly created, or partially through the eligibility determination process. The **COE** subtab is primarily used to create new move COEs for eligible and potentially eligible migratory children and youth. The **COE** subtab is also utilized to complete the ARC for children who are currently migrant eligible, but have not made a new qualifying move.

The **COE** subtab has the same **BASIC** and **ADVANCED** search options that are available in the **STUDENTS** subtab. Recruiters will only be able to view results for students and COEs who are migrant eligible in their district.

Search results are displayed based on the parental information included on the COE rather than the Child Data Section information. Displayed fields also include **COE ID, QAD, COE DATE, and RECRUITER** (if entered through the Web System).

Using general search criteria (i.e. searching just for a letter or partial name), will result in a larger results list. The results will include every child and every parent who meets the search criteria.
Search results can be expanded by clicking on the ARROW on the left of each line. The expanded information lists each child on the COE.

COEs are printed from the Web System by hovering over the three-line HAMBURGER (≡) menu to the far right, selecting VIEW, and then using the PRINT ICON in PDF viewer.

For COEs created during school year 2021-2022 and later, COE attachments (scanned, ink-signed copies and/or move maps) can be viewed by hovering over the three-line HAMBURGER (≡) menu to the far right and selecting VIEW COE. This opens a PDF of the COE in a new window. Hover over the DOWNLOAD DOCUMENTS link on the upper left corner of the screen to select the desired COE attachment (if any) from the dropdown list. Depending on the internet browser used, attachments should open in a new internet tab/window, or in the appropriate computer application. If neither of these happen, check the Downloads folder on your computer.
**COE Status in the Web System**

Recruiters and records managers must take into account the status of the COE when searching for a particular COE in the Web System.

The Web System categorizes COEs as:

1. **ALL** – the **ALL** COE group will yield approved COEs in the search results. This COE status does not reliably return search results for unapproved COEs (COEs in **IN PROCESS** or **REQUIRES ATTENTION** status).
2. **APPROVED** – COEs that have been fully approved by the MEO. These COEs cannot be edited in the Web System or by district staff.
3. **REQUIRES ATTENTION** – COEs the recruiter (creator) is able to edit. These COEs have not been approved by the MEO. If the recruiter switches the status of COEs from **ALL** to **REQUIRES ATTENTION** a list of the COEs the recruiter is currently able to edit will be displayed.
4. **IN PROCESS** – COEs that the recruiter cannot edit. However, these COEs have not been approved by the MEO. COEs can show up in the **IN PROCESS** status for a variety of reasons, including:
   - the COE might be in **REQUIRES ATTENTION** status for another district recruiter,
   - the COE has been submitted through the Web System to the records manager, and the records manager is currently processing the COE, or
   - the COE is awaiting MEO approval.

**Reports Tab**

The **REPORTS** tab is where users can go to pull various Snap Reports. All records managers will have the ability to pull reports from the Web System. For detailed instructions on pulling reports in the Web System, see [Pulling Reports in the Web System](#) on page 54.

**COE Recerts Tab**

The **COE RECERTS** tab is where users can go to search for ARCs created in the Web System. For more information on ARCs, see [ARCs in the Web System](#) on page104.
Resources Tab
This is where all records managers will go to submit/receive reports and other correspondence containing student data. Any student personally identifiable information (PII) will need to be sent securely through the Web System. For more information on PII, see FERPA Best Practices starting on page 6. Detailed instructions for sending/receiving files through the Web System can be found in Transmitting Student Data Securely on page 72. Aside from each district-specific folder, the Resources tab also contains two other folders that all districts have access to.

zMEP Information Folder
This is where the MEO will post any information that all districts should have access to, such as fall training dates, Mass Withdrawal instructions, and Course History instructions.

Installers Folder
The installers folder contains requested MIS2000 Desktop App installers for districts utilizing the Desktop App. Do not utilize this folder unless specifically directed by the MEO.

Help Tab
The Help tab provides users with the MS/EdD support email. Please DO NOT contact MS/EdD directly. Contact the MEO if you need assistance (page 150). The MEO will contact MS/EdD, if necessary, to resolve user issues.

Flash Messages/Alerts
Certain actions taken in the Web System can trigger flash messages. Flash messages are informational banner messages that appear at the top of the page, below the header menu, to indicate the outcome of a process or request performed by the user. To remove the message, click the X on the right-hand section of the banner.

- Green – The alert box indicates a successful or positive action.
  - Changes saved

- Blue – The alert box indicates a neutral informative change or action.
  - No errors found.

- Yellow – The alert box indicates a warning that needs attention.
  - Q4D and RES dates are the same. Please indicate the length of move in comments.

- Red – The alert box indicates an error or potentially negative action.
  - District Code field must be specified.

Users may also see informational messages at the top of their screen upon logging into the Web System. Most often, these messages will alert users to COEs or COE Recerts (ARCs) that have status Requires Attention that are waiting for a user to submit/approve them. Other times, the MEO may post messages to all Web System users informing them of upcoming deadlines, newly available reports, etc. These messages are blue. Some disappear after navigating to a specific page, while others will remain until users click the X on the far-right side of the message.
**Automatic Log Out**

The Web System is designed to log a user out automatically after 15 minutes of inactivity. A flash message with a five-minute countdown timer will appear across the top of the page, above the header.

Any action made in the Web System such as typing, navigating between tabs, or moving the mouse counts as activity and stops the countdown.

If the user remains inactive when the timer counts down, then he or she will be logged out of the Web System automatically. Any unsaved work will be lost.

**Note:** If a user is viewing the Web System across multiple tabs or windows, he/she will need to register activity in each tab/window to avoid being logged out.

**Electronic Signatures (COEs)**

The Alaska Migrant Web System now has the functionality to accept electronic signatures on COEs. Current limitations and restrictions to collecting electronic signatures are:

- Electronic signatures must be collected in person, through the Web System using a stylus, finger, mouse cursor, etc.
- Typed name, date, and relationship (interviewee only) must also be entered.
- COEs can have a mix of electronic signatures and ink signatures. However, if any ink signatures are collected, a single, scanned copy of the COE containing all collected ink signatures must be uploaded to the Web System prior to submitting to the MEO. Similarly, if a COE involves a move of 20 or more miles (one way) in the 15K + district, the move map must also be uploaded prior to submitting to the MEO. Remember to retain any ink-signed COEs (and/or move maps, if applicable) at the district at least until the COE is approved by the MEO. It is recommended that districts retain these documents for the entire school year before securely destroying.
- Electronic signatures must be signed by the actual individual named. MEP/district staff cannot sign on behalf of a parent/guardian/interviewee.

See [COEs in the Web System](#) starting on page 76 for detailed instructions on collecting electronic signatures.

**Electronic Certifications (ARCs)**

The Alaska Migrant Web System now has the functionality to collect electronic certifications for ARCs. ARCs will no longer need to be printed and signed. Users will now simply check the appropriate **Eligibility Data Certification** checkbox to certify that the information entered in the ARC is correct. This will automatically populate the user’s name and date into the appropriate signature field when the ARC is submitted. The records manager is now permitted to provide the certification for both the Interviewer and Designated SEA Reviewer; however, districts are still encouraged to continue having two different individuals provide these certifications to help ensure data quality.

See [ARCs in the Web System](#) starting on page 104 for more detailed information.
Transmitting Student Data Securely
All districts operating a migrant program utilize the Alaska Migrant Web System (ak.msedd.com) to securely send and receive student data. The Web System helps to facilitate required data reporting. The MEO uploads all migrant reports to the Web System for records manager to download and complete. After reports are completed, records managers upload the completed reports back to the Web System for the MEO.

Web System File Transfer Exchange Protocol

Steps to Receive Data and Reports from the MEO
1. The MEO will send an email when a file has been uploaded to Alaska Migrant Web System (ak.msedd.com), and is ready for the records manager to download.
   - Examples of reports include: Course History, Mass Withdrawal, and Priority for Services K-2.
2. Sign in to the Alaska Migrant Web System (ak.msedd.com).
3. Click on the RESOURCES tab.
4. Click on the DISTRICT NAME folder.
5. Any FILE the MEO sends that has student data in it will be in the folder called FOR RM.
6. Double click on the desired FILE to download.
7. Once the FILE downloads, click on the downloaded document and save it to a secure location on the district authorized computer. Do not save MEP files to a personal computer.
**Steps to Send Data and Reports to the MEO**

To send the MEO documents that include migrant data, such as Course History, Mass Withdrawal reports, etc.

1. Sign in to the [Alaska Migrant Web System](ak.msedd.com).
2. Go to **Resources** tab.
3. Click on the **District Name** folder.
4. Click on the **Submit To MEO** folder.

5. Click on **Upload** or the **Green Plus Sign** button.

6. Click on the **Select** tab and locate file to be uploaded to the MEO. The file name should not include special characters (#, *, /, etc.) to avoid getting an error message.

7. Click on **Upload** button, in the dialog box.

8. The desired file will appear in the **Submit To MEO** folder.

9. Send an email to the MEO alerting that a file has been uploaded for MEO review.
Records Manager Responsibilities in the Web System

Records managers are responsible for reviewing all COEs and ARCs for their district, ensuring that the data is up to date and accurate, that the children listed on the COEs and ARCs appear to meet eligibility requirements, and that the moves listed on the COEs were made due to economic necessity. Tasks that used to be completed in the Desktop App (entering AKSID, Immunization Records Flag, Medical Alert Indicator, SEA Reviewer Signature, Approving COEs, etc.) can now be done by web-based records managers entirely in the Web System.

Before reviewing COEs, records managers must still have the completely signed COE in front of them (may be a hard copy, electronic signature version, or scanned copy). For specific information regarding how to approve COEs created in the Web System, refer to the instructions starting on page 89.

Records managers should assist recruiters with COE completion in the Web System as needed. Records managers can view COEs in the Web System for quality control before a recruiter submits them. By searching for COEs with status IN PROCESS, records managers can review a recruiter’s COEs prior to obtaining signatures. For instructions on how to do this, please refer to Reviewing Recruiter COEs in the Web System on page 71.

Records managers are also responsible for reviewing ARCs created in the Web System, obtaining the Designated SEA Reviewer certification, and approving ARCs. Once an ARC has been submitted to the records manager, the record manager must verify that the children on the ARC are eligible, all of the information included is correct and that any needed comments are included. Once the information and necessary comments on the ARC have been verified, the records manager needs to collect the Designated SEA Reviewer certification (the records manager will often also serve as the Designated SEA Reviewer). After the information has been verified and the Designated SEA Reviewer certification has been obtained, records managers can approve the ARC to certify the included children for the current school year. Refer to the Reviewing an ARC Submitted through the Web System section starting on page 108 for more information.

User Roles in the Web System

Access to information/features of the Alaska Migrant Web System is based on which role a specific user has been assigned. At the district level, there are three different user roles that MEP staff can request/be assigned. All Web System users are required to complete a User Access Agreement form before being granted access.

**Recruiter Role**
Recruiters have the most restricted access to information in the Web System. Recruiter access is, generally, restricted to: creating new COEs and ARCs, and limited ability to view student information.

**Migrant Coordinator Role**
The Migrant Coordinator role allows a user to pull Snap REPORTS, access the RESOURCES tab, and view more student information than recruiters. This role does not allow the user to create new COEs/ARCs.

**Records Manager Role**
Records managers have the most access in the Web System. This role allows a user to create new COEs and ARCs, review/approve/reject COEs and ARCs, access the RESOURCES tab, pull Snap REPORTS, and view detailed student information. More information about records manager privileges in the Web System can be found below.
Records Manager Privileges in the Web System

All records managers have enhanced access in the Web System beyond those of recruiters. Enhanced access that records managers have are detailed below.

**Viewing Student Records**
Records managers can view the entirety of a child’s Alaska MEP record in the Web System. The complete student record includes all enrollment information, course history data, test data, and supplemental services documented in MIS2000. To view a student record:

1. Use **STUDENT SEARCH** to find the child.
2. **SELECT** the student by clicking on their line in the search results.
3. Hover over the three-line **HAMBURGER MENU (≡)** all the way to the right on the student line.
4. Choose **VIEW STUDENT RECORD** from the dropdown list.

For specific information regarding how to search for specific children in the Web System, refer to the [Searching for Students](#) section on page 65.

**Tracking ARCs**
Records managers can view all web-created ARCs that are in process for the district. Refer to [Finding a Partially Completed or Rejected ARC to Update](#) on page 106 for detailed information.

**Approving and Deleting ARCs**
Records managers can approve and delete ARCs in the Web System. For more information, refer to [Reviewing an ARC Submitted through the Web System](#) starting on page 108.

**Approving and Deleting COEs**
Records managers can review, approve, reject, and delete (unapproved only) COEs in the Web System. For more information, refer to [Reviewing, Approving, & Rejecting a COE in the Web System](#) starting on page 89.

**Take Ownership of COEs**
When recruiters submit COEs for review, or when the MEO rejects COEs back to the district, records managers can now claim ownership of specific COEs they are ready to review. See [Finding a COE to Review](#) on page 89 for more information.

**Resources Folders**
Records managers have access to the **RESOURCES** tab where files can be securely uploaded to the MEO, and where records managers can download files securely uploaded by the MEO. See [Transmitting Student Data Securely](#) on page 72 for more information.

**Snap Reports**
Records managers have access to the **REPORTS** tab, where a variety of on-demand reports can be pulled. See [MIS2000 Lists (Snap Reports)](#) beginning on page 54 for more information.
COEs in the Web System — Creating, Reviewing, Approving, and Rejecting

Creating a COE in the Web System

1. Navigate to the COE subtab of the HOME tab in the Alaska Migrant Web System (ak.msedd.com).

2. Click on the NEW COE button, located in the upper right-hand corner, to create a blank COE.

3. Complete the COE. Please review the Recruiter Handbook for detailed instructions on how to fill out a COE and any specific comments that may be required.

4. Use the SAVE MY WORK button often throughout the COE data entry process.

   - When changes are saved, a blue bar will appear at the top of the screen with the message **CHANGES SAVED**

5. Use the CHECK FOR ERRORS button to ensure the COE is as complete and correct as possible, prior to obtaining signatures. As part of the error check, the user’s work is automatically saved in the event that the SAVE MY WORK button was not utilized first.

   - If no errors are found, a blue bar will appear at the top of the screen with the message **NO ERRORS FOUND**.

   - Any errors found are displayed at the top of the screen in red.
6. Obtain signatures. COEs in the Alaska Migrant Web System can be submitted with ink signatures, electronic signatures, or a combination of both. Regardless of how signatures are collected on the COE, the following must be observed:

- The interviewee must sign the COE first.
- The interviewer/recruiter must sign the COE after the interviewee.
- By signing the COE, the interviewee and interviewer are verifying that the information on the COE is complete and correct, and that the moves documented on the COE were made due to economic necessity.

**Electronic signatures**

COEs can be signed electronically in the Web System and submitted to the records manager without needing to print. Only electronic signatures obtained through the Web System are currently allowed.

a. To add an electronic signature for the Interviewee, click on the **Sign** button next to the Interviewee signature field(s).

b. Have the appropriate individual write his/her signature in the field.
   - On touch-sensitive devices, this can be done with a stylus, finger, etc.
   - On non-touch-sensitive devices, this must be done with the mouse/cursor.

c. A signature in progress can be cleared by clicking the refresh symbol. A saved signature can be cleared by clicking the **Clear** button. Be sure to **SAVE MY WORK** after each signature.

d. Enter the Interviewee signature information into the appropriate fields.
e. Repeat these steps for the Interviewer signature fields.

![Interviewer Signature](image1)

**Ink Signatures**

COEs can be printed and signatures obtained prior to submitting the COE to the records manager.

a. Click on the **VIEW COE** button found in the upper right-hand side to view the PDF version of the COE.

```
Submit COE For Review  View Log  Check For Errors  View COE  Save My Work  Return without saving  Delete COE
```

b. In the PDF window, click on the **PRINT ICON** located in the upper right-hand corner to print the COE.

c. After obtaining the required signatures on the hard copy printed COE, navigate to the **COE** subtab and change the search status to **REQUIRES ATTENTION**.

- The COE must always be signed by the interviewee first. If utilizing ink signatures, ensure that the signed hard copy COE is on hand before signing as the interviewer.
- Even if the interviewee cannot provide an electronic signature, the interviewer and SEA reviewer can still sign electronically after the interviewee.

![COE Status](image2)

![COE Options](image3)

d. Hover over the three-line **HAMBURGER (≡)** menu on the desired COE and click **EDIT COE** from the drop-down list.
e. Scroll to the signature fields at the bottom of the COE in the Web System. Begin with the Interviewee signature fields. Select the **Signature on File** box next to the appropriate signature field(s).

![Interviewee Signature](image)

f. Enter the interviewee signature information in the **Typed Name**, **Relationship**, and **Date** fields.

![Interviewee Signature](image)

g. Repeat these steps for the Interviewer signature fields. Complete the interviewer signature information in the **Typed Name** and **Date** fields.

h. Note that the signed hard copy COE must be uploaded to the web system before the COE is submitted to the MEO. For more guidance, records managers can refer to the [Uploading Attachments](#) section on page 96.

- While users at the recruiter and records manager levels can upload scans into the web system, it is ultimately the records manager’s responsibility to ensure that the signed hard copy COE and other relevant files have been uploaded prior to submitting the COE to the MEO.

**Combination of Ink and Electronic**

COEs can have a combination of electronic and ink signatures.

- Note: If COEs are not completely signed electronically, a single hard copy version with all collected ink signatures will need to be scanned and uploaded to the Web System prior to submitting to the MEO.

a. Follow the steps for printing the COE from the Web System.

b. Obtain the interviewee signature.

c. After obtaining the interviewee signature on the hard copy printed COE, navigate to the **COE** subtab and change the search status to **Requires Attention**.

d. Hover over the three-line **Hamburger (≡)** menu on the desired COE and click **Edit COE** from the drop-down list.
e. Select the **SIGNATURE ON FILE** box next to the interviewee signature field(s). Ensure that the signed hard copy COE with ink signatures is on hand before completing the signature fields.

f. Complete the interviewee signature information in the **TYPED NAME, RELATIONSHIP, and DATE** fields.

g. Sign the COE electronically and type the interviewer signature information into the COE in the Web System.

7. Use the **SAVE MY WORK** button in to save changes.

8. Click on the **SUBMIT COE FOR REVIEW** button, located in the upper left-hand corner, to send the electronic COE information to the district records manager. Any errors preventing COE submission will appear in red at the top of the screen.

9. When the **COE LOG** is displayed, click the **SUBMIT** button. Users are not required to add information to the **COE LOG**, unless the COE is being rejected.

![COE Log](image)

10. Remember to deliver the hard copy COE to the records manager if any ink signatures are collected on the COE.

**Errors and Warnings**

Error messages and meanings are documented in the **Errors and Submission Checks in MIS2000** section starting on page 131.
Important Information Regarding COEs in the Web System

General

• A blank COE in the Web System looks very similar to the paper/PDF versions of the COE. Sections of the COE are labeled and appear in the same order as the paper/PDF COE.
• Users can use all caps to type or standard capitalization conventions in the Web System.
• **Do not enter dashes (-) into the Web System.**
• Users can tab through fields in the Web System, or they can click into each field in order to complete the COE.
• **COE ID** numbers are generated by the Alaska Migrant Web System when the **NEW COE** button is clicked. All of the **COE ID** numbers generated in the Web System will begin AK0.
• COEs created in the Web System will be marked **INCOMPLETE** until they are successfully submitted to the records manager.

• The COE will be auto-populated with the user’s school district at the top of the COE. The user will not be able to edit this.

• It is best practice to save the COE throughout the entry process using the **SAVE MY WORK** button at the top of the screen.

• The **COE LOG** facilitates communication between user and reviewers. When submitting the COE, the user does not need to enter information into the log. However, whenever a COE is **REJECTED** back to the recruiter, the reviewer must enter comments. The **COE LOG** can be viewed by clicking on the **VIEW LOG** button.

PLEASE VERIFY THE BERRY PICKING WAS NOT ON LAND OWNED BY THE FAMILY. DON’T FORGET THIS COMMENT SHOULD BE ADDED BELOW THE ORIGINAL COMMENT WITH NEW INITIALS AND DATE AN DADDED TO THE HARD COPY AS WELL AS IN MS2000, JL 04-23-18
Date Fields
Throughout the web COE, there are several date fields. The calendar icon to the right of each field denotes each date field. The user can directly type desired dates into these fields, or they can click on the calendar icon, and choose the date from the calendar.

- The **RESIDENCY DATE** is located in upper right-hand corner of the COE.

  ![Residency Date](image)

- Date fields will automatically format to MM/DD/YYYY format, after the date has been typed in.
  - Dates can be entered with or without dashes.

  ![Residency Date](image)

- Dates can be selected by clicking on the calendar icon next to any date field. Use the arrows shown below in order to change months. The double arrows jumps three months. The single arrow jumps one month.

  ![Residency Date](image)

Drop-down Lists
Throughout the web COE, there are fields that consist of drop-down lists. Users can tab or click into these fields and start typing to bring up predictive drop-downs. User can also click on the down turned arrows in order to see the entire drop-down list.

Fields that are Drop-down Lists:
- CITY and STATE
- FROM DISTRICT and TO DISTRICT
- COUNTRY CODE
- GEAR and CATCH
- SEX
- MB (multiple birth)
- EB (ethnic breakdown)
- VER (birth date verification code)
- GRADE
- FACILITY (school name)
- TYPE (type of enrollment)
- IM (immunization records on file)
- MA (medical alert indicator)
**Tips by COE Section**

**Top of the COE**

- The user’s district is auto populated into the **SCHOOL DISTRICT NAME** field at the Top of the COE. The user cannot change the school district.

  School District Name: KODIAK SCHOOL DISTRICT

**Child Data Section**

- To add children to the COE, click on the blank line in the Child Data section. There is no limit to the number of children that can be added to the Child Data Section of the COE created in the Web System.
  - If a COE contains more than five children, the COE will print on multiple pages. If collecting any ink signatures, signatures must be obtained on each page of the COE.

- The following child data entry panel will appear after clicking on the blank line in the Child Data Section. Enter data into the blank fields. The user can tab through each field.

- The child data entry panel contains fields that cannot be edited by the user. These are **AK STATE ID**, **IMM AVAIL**, and **MED ALERT**. Completing these fields are the responsibility of the district’s records manager.

- After completing all the fields, the user must click the **SAVE STUDENT** button shown above. Clicking the **SAVE MY WORK** button at the top of the page, will not save child data.
  - The user must enter a **VER CODE** and **GRADE** before the user can save the child’s data.
  - Data will be populated into the first blank row in the Child Data Section. Note, the school name will be shown as a code rather than the school name entered in the previous screen.
  - Though the **SCHOOL NAME** is displayed as **SCHOOL ID**, the actual **SCHOOL NAME** will be displayed when the COE is printed.
  - If a mistake has been made in the Child Data Section, click once on the corresponding line in the Child Data Section in order to edit the data populated into the fields.

- Many of the fields listed in the child panel are drop-downs. Additionally, these drop-downs spell out the full words, rather than codes for the user’s convenience. Once the child data is saved, the data will be converted to the required codes on the COE.

- To delete a child from the COE, click on the **Del** button, all the way to the right on the corresponding child data line, as show above.
Qualifying Moves & Work Section

- Check boxes can be changed if the wrong item is initially selected (i.e., the user checks **SPOUSE** instead of **PARENT/GUARDIAN**).
- The **COUNTRY CODE** “USA” is defaulted into question 1 and question 4 of the Qualifying Moves & Work Section. Additionally, the state abbreviation “AK” is defaulted into the **STATE** fields in questions 1 and 4.

![Qualifying Moves & Work Example]

- When the user selects **TO JOIN OR PRECEDE THE WORKER** in 2a, additional fields will be displayed that the user must complete, (including a separate comments field, not pictured, for the 2bi comment).

![Qualifying Moves & Work Example]

- If the move information in questions 1 and 4 are the same: Users have the option to copy information regarding the child’s move (question 1) into the question regarding the worker’s move (question 4) by selecting the check box for **THE SAME AS QUESTION 1**. Once the user checks the box, the information regarding the school districts, cities, states, and country listed for the child’s move will be populated into the fields for the worker’s move. If the user determines the information in these questions should not be the same, they can unselect the checkbox and will then be able to edit the data regarding the worker’s qualifying move in question 4.

  - **Question 1 in Qualifying Moves & Work Section – Child(ren)’s Move**

![Qualifying Moves & Work Example]

  - **Question 4 in Qualifying Moves & Work Section – Worker’s Move**

![Qualifying Moves & Work Example]
• When the user selects **Engaged in New Qualifying Work Soon After the Move**, a comment box will be displayed. Users should not fill in this box if a worker engaged in qualifying work immediately after the move. Users should only fill in the box when there are more than 60 days between the QAD and the start of the qualifying activity.

- **Engaged in New Qualifying Work Soon After the Move**
  - (Provide comment if worker engaged more than 60 days after the move)
  - OR
  - Actively sought new qualifying work AND has a recent history of moves for qualifying work (provide comment)

• The qualifying work listed under question 5 is separated into two fields. The first field is the gear, the second field is the catch.

  5. **The qualifying work**

  - **Gear/Activity**
  - **Catch/Crop/Logging Comp**

  o Many gear and catch options are listed in the drop-down menus twice, once as commercial and once as subsistence.
    - Commercial or subsistence should match both the gear and the catch. For example, both the gear and the catch are listed as commercial.
    - The user should choose commercial or subsistence based on the activity that the worker engaged in for the majority of the move listed in question 4.

• The user must check the personal subsistence box if the move listed in the Qualifying Moves & Work Section is, even in part, for subsistence. Remember to add a subsistence comment to the COE.

• Question 6 is hidden in default view. Only when the user selects **Temporary Employment** in question 5 will the additional fields for question 6 be displayed. The user must complete question 6 only if the qualifying work is temporary.
**Additional Qualifying Moves Box**

- The Additional Qualifying Moves box will automatically calculate the number nights for each move.
  - The calculated nights will show up after the user uses the **SAVE MY WORK** button.
  - The user cannot manually enter the number of nights.
  - If the moves are typed out of order, the nights will re-order themselves from most recent to oldest.

![Additional Qualifying Moves Box](image)

**Comments Section**

- The Comments box can be expanded for the user’s convenience by clicking and dragging the shaded lower right-hand corner.

![Comments Section](image)

**Obtaining Signatures**

- Review the COE thoroughly before obtaining signatures. Regardless of how signatures are collected on the COE, the following must be observed:
  - The interviewee must sign the COE first.
  - The interviewer/recruiter must sign the COE after the interviewee.
  - By signing the COE, the interviewee and interviewer are verifying that the information on the COE is complete and correct, and that the moves documented on the COE were made due to economic necessity.

- The recruiter obtains interviewee and interviewer signatures for COEs created in the Web System. There are three ways to obtain signatures for COEs created in the Web System:
  - COEs can be signed electronically in the Web System, and then submitted to the records manager without needing to print.
  - COEs can be printed and signatures obtained prior to submitting the COE to the records manager. COEs with ink signatures must be uploaded into the Web System. Maps must also be uploaded when applicable.
  - COEs can have a combination of electronic and ink signatures. Interviewee and then Interviewer signatures must be obtained prior to submitting to the records manager.
    - If the interviewee cannot sign electronically, the interviewer and SEA review can still sign electronically after receiving the interviewee signature on the printed hard copy COE.
    - If COEs are not completely signed electronically, a single hard copy version with all collected ink signatures will need to be scanned and uploaded to the Web System prior to submitting to the MEO.

- To add an electronic signature, click on the **SIGN** button next to the desired signature field(s) and have the appropriate individual write his/her signature in the field. On touch-sensitive devices this can be done with a stylus, finger, etc. On non-touch-sensitive devices this must be done with the mouse/cursor. A signature can be cleared by clicking the **CLEAR** button. Be sure to **SAVE MY WORK** after each signature. Remember, district staff may not sign a COE (either in ink or electronically) on behalf of the interviewee even if permission has been granted.
• If not utilizing only electronic signatures, print the COE and collect the required signatures. In order to print the COE, the user must utilize the **VIEW COE**, button at the top of the page. In the PDF viewer displayed the user can choose to print by clicking on the **PRINT ICON**.

• After obtaining the required signatures on the hard copy printed COE, the user will enter the signature information into the COE using the Web System. Be sure to select the **SIGNATURE ON FILE** box next to the appropriate signature field(s). Remember, if the interviewee cannot sign electronically, the interviewer and SEA reviewer can still sign electronically, after receiving the interviewee signature. Be sure to give the signed, hard copy COE to the records manager.

• Be sure to click **SAVE MY WORK** after entering signature information.

• It is the records manager’s responsibility to obtain the SEA Reviewer signature when they have received the signed (interviewee and interviewer) COE.
  o While users at the recruiter and records manager levels can upload scans into the web system, it is ultimately the records manager’s responsibility to ensure that the signed hard copy COE and other relevant files have been uploaded prior to submitting the COE to the MEO.
**Reviewing Recruiter COEs in the Web System**

Records managers may choose to review a recruiter’s work through the Web System prior to recruiters obtaining interviewee signatures. This step is a vital quality control process for certain districts. See below for instructions on how to find and view a recruiter COE before signatures are obtained and it is submitted for records manager approval. For instructions on how to review a COE submitted to the records manager, see [Reviewing, Approving, & Rejecting a COE in the Web System](#) on page 89.

1. Sign in to the [Alaska Migrant Web System](ak.msedd.com).
2. Navigate to the **HOME** tab.
3. Click on the **COEs** subtab.
4. Change COE status to be **IN PROCESS**. This will give the records manager a list of COEs that are not yet approved by the MEO.
5. Click on the advanced search **PLUS SIGN** symbol in the upper right-hand corner.
6. In the **RECRUITER** field, enter all or part of the recruiter’s name for the COEs the user would like to review.
7. Click on the **SEARCH** button to complete the search.
8. Use the three-line **HAMBURGER MENU (≡)** or **VIEW** to view the appropriate COE.
9. Communicate by phone or secure email with recruiter about any updates needed to the COE. Please note that this communication should follow district policies in regard to child privacy. For questions or concerns about protecting child data, or online security, refer to the [Family Educational Rights and Privacy Act (FERPA)](#) and [Online Safety and Security](#) sections starting on page 5.

For information about creating COEs in the Alaska Migrant Web System please refer to the [Creating a COE in the Web System](#) section starting on page 76.
Reviewing, Approving, & Rejecting a COE in the Web System

Approving COEs is a process that records managers have, historically, done in the MIS2000 Desktop App. The Web System has been updated to allow records managers to approve COEs in the Web System. The process for approving COEs has been updated. COEs submitted from status INCOMPLETE level will no longer be automatically sent to the records manager with status NEW. Instead, these COEs will go into a “pool” of unowned COEs that records managers can claim when they are ready to review them. This change will allow districts to have multiple records manager-level users who can easily and equitably distribute the work of reviewing and approving COEs.

Finding a COE to Review

1. Navigate to the COE subtab of the HOME tab in the Alaska Migrant Web System (ak.msedd.com).
2. Change the search status to REQUIRES ATTENTION. This action lists all COEs that have not yet been approved by the MEO and require an action from the records manager. COEs that have status REQUIRES ATTENTION include those currently owned by the records manager as well as those that are claimable by the records manager.
   • Note: If a records manager has COEs in status REQUIRES ATTENTION, he/she will see a message at the top of the screen upon logging into the Web System that reads “There are COEs that require your attention.”
3. Select the COE that requires approval. Hover over the three-line HAMBURGER (≡) menu on the desired COE and click TAKE OWNERSHIP from the drop-down list. This will change the owner to the records manager, and also automatically re-direct the user to the Edit COE page. Records managers should not take ownership of an unclaimed COE unless he/she has the fully signed hard copy COE on hand, or (if utilizing electronic signatures) has verified that the interviewee and interviewer signatures have been obtained.
4. In order to resume reviewing a COE that a records manager has already taken ownership of, locate the desired COE from the COE subtab (status = REQUIRES ATTENTION), hover over the three-line HAMBURGER (≡) menu, and click EDIT COE.
Approving a Child onto the COE

1. The records manager will need to approve each child listed on the COE. Note that, at this stage, an APPROVE link will appear on the rightmost column for each child on the COE. This indicates that the child has not been approved onto the COE yet. Click on APPROVE.

2. This will open a Student Search dialog box. The first three letters of the child’s last name and first name will already be populated into the search box. Click the SEARCH button.
   - Searching by partial last name and first name initial only (e.g. Last Name: JAC, First Name: B for Benjamin Jackson) will provide a more comprehensive list of names.
   - If the user is unable to find a child that is known to be migrant eligible in Alaska, complete the search again, with less information in the first name and last name fields. This will help match misspelled names.
   - Users can also search based on criteria other than student name, such as student ID and birthdate. It is recommended to use alternate search criteria before creating a new student in order to prevent creating a duplicate record in MIS2000.
   - Note: In order to minimize the merging of separate records, restrictions have been put in place to limit which existing child records are displayed during this student search. Children with a permanent termination code (D, G, Y) in their record, as well as individuals who are 22 years or older will not be displayed in the search results.
3. Through this approval process, the following could occur:
   - **Child is Found** – This means that the child on the COE has history in the MEP. From the search results, select the appropriate child with the correct information listed by clicking on the **Merge With This Student** button. This will link the current COE to the child’s previous records.
     - A search can lead to multiple results. Users must be cautious in selecting the correct child for the COE.
     - Be aware that many children have similar names. Before utilizing the **Merge With This Student** button, ensure that the all COE information matches the information auto-populated in the Web System, and that two children are really the same child. Be especially aware of family names given to each generation. Do not assume that an old birthdate is incorrect—this could be the parent a child is named for.
   - Clicking the **Merge With This Student** button will close the Student Search dialog box. The **Approve** link on the rightmost column of the selected child’s row will also disappear. Once a child has been merged with an existing record, the **AK State ID** field will be auto-populated.
   - If the records manager is attempting to merge two students whose Sex and Birthdate do not match, an error will appear.
   - If this error occurs, do not click on the New Student button right away. Investigate whether or not one of the records has inaccurate data and contact the MEO if the two students should be merged. This will help prevent duplicate students in MIS2000.
   - Click on the row. The child data entry panel will appear below the Child Data Section. This will already be auto-populated with the child’s information.
c. The records manager completes the health-related information fields, **IMM AVAIL** and **MED ALERT**. It is the responsibility of the records manager to gather this information, write it on the hard copy COE, and enter it into the Web System. Information about these fields is found in the Adding IM, MA, and AKSID information to each child section on page 95. Click on **SAVE STUDENT** to save any changes.

- **Child is Not Found** – If the child is not found, the student search dialog box will read No records to display.

a. Click the **NEW STUDENT** button to the right of the search dialog box. Clicking this will close the Student Search dialog box. The **APPROVE** link on the rightmost column of the selected child’s row will also disappear.

b. The child data entry panel will appear below the Child Data Section. This will already be auto-populated with the child’s information from the web COE, except for the **AK STATE ID**, **IMM AVAIL** and **MED ALERT** fields.

c. If a child is enrolled in a public school in Alaska, an AKSID is required in the **AK STATE ID** Field.

d. If a child is not yet in school, MIS2000 will generate an ID for that student, and the **AK STATE ID** Field should be left blank on the web COE.

e. It is the responsibility of the records manager to gather the information for the health-related fields, **IMM AVAIL** and **MED ALERT**, write it on the hard copy COE, and enter it into the Web System. Information about these fields is found in the Adding IM, MA, and AKSID information to each child section on page 95. Click on **SAVE STUDENT** to save any changes.

- **Child is Missing** – If it is believed a child should already be in the database, but cannot be located using **APPROVE CHILD FOR COE** and the **STUDENT SEARCH**, please contact the **MEQ** (page 150) for help. This will help prevent duplicate children in MIS2000.
• **Child is mistakenly identified** – If a child is mistakenly identified and merged with another child’s records, the records manager can remove the child from the COE.

  a. Click on the **DEL** link found on the row of the child that the user wants to unmerge.

  b. A pop-up window will ask for confirmation. Click OK to completely remove the child from the COE.

  c. Add the child back in by clicking on a blank row. The user should first complete a search to see if the child is in the database. If the child is in the database, the child’s name will show up in the Search Student dialogue box. After confirming that user has the correct student, click on **ADD THIS STUDENT**. Complete the rest of missing **IMM AVAIL** and **MED ALERT** fields. Click on **SAVE STUDENT** to save any changes.

  d. If the child does not show up in the database or does not have history in the program, click on **NEW STUDENT** and re-enter the rest of the information in the child data section. Click on **SAVE STUDENT** to save any changes.

4. Use the **SAVE MY WORK** button in order to save changes.
Adding a Child to the COE

Users can add a child onto the COE before it is sent to the MEO for final approval.

1. Click on a blank row in the Child Data section. This will open a Student Search dialog box.

2. Conduct a search to see if the child has is new to the MEP or has existing history in the program.

   a. Use the first three letters of the child’s last name and first name will already be populated into the search box. Click the SEARCH button.
   
   b. A search can lead to multiple results. Users must be cautious in selecting the correct child for the COE. Be especially aware of family names given to each generation. Do not assume that an old birthdate is incorrect—this could be the parent a child is named for.
   
   c. Before utilizing the ADD THIS STUDENT button, ensure that the child does, in fact, belong on the COE (check with recruiter, interviewee, etc).

3. A search can yield the following results:
   
   - Child is Found
     
     a. If the child is in the database, the child’s name will show up in the Search Student dialogue box. After confirming that user has the correct student, click on ADD THIS STUDENT.
b. Complete the rest of missing **IMM AVAIL** and **MED ALERT** fields. Click on **SAVE STUDENT** to save any changes. It is the records manager’s responsibility to ensure that all information on the web COE is accurate.

- **Child is Not Found**
  a. If the child is not found, the student search dialog box will read “No records to display.”
  b. Click on **NEW STUDENT** and re-enter the rest of the information in the child data section. Complete the **AK STATE ID**, **IMM AVAIL** and **MED ALERT** fields. It is the records manager’s responsibility to ensure that all information on the web COE is accurate.
  c. Click on **SAVE STUDENT** to save any changes.

**Adding IM, MA, and AKSID Information to Each Child**

If manually entering an Alaska Student ID number, please be aware that the **AK STATE ID** field requires 10 digits and is the number given by the State of Alaska to all students enrolled in an Alaska public school. If the student has never been enrolled in an Alaska public school, an ID starting with **AK** will be automatically generated. Please verify that the child does not have an assigned Alaska Student ID number (AKSID) before allowing the Web System to generate one.

The records manager completes the health-related information fields, **IMM AVAIL** and **MED ALERT**, when approving a COE. It is the responsibility of the records manager to gather this information and enter it into the Web System.

**Immunization Records Flag (IM)**

Record whether or not the district has immunization records on file (not necessarily in the migrant files) for each child listed on the COE. This field does not indicate whether a child is immunized or which immunizations a child has received. This field only indicates that the district has the child’s immunizations records on file. For more information refer to the **Recruiter Handbook**.

Completing SEA Reviewer Signature Information

After reviewing all the information on the COE, the records manager must collect/enter the Designated SEA Reviewer Signature information into the appropriate places in the SIGNATURE field. Any signature marked with SIGNATURE ON FILE must be included on the hard copy COE before the records manager can submit the COE to the MEO for final approval. Remember to upload a copy of the ink-signed COE prior to submitting to the MEO.

If electronic signatures are being utilized for a COE, there may not be a hard copy COE available. In this case, records managers must verify that the interviewee and interviewer signatures have been completed, and then collect the Designated SEA Reviewer signature. If the records manager is the Designated SEA Reviewer, click the SIGN button for the appropriate SIGNATURE field, write their signature in the space provided, and then complete the typed SIGNATURE fields. If the Designated SEA Reviewer is not the records manager, then the records manager will need to have the appropriate individual review the COE and complete the electronic signature process.

Uploading Attachments

In an effort to reduce the records retention burden for districts, beginning in school year 2021/2022, the MIS2000 database will store all new COEs. As a result, some COEs created in the Web System will require attachments to be uploaded prior to submitting to the MEO. COEs that will require an attachment are:

- COEs requiring one or more ink signatures.
  - For COEs with two or more pages, ink signatures must be collected on all pages.
- COEs that require a map for moves of 20 miles or more in a 15K+ district.
- Note: COEs that are signed entirely electronically AND document moves across district boundaries do not require any attachments.

To upload an attachment to a COE in the Web System:

1. When viewing the EDIT COE page, click on the UPLOAD button in the upper left corner. This will open a window that allows users to search for files on their computer.
2. Locate the COE/Map file that needs to be uploaded, select it, and click the OPEN button.
3. Repeat if needed to add another COE/Map file.
4. To view the attachments and/or to verify that the attachments have been successfully uploaded, hover over the DOWNLOAD DOCUMENTS link in the upper left corner. This will show any attachments that have
been added. Click the desired attachment to view or download it. Users can also click on the **DOWNLOAD DOCUMENTS** link, or the **ALL DOCUMENTS** option, to download all attachments in a .zip file.

5. The Web System allows up to two attachments per COE (one scanned COE with ink signatures, plus one map). It is acceptable to combine the map and ink-signed COE into a single file, or upload them separately.
   - Upload only one scanned COE with ink signatures. Make sure all ink signatures are on the same COE copy.

6. Attachments should be named in the following way:
   - COEs: COE ID number followed by last name(s) of children on COE (Ex: AK0-21-123456SmithPavilla)
   - Maps: COE ID number followed by “Map” (Ex: AK0-21-123456Map)

7. Please keep attachment file size as small as possible while still maintaining high enough quality for easy viewing/printing. Ideally, attachments will be less that 1MB in size. This helps prevent the database from becoming too large and slowing down.
   - Documents scanned as a PDF with resolution 300 x 300 dpi produce a file that meets the recommendations above.

8. If the COE has only electronic signatures and does not require a move map, then the COE can be submitted once the SEA Reviewer has verified the information on the COE and signed it. No attachments are required for these COEs.

**To view attachments before submitting a COE to the MEO:**

1. When viewing the **EDIT COE** page, hover over the **DOWNLOAD DOCUMENTS** link in the upper left corner. This will show any attachments that have been added.

2. Select the desired attachment from the dropdown list.
   - Users can also click on the **DOWNLOAD DOCUMENTS** link, or the **ALL DOCUMENTS** option to download all attachments in a .zip file.

3. Depending on the internet browser used, attachments should open in a new internet tab/window, or in the appropriate computer application. If neither of these happen, check the Downloads folder on your computer.

While it is the records manager’s responsibility to ensure these attachments are in place before submitting, these attachments can be uploaded by either the recruiter or records manager. Each district MEP can decide for itself who is responsible for uploading any required attachments. Records managers should always double check attachments to make sure they are the correct files before submitting a COE to the MEO.
Approving a COE

1. Use the **SAVE MY WORK** button in order to save changes.

2. If the COE has any signature fields marked with **SIGNATURE ON FILE**, or the COE requires a move map, then the COE will need an attachment(s) before it can be submitted. Required attachments are:
   - A scanned copy of the COE with any ink signatures. Attach only one copy of a COE that contains all gathered ink signatures. Remember, it is acceptable to have a combination of electronic and ink signatures.
   - A map for 15K+ districts showing an in-district move of 20 miles or more.
   - The Web System allows up to two attachments per COE (one scanned COE with ink signatures, plus one map). It is acceptable to combine the map and ink-signed COE into a single file.
   - Attachments should be named in the following way:
     i. COEs: COE ID number followed by last name(s) of children on COE (Ex: AK0-21-123456SmithPavilla).
     ii. Maps: COE ID number followed by “Map” (Ex: AK0-21-123456Map).
     iii. COE and Map Combined: COE ID number followed by last name(s) of children, followed by a dash, then “Map” (Ex: AK0-21-123456SmithPavilla-Map).

3. If the COE has only electronic signatures and does not require a move map, then the COE can be submitted (described below) once the SEA Reviewer has verified the information on the COE and signed it (no attachments required).

4. Click on the **APPROVE COE** button, located in the upper left-hand corner, to approve the COE and send the electronic COE to the MEO for final review. Any errors preventing COE submission will appear in red at the top of the screen.

5. When the **COE Log** is displayed, click the **APPROVE** button. Users are not required to add information to the **COE Log** when approving.

6. Once the COE has been approved by the records manager, it will be sent to the MEO for review. A confirmation message saying that the COE has been submitted will appear under the header.

7. This COE will now be found under the **COE** subtab of the **Home** tab with the status **IN PROCESS**. This action lists all COEs that have not yet been approved by the MEO and do not require an action from the records manager.
Rejecting a COE Back to the Recruiter

1. If changes need to be made to the COE in the recruiter level, click on the **Reject COE** button, located in the upper right-hand corner. This will send the electronic COE information back to the recruiter. Remember to clear out any signatures (as necessary) prior to rejecting a COE back to a recruiter.

![View COE](image1)

2. When the **COE Log** is displayed, provide a comment to the recruiter about what needs to be fixed on the COE. Click the **Reject** button.

![Reject COE Log](image2)

3. A COE that has been rejected to the recruiter level will appear as **In Process**, under the **COE** subtab of the **HOME** tab. The **Rejected** status will be displayed. The user under the Owner column will show the current user with the ability to edit this COE.

![COE Status](image3)
Updating and Correcting Rejected COEs

1. Users can find a COE that has been rejected by the MEO under the COE subtab of the HOME tab.
2. Change the search status to REQUIRES ATTENTION. This action lists all COEs that have not yet been approved by the MEO and require an action from the records manager.

3. COEs that have been rejected by the MEO and require correction will show up with a REJECTED status.
   - Rejected COEs may require the records manager to take ownership. To determine whether or not a rejected COE requires a user to take ownership, hover over the three-line HAMBURGER (≡) menu. If TAKE OWNERSHIP is on option listed, select that option. This will automatically load the Edit COE page. If TAKE OWNERSHIP is not an option, then click EDIT COE to navigate to the Edit COE page.

4. On the left-hand side of the screen, click on VIEW LOG. This will open a window where users can view comments from the MEO regarding what needs to be fixed for the COE to be eligible.

5. Corrections may be made either at the records manager level or the recruiter level: If any corrections are made a hard copy COE, the updated version will need to be uploaded to the Web System (remember to delete the un-corrected version from the Web System). See Uploading Attachments on page 96 for more information.
• **At Records Manager Level** – Some necessary corrections to the COE may be done at the records manager level.
  a. Additional comments, if any, should be placed in the Comments section of the COE, not in the Log. Initial and date all additional comments. It is the records manager’s responsibility that all information on the COE is accurate, that these changes are applied to the hard copy COE (if applicable), and that an updated hard copy COE is uploaded to the Web System (if applicable).
  b. If corrections are made to sections other than the Qualifying Moves and Work section, they should be noted in the comments of the electronic COE (remember to initial and date). Be sure to make corrections to the hard copy COE (if applicable). Districts are not required to upload an updated hard copy COE in these instances.
  c. Use the **SAVE MY WORK** button to save changes.
  d. Click on **APPROVE COE** to send it back to the MEO.

• **At Recruiter Level** – Some corrections require that a COE be re-written and new signatures obtained. The records manager will need to reject the COE back to the recruiter level to perform all necessary corrections. If the COE contains any ink signatures, a scanned copy of the ink-signed, re-written COE will need to be uploaded before submitting to the MEO.
  a. Remove all signatures. Records managers can now clear all signature fields on COEs they own.
     - If electronic signatures are being utilized, click on the **CLEAR SIGNATURE** button next to each signature (a confirmation pop-up window will appear), and manually clear out the typed name, relationship (Interviewee only), and date fields.
     - For COEs with ink signatures, un-check the **SIGNATURE ON FILE** checkbox for the appropriate signatures, and manually clear the name, relationship (Interviewee only), and date fields. If a scanned copy of the COE (without corrections) has already been attached, remember to delete the attachment.
  b. Click on the **REJECT COE** button, located in the upper right-hand corner. This will send the electronic COE information back to the recruiter.
  c. Utilize the log to explain to the recruiter what changes need to be made. Click the **REJECT** button.
  d. Once the recruiter has rewritten the COE and new signatures are obtained from the Interviewee and Interviewer, the recruiter can enter the new dates and submit the COE back to the records manager.
COE Status Guide – Web System

COEs are assigned statuses in MIS2000 in order to differentiate between approved and partially approved COEs. The status of a COE is listed in the COE subtab.

Incomplete (In Process)
- Status of a newly created COE.
- COE not submitted to records manager.
- COE belongs to the creator.
- COE can only be edited by the creator.

New/Rejected (In Process)
- COE status while under records manager review (New).
- COE belongs to the district records manager (New).
- COE can be edited by the district records manager (New).
- Rejected status indicates a COE that has been returned to the district by the MEO, or a COE that has been returned to the recruiter by the records manager.
- COEs with this status are claimable, if the owner column is blank. They cannot be edited until claimed. If the owner column is not blank, they can only be edited by the listed owner.

Reviewed/Verified (In Process)
- District records manager has approved the COE.
- COE is submitted to the MEO to determine eligibility.
- COE belongs to the MEO.
- District cannot edit the COE.

Accepted (Approved)
- COE is approved by MEO.
- Children are migrant eligible.
- COE cannot be edited by the district.

Canceled (In Process)
- COE is not approved by the MEO.
- Children are found to be ineligible for the MEP.
- COE will be deleted from MIS2000.
Reassigning COEs Created in the Web System
MS/EdD, the creators of the MIS2000, have created limited functionality in order to reassign COEs from a web user (recruiter) to another web user (records manager). This ability was created in order for district records managers to take ownership of specific COEs from recruiters under the following circumstances.

1. A recruiter is no longer employed by the district, and a hard copy COE with signatures been returned to the district office, or
2. A complicated situation arises, and the records manager is better suited to complete the COE.

Limitations
COEs can only be reassigned if they have never been submitted to the records manager. Once a COE has been successfully submitted to the records manager for approval, the COE cannot be reassigned. Furthermore, once a COE has been reassigned, that COE cannot be reassigned a second time (the process can only be done once).

Process
The steps below outline the process to reassign a COE.
1. Records manager logs into the Alaska Migrant Web System (ak.msedd.com).
2. Records manager uses the COE subtab to search for COEs with status In Process.
3. Records manager uses the three-line HAMBURGER MENU (≡) or VIEW COE button to view the COE.
4. Records manager confirms the COE has never been submitted to the records manager and has been owned only by the initial recruiter who created it in the Web System by using the VIEW LOG button.
5. Records manager contacts the MEO (page 150) in order to take possession of a web COE.
6. MEO staff reassignments COE to the records manager.
ARCs in the Web System – Creating, Reviewing, and Approving

All records managers (and their recruiters) can create and approve ARCs in the Web System. This process does not need MEO approval. Beginning school year 2021-2022, ARC signatures have been replaced with electronic assurances. Instead of printing and signing ARCs, interviewers and designated SEA reviewers can provide an electronic assurance verifying the accuracy of information contained in an ARC without the need to print the form. The process is described in the sections below:

Creating an ARC in the Web System
1. Navigate to the COE subtab of the HOME tab in the Alaska Migrant Web System (ak.msedd.com).
2. Search for the child, family, or most recently approved COE.
   - Ensure that the search criteria is set to COES WITH STATUS APPROVED.
   - Ensure that the ACTIVE ONLY box is checked.
3. Click on the three-line HAMBURGER (≡) menu, located to the right of the data displayed.
4. Click on VIEW COE.
5. Click on the RECERTIFY button, located in the upper left-hand corner.
6. Click on EDIT for the first child who should be recertified on the ARC.
7. In the RECERTIFY field, change the N to a Y for Yes.
8. Choose the school name the child is attending for the current school year from the drop-down menu in the SCHOOL NAME field.
   - For more information, refer to Recruiter Handbook.
9. Enter the first day of school the child attended for the current school year in the ENROLL DATE field, if applicable.
   - Children who are not attending any school will not have an ENROLL DATE.
10. Enter the grade for the child in the GR (GRADE) field.
   - For information on Grades, refer to page Error! Bookmark not defined..
11. Click on the UPDATE button, located to the right of the EOE DATE.
12. Click on the **SAVE CHANGES** button located in the upper right-hand corner of the screen, to save the changes that have been made.

13. Repeat steps 6-12 for each child who should be recertified on the ARC.
   - Please note that it is likely that not all of the children listed on a particular COE should be recertified on an ARC. It is fine for children to be left with **RECERTIFY = N**. Children who should not be recertified on an ARC include, but are not limited to: graduates, children who have aged out of the program, deceased, and children who have made a new qualifying move.

14. Enter comments, if any, in the **COMMENTS** field located underneath the **CHILD DATA** section.

15. Read the Eligibility Data Certification and check the appropriate checkbox. Checking this box will auto-populate the user’s name and date in the appropriate signature field upon submitting the ARC.

- Once the ARC is approved, a comment will be added to the child’s School History Line in MIS2000 noting when each user verified/approved the ARC.
- Note: The records manager can now provide the certification for both the Interviewer and Designated SEA Reviewer. However, districts are still encouraged to have two separate individuals provide these certifications to help ensure data quality.

16. Click on the **SAVE CHANGES** button located in the upper right-hand corner of the screen to save the changes that have been made.

17. Click on the **SUBMIT FOR REVIEW** button.

**Errors and Warnings**
Error messages and meanings are documented in the [Errors and Submission Checks in MIS2000](#) section starting on page 131.
Important Information Regarding ARCs in the Web System

Finding a Partially Completed or Rejected ARC to Update

To find a partially completed or rejected ARC, follow the procedure outlined below. Upon logging in, if a user has ARCs that are incomplete, a blue alert reading “There are COE Recertifications that need your attention” will appear at the top of the internet browser window until the user navigates to the COE Recerts tab.

1. Click on the COE Recerts tab in the ribbon located at the top of the webpage.

   - There are two radio buttons: ALL and MINE. MINE is the default view, and shows all ARCs owned by the user. ALL shows all ARCs that are in process for the district. Note: Users can only edit the ARCs that they own.
   - This list (both ALL and MINE) can be downloaded by clicking on the Download CSV link in the upper right-hand corner.

2. Click on the desired Annual Rectification (ARC) of No New Moves from the list provided.

3. Click on the Take Ownership button in the upper left corner. This only applies to records managers when reviewing ARCs submitted by recruiters.

4. Update the ARC as needed using the Edit and Update buttons and/or type directly in the Comments section.

5. Click on the Save Changes button to save the ARC.
   - Click on the Update button, if the Child Data section is still open for editing prior to clicking on the Save Changes button.

6. Complete the Interviewer Certification field if not already complete.
   - Remember, it is no longer necessary to print and sign ARCs. The electronic certification replaces this requirement.

7. Click on the Submit for Review button.

8. It may be helpful to inform the records manager when ARCs have been submitted so they can be reviewed in a timely manner. It is the responsibility of the records manager to obtain the Designated SEA Reviewer Certification.
**Deleting an ARC**

There are situations where an ARC should be deleted prior to the recruiter submitting it to the records manager for review. This occurs when the children listed on the form are not currently living in the recruiting district, attending school in the recruiting district, or otherwise being served by the recruiting district with migrant funds. It is also possible that though the children listed on an ARC were migrant eligible at the time the recruiter started to complete the ARC they have since EOE’d before the ARC could be submitted and approved. If any of these situations occur, the ARC should be completely removed from the Web System.

1. Click on the **COE Recerts** tab.

2. Click on the **COE ID** of the ARC that needs to be deleted.

3. To delete ARCs created in the Web System, the user will click on the **DELETE RECERTIFICATION** button located in the upper right-hand corner of the webpage. This button is available any time the user is editing a particular ARC. Clicking this button will completely remove the ARC from the Web System.

4. Click on the **OK** button when the Web System prompts “Are you sure you want to delete this?”
   - Note – Once deleted, the ARC can’t be recovered. The ARC would need to be completed again.

To remove only one child from an ARC, simply update the **RECERTIFY** field for a particular child, so that it displays **N** instead of **Y**.

**Reassigning ARCs**

Occasionally, it may be desirable for ownership of an ARC to be transferred from one district user to another (Ex: recruiter creates an ARC, doesn’t not submit for review, and then Web System access expires). With certain limitations, the MEO can reassign ARCs from one district user to another. If this need arises, contact the MEO to determine whether the ARC can be reassigned, or if a new ARC needs to be created.
Reviewing an ARC Submitted through the Web System

Approving an ARC
Records managers are responsible for reviewing all ARCs for their district, ensuring that the data transmitted to MIS2000 through the Web System is up to date and accurate, and that the children listed on the ARCs have an active and eligible COE on file for the district. Note: ARC Eligibility Data Certifications can now be collected electronically, through the Web System. Due to this update, ARCs do not need to be printed/retained by the district (starting with 2021/2022 ARCs).

1. Click on the **COE Recerts** tab in the Web System.

2. Click on the original **COE ID** of the ARC that should be recertified.
   - Any ARCs submitted from recruiter to the records manager will be listed by the original **COE ID**. Parent information will also be displayed.

3. Click on the **TAKE OWNERSHIP** button in the upper left corner. This allows the records manager to edit the ARC. This feature also allows a district the flexibility to have multiple records managers divide the responsibility of reviewing/approving ARCs.

4. Review the data populated into the online form. Make changes to the online form as needed using the **EDIT** and **UPDATE** buttons for each child, or by adding additional comments to the **COMMENTS** section.

5. Read the Eligibility Data Certification and check the box. It is acceptable if both Eligibility Data Certifications are completed by the records manager. Completing the Eligibility Data Certification will populate a comment into the School History Line noting who provided the certification and when upon approving the ARC. It will also populate the Designated SEA Reviewer Signature field’s name and date.

6. Click the **SAVE CHANGES** button located in the upper right-hand corner.

7. Click the **APPROVE** button located in the upper left-hand corner.
Rejecting an ARC Back to a Recruiter to Make Changes

Though the records manager can edit an ARC, it is possible for the records manager to reject an ARC back to a recruiter. For the sake of timeliness, it is likely in the records manager’s interest to make changes themselves rather than utilize this feature.

1. Click on the **COE Recerts** tab.

2. Click on the **COE ID** for the ARC that needs to be rejected.

3. Click on the **Reject Recertification** button. Click on the **OK** button when the Web System prompts “Are you sure you want to reject this COE Recertification?”

4. Follow up with recruiter about the changes needed before resubmitting.
Deleting an ARC that Should Not be Approved

There are times when a records manager should not approve (reject) an ARC. This occurs when children listed on the form are not currently living in the recruiting district, not attending school in the recruiting district, or otherwise being served by the recruiting district with migrant funds. It is also possible that the children listed on an ARC were migrant eligible at the time the recruiter submitted the ARC to the records manager, but they EOE’d before the ARC was approved by the records manager. When this occurs, the ARC should be completely removed from the Web System. The process for deleting an ARC is the same process as deleting an ARC at the recruiter level (page 107).

1. Click on the **COE Recerts** tab.

2. Click on the **COE ID** of the ARC that needs to be deleted.

3. To delete ARCs created in the Web System, the user will click on the **DELETE RECERTIFICATION** button located in the upper right-hand corner of the webpage. This button is available any time the user is editing a particular ARC. Clicking this button will completely remove the ARC from the Web System.

4. Click on the **OK** button when the Web System prompts “Are you sure you want to delete this?”

   • Note: Once deleted, the ARC can’t be recovered. The ARC would need to be completed again.

To remove only one child from an ARC, simply update the **RECERTIFY** field for a particular child, so that it displays **N** instead of **Y**.
Printing an ARC

Beginning school year 2021-2022, districts will not be required to print ARCs for any reason. The addition of electronic Eligibility Data Certification has made printing ARCs unnecessary. However, the process is detailed below for districts that may have a local/internal desire to print ARCs.

1. Navigate to the COE subtab of the HOME tab in the Alaska Migrant Web System (ak.msandd.com).
2. Search for the child, family, or most recently approved COE.
   - Ensure that the search criteria is set to **COEs with status APPROVED**.
   - Ensure that the **ACTIVE ONLY** box is checked.

3. Click on the three-line HAMBURGER (≡) menu, located to the right of the data displayed.

4. Click on **View COE**.

5. Click on the **PRINT MOST RECENT RECERTIFICATION** button on the upper left-hand corner. This button will not appear if the COE has not yet been recertified.
Web System Tips and Traps

Tips

- **Review COEs/ARCs for any missing or needed information and for accuracy.**
- **Enter complete and accurate COEs and ARCs as soon as they come in. Do not wait.**
- **For COEs/ARCs that are completed prior to being entered into the Web System, enter exactly what the hard copy COE and ARC says into MIS2000. No changes, additions, or deletions are allowed unless those changes are also made on the hard copy COE or ARC.**
- **Once signed, no changes can be made to the Qualifying Moves & Work section of the COE. If changes need to made to this section, a new COE will need to be created and new signatures obtained.**
- **Search for students in MIS2000 by partial last name and first initial only. This will increase user success in finding the student.**
- **Enter student IDs for K-12 public school students. All students entered into MIS2000 in grades K-12 must have a State-assigned student ID entered if they have ever been enrolled in any Alaska public school. COEs will be considered incomplete without.**
- **Make sure there is a 10-digit phone number listed in the Family Data section. This is required so that the MEO can reach the family, even if it is only to leave messages. This cannot be a school district number.**
- **Make sure the recruiter has initialed & dated the end of the Comments section. Any comments added after the original interview must also include initials and date.**
- **Save work often. If the internet goes out, or automatic log out kicks in, users will lose all progress since the last save.**
- **Select COEs with status “All” and uncheck the “Active Only” box if struggling to find COEs.**
- **If a child is mistakenly identified as a "new" or "existing" child, remove the child from the COE in the Child Data section (click DEL button at far-right side), then click on the next blank line to create a new line to re-enter the child's information. Through this process, the database will search for existing records to link to.**
- **If a COE is rejected, enter any comments/responses into the COE COMMENTS section, and not the COE Log. Remember to re-upload any corrected, hard copy COEs, if applicable.**

Traps

- **Do not enter any punctuation, such as an apostrophe, for child names. Unless exact name with punctuation is entered the same every time, child will not appear in the search results.**
- **Do not enter dashes into blank fields in the Web System.**
- **Avoid viewing the Web System across multiple browser tabs/windows. If users forget to interact with even one tab/window, automatic log out will kick in and disrupt the work done in all tabs/windows. Progress since the last save will be lost.**
- **Double and triple check that child information matches before merging children. Improperly merged records can cause major data quality issues and can be very difficult to untangle. New quality control measures have been implemented to prevent this, but please continue to be vigilant when merging children.**
- **Save any hard copy, ink-signed COEs for the duration of the school year, even after uploading to the Web System.**

Errors and Warnings

Errors and Submission Checks in MIS2000 are described starting on page 131.

<td>----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Activities</td>
<td>Activities related to identification and recruitment, parental involvement, program evaluation, professional development, or administration of the program are examples of allowable activities that are not considered services.</td>
</tr>
<tr>
<td>Active/Accepted COE</td>
<td>A COE is active/accepted when the COE has been reviewed and all children on the COE are deemed eligible by the MEO.</td>
</tr>
<tr>
<td>Actively Sought</td>
<td>The individual takes positive actions to seek new qualifying work. The process of actively seeking new qualifying work should happen within 60 days of the move.</td>
</tr>
<tr>
<td>Agricultural Production</td>
<td>Work done at facilities engaged in the growing and harvesting of crops or the keeping of livestock.</td>
</tr>
<tr>
<td>Agricultural Work</td>
<td>The production or initial processing of crops, dairy products, poultry, or livestock, as well as the cultivation or harvesting of trees. It consists of work performed for wages or personal subsistence.</td>
</tr>
<tr>
<td>Alaska Migrant Web System</td>
<td>The Alaska Migrant Web System is a secure website utilized in several ways to help streamline Alaska’s Migrant Education Program. Listed below are some of the applications of the Alaska Migrant Web System:</td>
</tr>
<tr>
<td></td>
<td>• A secure transmission portal of migratory children and youth data between recruiters, records managers and the MEO</td>
</tr>
<tr>
<td></td>
<td>• A recruiting tool for recruiters and records manager to use to complete a COE and submit to the district migrant database, MIS2000</td>
</tr>
<tr>
<td></td>
<td>• A generator of migratory children and youth reports</td>
</tr>
<tr>
<td>Allocation</td>
<td>Amount of MEP funds given by the Alaska Department of Education &amp; Early Development to an eligible school district. The funds are based on a formula and the child count generated by that district.</td>
</tr>
<tr>
<td>Annual Recertification of No New Moves</td>
<td>The form used to recertify eligible migratory children in the recruiter’s district who have not made any additional qualifying moves since the last interview. An Annual Recertification of No New Moves recertifies a child’s eligibility in the recruiter’s district.</td>
</tr>
<tr>
<td>Annual Verification</td>
<td>The State of Alaska requires all migratory children to be contacted each year for verification of eligibility in the Migrant Education Program.</td>
</tr>
<tr>
<td>As the Worker Move</td>
<td>The child is at least 14 years of age, and made a qualifying move as a migratory fisher or migratory agricultural worker.</td>
</tr>
<tr>
<td>Canceled COE</td>
<td>The status of a COE which, for a variety of factors, the MEO has found the children to not be eligible for the Migrant Education Program. There are several reasons for cancelling a COE including: move was too short in length, the family did not travel far enough, no economic necessity indicated, etc. Canceled COEs will be deleted from MIS2000 soon after they have been deemed ineligible</td>
</tr>
<tr>
<td>Certificate of Eligibility</td>
<td>A form adopted by the U.S. Department of Education and the Alaska Migrant Education Program that is used to document a child’s eligibility. The COE contains the information needed to certify a child as eligible for the Migrant Education Program.</td>
</tr>
<tr>
<td>Word</td>
<td>Definition</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Continuation of Services</td>
<td>School districts may choose to offer services to migratory children whose eligibility has ended under the following conditions:   • a child who ceases to be a migratory child during a school term shall be eligible for services until end of such term;   • a child who is no longer a migratory child may continue to receive services for one additional school year, but only if comparable services are not available through other programs; and   • children who are eligible for services in secondary school may continue to be served through credit accrual programs until graduation.</td>
</tr>
<tr>
<td>Course History</td>
<td>As part of the minimum data elements (MDEs) required by OME, districts report course history information on their migratory children in grades 9-12, twice a year. This information is uploaded to MIS2000.</td>
</tr>
<tr>
<td>Crop</td>
<td>A plant that is harvested for use by people or by livestock.</td>
</tr>
<tr>
<td>Cultivation of Trees</td>
<td>Work that promotes the growth of trees.</td>
</tr>
<tr>
<td>Designated SEA Reviewer</td>
<td>The staff member at the district office that has agreed to be the district’s final reviewer on all COEs.</td>
</tr>
<tr>
<td>Emancipated Youth</td>
<td>Children who have not yet reached adult age who are no longer under the control of a parent/guardian and who are solely responsible for their own welfare.</td>
</tr>
<tr>
<td>Economic Necessity</td>
<td>The child and the worker (if the child is not the worker) moved because they could not afford to stay in the current location.</td>
</tr>
<tr>
<td>Engaged In</td>
<td>To do or take part in new temporary or seasonal employment or personal subsistence in agricultural or fishing work.</td>
</tr>
<tr>
<td>Enroll Date</td>
<td>The first day the child attends school in the recruiter’s district after making a qualifying move for the current school year.</td>
</tr>
<tr>
<td>End of Eligibility Date</td>
<td>Also called the EOE, this date is three years (36 months) from a migratory child’s most recent Qualifying Arrival Date. After this date, a child is no longer eligible for the MEP and MEP services, unless they make another qualifying move.</td>
</tr>
<tr>
<td>ESEA Consolidated Application</td>
<td>A single, consolidated application for all ESEA formula entitlements, including the following titles: Title I-A, Title I-C, Title I-D, Title II-A, Title III-A, and Title IV-A. The consolidated application is completed using an electronic web-based application, known as GMS.</td>
</tr>
<tr>
<td>Extended Move (30 days or more)</td>
<td>The comment required when the move listed in question 1 or question 4 of the Qualifying Moves and Work Section is more than 30 days long. When this occurs, the recruiter must verify the length of time the migratory worker was engaged in the qualifying work.</td>
</tr>
<tr>
<td>Fall Recruitment Report</td>
<td>This report is a list of the eligible migratory children in a district from the previous school year (and those who have EOE’d since the previous school year). This report serves as a “to do” list for the district at the start of the school year. The district must contact all children and families on the list prior to the November 15th recruitment deadline.</td>
</tr>
<tr>
<td>Word</td>
<td>Definition</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>FERPA</td>
<td>The Family Education Rights and Privacy Act (FERPA) is a Federal law that protects the privacy of student education records.</td>
</tr>
<tr>
<td>Fishing Work</td>
<td>The catching or initial processing of fish or shellfish or the raising or harvesting of fish or shellfish at fish farms. It consists of work performed for wages or personal subsistence.</td>
</tr>
<tr>
<td>Fish Farm</td>
<td>A tract of water, such as a pond, a floating net pen, a tank, or a raceway reserved for the raising or harvesting of fish or shellfish. Large fish farms sometimes cultivate fish in the sea, relatively close to shore. The fish are artificially cultivated, rather than caught, as they would be in fishing.</td>
</tr>
<tr>
<td>Grants Management System</td>
<td>The electronic web-based grants management system used for the ESEA Consolidated Grant application and reimbursement requests.</td>
</tr>
<tr>
<td>Guardian</td>
<td>Any person who stands in the place of the child’s parent, <em>in loco parentis</em>, whether by voluntarily accepting responsibility for the child’s welfare or by a court order.</td>
</tr>
<tr>
<td>Guardian Move</td>
<td>Type of qualifying move where the migratory worker is not the children’s parent and/or legal guardian. The migratory worker is the guardian of the children during the move only. The guardian must be 14 years or older. The qualifying move must be an economic need for the child(ren)’s primary household. If applicable, the subsistence must go back to support the child(ren)’s primary household.</td>
</tr>
<tr>
<td>Harvesting of Trees</td>
<td>The act of gathering or taking of the trees. Some examples of harvesting are: topping, felling, and skidding. This does not include harvesting for personal use.</td>
</tr>
<tr>
<td>Identification</td>
<td>Determining the location and presence of potentially eligible families of migratory children.</td>
</tr>
<tr>
<td>ID&amp;R Plan</td>
<td>A document that establishes an identification and recruitment process for a district-level Migrant Education Program that encompasses training of staff, identifying potential children, and effective recruitment.</td>
</tr>
<tr>
<td>Individualized Education Program (IEP)</td>
<td>A written document required for each child who is eligible to receive special education services that is developed, reviewed, and revised in an annual meeting.</td>
</tr>
<tr>
<td>Initial Processing</td>
<td>Work that is beyond the production stage of agricultural work and precedes the transformation of the raw product into something more refined.</td>
</tr>
<tr>
<td>Instructional Service</td>
<td>Services that provide evidence-based instruction to migratory children.</td>
</tr>
<tr>
<td>Literacy Grant</td>
<td>The Alaska Department of Education &amp; Early Development’s Migrant Literacy Grant is a grant-based program for the purchase of literary materials for migratory children. Allocation size depends on the number of qualifying migratory children served by the district.</td>
</tr>
<tr>
<td>Literacy Grant Final Report</td>
<td>This report is for districts that choose to participate in the Migrant Literacy Grant. The report describes what a district did with its literacy grant funds.</td>
</tr>
<tr>
<td>Word</td>
<td>Definition</td>
</tr>
<tr>
<td>------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Livestock</td>
<td>Any animal produced or kept primarily for breeding or slaughter purposes, including, but not limited to, beef cattle, hogs, sheep, goats, and horses.</td>
</tr>
<tr>
<td>Local Education Agency (LEA)</td>
<td>The local agency responsible for the implementation of program services to identified eligible migratory children. In Alaska, this is usually the school district.</td>
</tr>
<tr>
<td>Lunch List</td>
<td>A list of all eligible migratory children in the records manager’s district, including those that the district did not recertify during the current or previous school year. This list contains all children recruited by the district who are within their three years of migrant eligibility as of 7/1.</td>
</tr>
<tr>
<td>Mass Withdrawal Report</td>
<td>The end of school year report provided to district records managers. The records manager reports the supplemental program services received by migratory children during the school year on this report. This report also allows the MEO to withdraw all migratory children from the program at the end of the school year.</td>
</tr>
<tr>
<td>Measurable Program Objectives (MPOs)</td>
<td>Measurable outcomes are the results the MEP hopes to achieve at the State and district levels through the provision of specific educational or educationally related services. Measurable outcomes help the MEP determine whether and to what degree it has met the unique educational needs of migratory children that the SEA identified through the comprehensive needs assessment. The measurable outcomes at both the State and districts help migratory children achieve the State’s performance targets.</td>
</tr>
<tr>
<td>Migrant Education Office</td>
<td>The Migrant Education Office (MEO) is located at the Alaska Department of Education &amp; Early Development (DEED) office in Juneau.</td>
</tr>
<tr>
<td>Migrant Coordinator</td>
<td>The district-level staff member responsible for ensuring local quality control of the migrant identification, recruitment, and eligibility certification process. The coordinator also ensures that key tasks are completed by the deadline and may also develop a program plan or be involved with the federal grant application.</td>
</tr>
<tr>
<td>Migratory Agricultural Worker</td>
<td>An individual who made a qualifying move in the preceding 36 months and, after doing so, engaged in new temporary or seasonal employment or personal subsistence in agriculture, which may be dairy work or the initial processing of raw agricultural products. If an individual did not engage in such new employment soon after a qualifying move, such individual may be considered a migratory agricultural worker if the individual actively sought such new employment and has a recent history of moves for temporary or seasonal agricultural employment.</td>
</tr>
<tr>
<td>Migratory Child</td>
<td>A child or youth under the age of 20 (22 with an active IEP) who made a qualifying move in the preceding 36 months— • as a migratory agricultural worker or a migratory fisher; or • with, or to join, a parent/guardian or spouse who is a migratory agricultural worker or a migratory fisher.</td>
</tr>
<tr>
<td>Migratory Fisher</td>
<td>An individual who made a qualifying move in the preceding 36 months and, after doing so, engaged in new temporary or seasonal employment or personal subsistence in fishing. If the individual did not engage in such new employment soon after the move, the individual may be considered a migratory fisher if the individual actively sought such new employment and has a recent history of moves for temporary or seasonal fishing employment.</td>
</tr>
<tr>
<td>Word</td>
<td>Definition</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Migratory Worker</td>
<td>Shortened term for Migratory Agricultural Worker or Migratory Fisher.</td>
</tr>
<tr>
<td>Minimum Data Elements</td>
<td>States are required to collect and report minimum data elements (MDEs) to the U.S. Department of Education – Office of Migrant Education (OME). MDEs are data elements that states must collect and maintain in their migratory children and youth databases (i.e. MIS2000) for each of their eligible migratory children in order to make those data available to other states via the national migrant student database, MSIX.</td>
</tr>
<tr>
<td>MIS2000</td>
<td>The Alaska Migrant database. All migrant eligibility information, as well as all MDEs required for the program are entered, stored, and reported through this database.</td>
</tr>
<tr>
<td>Missing Eligible Students Report</td>
<td>A report that lists the children in the district that still have migrant eligibility but were not recertified for the current school year. This report is useful to districts after fall recruitment is over. The MEO can run the missing eligible student list for the district upon request.</td>
</tr>
<tr>
<td>Monitoring</td>
<td>A review of fiscal and program records to determine if those activities are in compliance with federal and state regulations and in conjunction with the LEA application.</td>
</tr>
<tr>
<td>Move</td>
<td>A change from one residence to another that occurs due to an economic necessity.</td>
</tr>
<tr>
<td>MSIX</td>
<td>The Migrant Student Information Exchange (MSIX) system is the technology that allows states to share educational and health information on migratory children who travel from state to state and who, as a result, have student records in multiple states’ information systems. MSIX works in concert with the existing migrant student information systems that states currently use (MIS2000 in Alaska) to manage their migrant data to fulfill its mission to ensure the appropriate enrollment, placement, and accrual of credits for migratory children nationwide.</td>
</tr>
<tr>
<td>Needs Assessment</td>
<td>A needs assessment is a systematic assessment and decision-making process that progresses through a defined series of phases to determine needs, examine their nature and causes, and set priorities for future action.</td>
</tr>
<tr>
<td>Not Yet in School</td>
<td>A child who is usually under the age of 5, and has not yet enrolled in any school. These children will have a grade listed on the COE as 00.</td>
</tr>
<tr>
<td>Out of School Youth (OSY/OY)</td>
<td>Children under the age of 20 who are entitled to free public education in the State and who meet the definition of migratory child, but who are not currently enrolled in a K-12 institution. This term could include children who have dropped out of school or youth who are working on a high school equivalency diploma (GED). This term would not include children in preschool, or children not yet old enough to be enrolled in school.</td>
</tr>
<tr>
<td>Parent Advisory Council (PAC)</td>
<td>A council comprised of parents of migratory children representing all regions of the state to provide a means for community and parent input during the planning, operation and evaluation of a Migrant Education Program project.</td>
</tr>
<tr>
<td>Parent/Guardian</td>
<td>The legal guardian or other person standing in loco parentis (such as a grandparent, stepparent, aunt or uncle, older sibling with whom the child lives, or a person who is legally responsible for the welfare of the child).</td>
</tr>
<tr>
<td>Word</td>
<td>Definition</td>
</tr>
<tr>
<td>-------------------------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Permanent Move</td>
<td>A move into a new district, where the family intends to remain and live indefinitely. This move could be made by the child individually, in order to attend school in another school or district (i.e. Mt. Edgecumbe, Galena, etc.)</td>
</tr>
<tr>
<td>Personal Subsistence</td>
<td>The worker and the worker’s family, as a matter of economic necessity, consume, as a substantial portion of their food intake, the crops, dairy products, or livestock they produce or the fish they catch.</td>
</tr>
<tr>
<td>PrePrints</td>
<td>This report produces a PDF of all active COEs in the district, based on the START DATE selected by the user. Note: Information is populated in an old version of the Alaska COE – do not use for records retention purposes.</td>
</tr>
<tr>
<td>Priority for Service (PFS)</td>
<td>A term used to identify children in greatest need of migrant education services. In providing services with migrant funds, the district shall give priority to migratory children who have made a qualifying move within the previous 1-year period and who— (1) are failing, or most at risk of failing, to meet the challenging State academic standards; or (2) have dropped out of school.</td>
</tr>
<tr>
<td>Production (Agricultural)</td>
<td>Work on farm, ranches, dairies, orchards, nurseries, and greenhouses engaged in the growing and harvesting of crops, plants, or vines and the keeping, grazing or feeding of livestock or livestock products for sale. The term also includes, among other things, the production of bulbs, flower seeds, vegetable seeds, and specialty operations such as sod farms, mushroom cellars, and cranberry bogs.</td>
</tr>
<tr>
<td>Qualifying Arrival Date (QAD)</td>
<td>The date the child and the migratory agricultural worker or migratory fisher (if the child is not the worker) complete a qualifying move to be together. If the child and the worker move at the same time, the QAD is the date they both arrive. If the child’s move precedes the worker’s move, the QAD is the date that the worker arrived. If the child’s move follows the worker’s move, the QAD is the date the child arrived.</td>
</tr>
<tr>
<td>Qualifying Move</td>
<td>A move due to economic necessity— 1. from one residence to another residence; and 2. from one school district to another school district, except— • in the case of a State that is comprised of a single school district, wherein a qualifying move is from one administrative area to another within such district; or • in the case of a school district of more than 15,000 square miles, wherein a qualifying move is a distance of 20 miles or more to a temporary residence.</td>
</tr>
<tr>
<td>Qualifying Work</td>
<td>The temporary or seasonal employment, or personal subsistence in agricultural work or fishing work.</td>
</tr>
<tr>
<td>Quality Control Plan</td>
<td>A document that establishes a quality control process for ensuring the integrity and accuracy of the identification and recruitment policies and procedures of a district-level Migrant Education Program.</td>
</tr>
<tr>
<td>Records Manager</td>
<td>The district-level staff member assigned the responsibility of collecting and reporting all pertinent migrant child data in a timely basis and transmitting such information to the MEO through MIS2000.</td>
</tr>
<tr>
<td>Word</td>
<td>Definition</td>
</tr>
<tr>
<td>-----------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Recent History of Moves</td>
<td>At least 2 moves that resulted in temporary or seasonal agricultural or fishing employment or personal subsistence (i.e. qualifying work) within the preceding 36 months of the recruiter’s interview.</td>
</tr>
</tbody>
</table>
| Recruiter                   | The district-level staff member assigned to identify and recruit families of migratory children. This person usually conducts the parent interviews and completes the COEs.  
A recruiter’s primary responsibilities are:  
1. to obtain information provided by parents, guardians, and others regarding the child’s eligibility for the MEP;  
2. to make initial determinations of eligibility; and  
3. to accurately and clearly record information that establishes that a child is eligible for the MEP on a COE or ARC form. |                                                                         |
<p>| Recruitment                 | The process of making contact with families of migratory children, explaining the MEP, securing the necessary information to make a determination that the child is eligible for the MEP, and recording the basis of the child’s eligibility on a COE. | NRG, Chapter III, A1      |
| Referred Service            | Referred services are those provided to a migratory child by another agency through a referral by the migrant program (or migrant funded staff).                                                        |                                                                         |
| Rejected COE                | A COE is marked Rejected if more information is needed, this could be due to missing or inaccurate information on the COE. Rejected COEs are editable by the records manager in COE Draft View.                 |                                                                         |
| Residence                   | A place where one lives and not just visits. In certain circumstances, boats, vehicles, tents, trailers, etc., may serve as a residence.                                                                     | NRG, Chapter II, D2       |
| Residency Date              | The date the child establishes or reestablishes residency in the recruiter’s district after the most recent qualifying move.                                                                               |                                                                         |
| Seasonal Employment         | Employment that occurs only during a certain period of the year because of the cycles of nature and that, by its nature, may not be continuous or carried on throughout the year.                                      | 34 C.F.R. §200.81(o)      |
| Service Delivery Plan (SDP) | Guiding document for the implementation of the Alaska Migrant Education Program. It identifies performance targets, measurable program outcomes, service delivery, and evaluation.                                              |                                                                         |
| Snap 6                      | Also called the Eligibility Status List. This report is a list by COE ID of the district’s COEs that the records manager has entered into MIS2000 for the year, but are not active (i.e. not approved by the MEO). This report tells the records manager the COEs' current status: incomplete, new/rejected, reviewed/verified, or canceled. Statuses are reported as I, N, V, C respectively. Please note all canceled COEs will be deleted from MIS2000 soon after the eligibility determination has been made. |                                                                         |
| Snap 7                      | This report lists the district’s active COEs and the migrant eligible children on each of them for the current school year. Children must be certified on a COE for the current school year to be on this report. Children recertified through a school history line/ARC will not be included. |                                                                         |
| Snap 12                     | A list of all migratory children who are currently eligible (recertified for the current school year) in the record manager’s school district. This report now also includes Priority for Services (PFS) status. |                                                                         |</p>

<tbody>
<tr>
<td>Soon After the Move</td>
<td>Within 60 days after the qualifying move.</td>
<td>NRG, Chapter II, C5</td>
</tr>
<tr>
<td>Spouse</td>
<td>The husband or wife of the migratory child.</td>
<td></td>
</tr>
<tr>
<td>State Education Agency</td>
<td>The government agency responsible for statewide education program supervision and administration. The legal entity in each state recognized by the U.S. Department of Education as being the governing agency eligible to receive migrant funds and administer the MEP.</td>
<td></td>
</tr>
<tr>
<td>Summer Enrollment and Withdrawal</td>
<td>This report is provided to districts who run a migrant summer program and is very similar to the Mass Withdrawal Report. Supplemental Services received in a migrant funded summer program are recorded on this report and returned to the MEO by September 30th.</td>
<td></td>
</tr>
<tr>
<td>Supplement, not Supplant</td>
<td>&quot;Supplement, not supplant&quot; is the phrase used to describe the requirement that MEP funds may be used only to supplement the level of funds that would, in the absence of MEP funds, be made available from non-Federal sources for the education of children participating in MEP projects. SEAs and LEAs may not use MEP funds to supplant (i.e., replace) non-Federal funds.</td>
<td>NRG, Chapter X, A1</td>
</tr>
</tbody>
</table>
| Supplemental Program Services | Services provided to eligible migratory children. The supplemental program services are those educational or educationally related activities that:  
  - directly benefit a migratory child;  
  - address a need of a migratory child consistent with the state’s comprehensive needs assessment and service delivery plan;  
  - are evidence-based or, in the case of support services, are a generally accepted practice; and  
  - are designed to enable the program to meet its measurable outcomes, and contribute to the achievement of the state’s performance targets. |                          |
| Support Service               | Services to provide support and advocacy to migratory children.                                                                                                                                         |                          |
| Technical Assistance         | Individual identification and recruitment process and procedure training for MEP staff at each school district as needed. Need is determined by the district and DEED. Technical assistance is provided by the assigned ID&R specialist or migrant program manager. This assistance can be provided on site or through virtual means. |                          |
| Temporary Employment         | Employment that is conducted for a limited time frame (usually only a few months, but no longer than 12 months).                                                                                         | 34 C.F.R. §200.81(p)     |
| Temporary Residence          | A place where one lives and not just visits. It is expected that an individual would only live in temporary housing for a limited period of time, usually a few months, but no longer than 12 months.                      |                          |
| To Join/Precede Worker       | When the child and the migratory worker make the qualifying move listed in question 1 of the Qualifying Moves & Works Section of the COE separately. The child’s move may either precede or follow the worker’s move. The date of the child’s move must be within 12 months of the date the migratory worker’s move. The QAD will be the date the child and the worker complete the move to be together. |                          |

124 Alaska Department of Education & Early Development – Migrant Education Office
Supplemental Services for Non-Consolidating Districts

Instructional

**L1 – Literacy Event with Instructional Service by Teacher:** Book(s) provided through the Migrant Literacy Grant program or other sources AND participation in related literacy instruction/activities led by a certified teacher. Certified teacher must be paid using migrant funds.

**L2 – Literacy Event with Instructional Service by Non-Certificated:** Book(s) provided through the Migrant Literacy Grant program or other sources AND participation in related literacy instruction/activities led by an individual who is not certified. The non-certificated individual must be paid using migrant funds.

**B – Reading by Teacher:** Reading instruction provided by a certified teacher.

**C – Reading by Non-Certificated:** Reading instructional support provided by an individual who is not certificated.

**D – Math by Teacher:** Math instruction provided by a certified teacher.

**E – Math by Non-Certificated:** Math instructional support provided by an individual who is not certificated.

**F – Language Arts by Teacher:** Language Arts instruction provided by a certified teacher.

**G – Language Arts by Non-Certificated:** Language Arts instructional support provided by an individual who is not certificated.

**H – Science:** Science instructional support provided by a certified teacher or an individual who is not certificated.

**R – High School Credit Accrual:** Instruction in courses that accrue credits needed for high school graduation provided by a certified teacher for students on a regular or systematic basis, usually for a predetermined period of time. This includes correspondence courses taken by a student under the supervision of a certified teacher. Please also provide an SP code for the corresponding content area in which the service was provided for the students reported as receiving High School Credit Accrual.

**S – Social Studies:** Social Studies instructional support provided by a certified teacher or an individual who is not certificated.

**T – Other Academic Content or Study Skills Support:** Study skills, instructional support in other academic content areas such as art and music.

**U – Career and Technical Education:** MEP-funded instructional support in career and technical education.

**V – Preschool:** Eligible migratory children attending a MEP-funded preschool.

Support

**A – Literacy Support:** Book(s) provided through the Migrant Literacy Grant program.

**W – Counseling:** Services to help a student better identify and enhance his or her educational, personal, or occupational potential; relate his or her abilities, emotions, and aptitudes to educational and career opportunities; utilize his or her abilities in formulating realistic plans; and achieve satisfying personal and social development. These activities take place between one or more counselors and one or more students as counselees, between students and students, and between counselors and other staff members. The services can also help the child address life problems or personal crisis that result from the culture of migrancy. These counseling services are outside of the regular counseling provided to all district students.

**X1 – Educational Support Resources:** Support services to provide educational resources to migratory children. Examples include books for the home, school supplies, and technology support.

**X2 – Social Work, Outreach or Advocacy, Nutrition, Health/Safety Education, and Family Support Services:** Support services other than counseling and educational resources provided to migratory children funded by the Migrant Education Program. Examples include health, nutrition, transportation, necessary winter clothing, and related social services.

**P – Academic Success Coaching:** Support services to provide academic success coaching, to migratory middle and high school students, which could include progress monitoring and assistance when a student is at risk of receiving a D or F in an ELA or math course.

Continuation of Services

**J – Continuation of Services:** Students who received MEP-funded instructional or support services under the continuation of services authority Section 1304(e). Please also provide an SP code for the corresponding instructional and/or support services provided under continuation of services.
Supplemental Services for Consolidating Districts

Instructional

**L1 – Literacy Event with Instructional Service by Teacher:** Book(s) provided through the Migrant Literacy Grant program or other sources AND participation in related literacy instruction/activities led by a certified teacher. Certified teacher must be paid using migrant funds.

**L2 – Literacy Event with Instructional Service by Non-Certificated:** Book(s) provided through the Migrant Literacy Grant program or other sources AND participation in related literacy instruction/activities led by an individual who is not certified. The non-certificated individual must be paid using migrant funds.

**B – Reading by Teacher:** Reading instruction provided by a certified teacher.

**C – Reading by Non-Certificated:** Reading instructional support provided by an individual who is not certificated.

**D – Math by Teacher:** Math instruction provided by a certified teacher.

**E – Math by Non-Certificated:** Math instructional support provided by an individual who is not certificated.

**F – Language Arts by Teacher:** Language Arts instruction provided by a certified teacher.

**G – Language Arts by Non-Certificated:** Language Arts instructional support provided by an individual who is not certificated.

**H – Science:** Science instructional support provided by a certified teacher or an individual who is not certificated.

**K – Targeted Instructional Service in a Schoolwide Program where Migrant Education (Title I-C) Funds were Consolidated:** Instructional service must be directly funded with MEP-funds and targeted to identified MEP students only. These services must be in addition to instructional support migratory children and youth receive as part of the schoolwide plan. Services provided with schoolwide consolidated funds cannot be reported.

**R – High School Credit Accrual:** Instruction in courses that accrue credits needed for high school graduation provided by a certified teacher for students on a regular or systematic basis, usually for a predetermined period of time. This includes correspondence courses taken by a student under the supervision of a certified teacher. Please also provide an SP code for the corresponding content area in which the service was provided for the students reported receiving High School Credit Accrual.

**S – Social Studies:** Social Studies instructional support provided by a certified teacher or an individual who is not certificated.

**T – Other Academic Content or Study Skills Support:** Study skills, instructional support in other academic content areas such as art and music.

**U – Career and Technical Education:** MEP-funded instructional support in career and technical education.

**V – Preschool:** Eligible migratory children attending a MEP-funded preschool.

Support

**A – Literacy Support:** Book(s) provided through the Migrant Literacy Grant program.

**M – Targeted Support Service in a Schoolwide program where Migrant Education (Title I-C) funds were consolidated:** Support service must be directly funded with MEP-funds and targeted to identified MEP students only. These services must be in addition to support services migratory children and youth receive as part of the schoolwide plan. Services provided with schoolwide consolidated funds cannot be reported.

**W – Counseling:** Services to help a student better identify and enhance his or her educational, personal, or occupational potential; relate his or her abilities, emotions, and aptitudes to educational and career opportunities; utilize his or her abilities in formulating realistic plans; and achieve satisfying personal and social development. These activities take place between one or more counselors and one or more students as counselees, between students and students, and between counselors and other staff members. The services can also help the child address life problems or personal crisis that result from the culture of migrancy. These counseling services are outside of the regular counseling provided to all district students.

**X1 – Educational Support Resources:** Support services to provide educational resources to migratory children. Examples include books for the home, school supplies, and technology support.

**X2 – Social Work, Outreach or Advocacy, Nutrition, Health/Safety Education, and Family Support Services:** Support services other than counseling and educational resources provided to migratory children funded by the Migrant Education Program. Examples include health, nutrition, transportation, necessary winter clothing, and related social services.

**P – Academic Success Coaching:** Support services to provide academic success coaching, to migratory middle and high school students, which could include progress monitoring and assistance when a student is at risk of receiving a D or F in an ELA or math course.

Continuation of Services

**J – Continuation of Services:** Students who received MEP-funded instructional or support services under the continuation of services authority Section 1304(e). Please also provide an SP code for the corresponding instructional and/or support services provided under continuation of services. See page 18 for more information on continuation of services.

**Alaska School Districts**

Currently, 41 of Alaska’s 54 school districts operate a Migrant Education Program.

### Districts Operating Migrant Education Program

- Alaska Gateway School District
- Aleutians East School District
- Anchorage School District
- Bering Strait School District
- Bristol Bay School District
- Copper River School District
- Cordova School District
- Craig School District
- Delta Greely School District
- Dillingham School District
- Fairbanks School District
- Galena School District
- Haines School District
- Hydaburg School District
- Iditarod School District
- Kake School District
- Kashunamuit School District
- Kenai School District
- Klawock School District
- Kodiak School District
- Kuspuk School District
- Lake & Peninsula School District
- Lower Kuskokwim School District
- Lower Yukon School District
- Mat-Su School District
- Mt. Edgecumbe School District
- Nenana School District
- Nome School District
- North Slope School District
- Northwest Arctic School District
- Petersburg School District
- Saint Mary’s School District
- Sitka School District
- Southeast Island School District
- Southwest Region School District
- Tanana School District
- Valdez School District
- Wrangell School District
- Yakutat School District
- Yukon-Koyukuk School District
- Yupiit School District

### Districts Not Operating a Migrant Education Program

- Aleutian Region School District
- Annette Island School District
- Chatham School District
- Chugach School District
- Denali School District
- Hoonah School District
- Juneau School District
- Ketchikan School District
- Pelican School District
- Pribilof School District
- Skagway School District
- Unalaska School District
- Yukon Flats School District
## School District Boundaries

### Districts with an Area Less than 15,000 Square Miles

In all school districts which have an area less than 15,000 square miles, qualifying moves must cross school district boundaries.

</tbody>
</table>

Further documentation for qualifying moves in districts with an area more than 15,000 square miles must be done during the interview process. **A map is required to document moves of 20 miles or more.** The map must have a legend/scale for determining distance and must be **attached to the original COE** and be kept on file at the district office.

Districts must adopt necessary procedures to ensure the validity of the qualifying move. On the COE, the specific geographic location of the most recent qualifying move must be listed to determine eligibility.
Errors and Submission Checks in MIS2000
The MEO has implemented a series of pop-up messages throughout the Alaska Migrant Web System in an attempt to avoid common errors with data entry and to ensure the fidelity of historical data. This ensures that information entered and uploaded to the State is complete and correct. Various pop-up error, warning, and reminder messages are described on the following pages. For additional questions regarding pop-up messages, please contact the MEO. MEO Contact Information can be found on page 150.

ARC Errors, Submission Checks, and Warnings

**Web System ARC**

<table>
<thead>
<tr>
<th>Error Messages</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Child has EOE’d Error “The QADate on this COE is older than three years.”</td>
<td>ARCs can only be submitted for children who have not reached their End of Eligibility Date (EOE), based on the approved COE that is being recertified. If the QAD is more than three years from today’s date, an ARC cannot be completed and an error will occur.</td>
</tr>
<tr>
<td>Child has Graduated Error “Child has a graduation date.”</td>
<td>If a child is marked in MIS2000 as having graduated in a previous school year, they cannot be recertified on an ARC. If a recruiter attempts to certify a child that has already graduated, as is noted in MIS2000, an error will occur.</td>
</tr>
<tr>
<td>Child has Terminated Error “Child has terminated.”</td>
<td>Only active and eligible children are eligible to be recertified using an ARC. If an ARC is created in the Web System for a child who has permanently termed out of the migrant program (i.e. graduated, deceased, aged out), as is noted in MIS2000, an error will occur.</td>
</tr>
<tr>
<td>Child is Over 20 without an IEP Error “Child is over 20 without an IEP.”</td>
<td>All children listed on an ARC must be under the age of 20 at the time the ARC is submitted, unless an active IEP is on file with the district and documented in MIS2000. If a child is 20 years or older at the time of recertification and there is no IEP on file, based on the data in MIS2000, an error will occur.</td>
</tr>
<tr>
<td>Child is Over 22 Error “Child is over 22.”</td>
<td>All children listed on an ARC must be under the age of 22 at the time the ARC is submitted. If a child is over the age of 22 at the time of ARC submission through the Web System an error will occur.</td>
</tr>
<tr>
<td>COE not Approved Error “The COE has not been approved.”</td>
<td>ARCs can only be submitted for children listed on an approved COE for the recruiter’s district. If a recruiter tries to create an ARC based on a COE created by another district an error will occur.</td>
</tr>
<tr>
<td>Facility Name Incompatible with Grades 00 or OY Error “Child must have a school district with grades 00 or OY.”</td>
<td>Children listed in grades 00 or OY must use the generic facility name for a particular school district. The SCHOOL NAME FIELD must be completed with the recruiter’s school district name. Any other facility name will cause an error.</td>
</tr>
<tr>
<td>Facility Not Authorized Error “Child is not in a school you are authorized for.”</td>
<td>ARCs can only be completed by recruitment staff using a specified list of facility names. SCHOOL (FACILITY) NAMES must be chosen based on the list of approved facilities for each district. These lists are customized for each district. Unapproved facility names being used on enrollments will result in an error.</td>
</tr>
<tr>
<td>Future Enroll Date Error “Child must have a non-future enroll date with grades PS-12.”</td>
<td>Children cannot be certified on any enrollment (COE or ARC) with a future enrollment date. The ENROLL DATE FIELD requires a date to be on or after 8/1 of the given school year and on or</td>
</tr>
<tr>
<td>Error Messages</td>
<td>Description</td>
</tr>
<tr>
<td>---------------------------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Grades 00 or OY cannot have an Enroll Date Error</strong></td>
<td>&quot;Child cannot have an enroll date in grades 00 or OY.&quot;</td>
</tr>
<tr>
<td></td>
<td><strong>ENROLL DATES</strong> cannot be submitted on ARCs for children who are not attending any school – these are children listed in grades 00 or OY. These children will have no enrollment date, as they are not currently enrolled in any school. If an enrollment date is submitted for children listed in grades 00 or OY an error will occur.</td>
</tr>
<tr>
<td><strong>Missing Enroll Date (Children Not in Grades 00 or OY) Error</strong></td>
<td>&quot;Enroll Date is required on this enrollment.&quot;</td>
</tr>
<tr>
<td></td>
<td><strong>ENROLL DATES</strong> are required on all enrollments (COE or ARC) created in the Web System, unless an enrollment is submitted for a child in grade 00 (too young to be in school) or OY (dropped out of school). Any other grade will require an enroll date. If no enroll date is submitted, when required, an error will occur.</td>
</tr>
<tr>
<td><strong>Missing Facility Error</strong></td>
<td>&quot;Facility must be specified.&quot;</td>
</tr>
<tr>
<td></td>
<td>All enrollments created in the Web System (COE or ARC) require a facility to be chosen from the <strong>SCHOOL NAME</strong> drop-down list. If a facility is not chosen for an enrollment an error will occur.</td>
</tr>
<tr>
<td><strong>Missing Grade Error</strong></td>
<td>&quot;Grade must be specified.&quot;</td>
</tr>
<tr>
<td></td>
<td>All enrollments created in the Web System (COE or ARC) must include a <strong>GRADE</strong>. An error will occur if an enrollment is submitted without any grade specified.</td>
</tr>
<tr>
<td><strong>No Student to Recertify Error</strong></td>
<td>&quot;No students have been selected to recertify.&quot;</td>
</tr>
<tr>
<td></td>
<td>At least one child listed on the ARC in the Web System, must have the <strong>RECERTIFY</strong> field showing “Y” for yes. If all children listed on the recertification screen have the <strong>RECERTIFY</strong> field set to “N” for no an error will occur.</td>
</tr>
<tr>
<td><strong>Unacceptable Grade Error</strong></td>
<td>&quot;Child cannot have grade UG.&quot;</td>
</tr>
<tr>
<td></td>
<td>Children cannot be submitted on any enrollment (COE or ARC) with grade UG. The only acceptable grades are those outlined on page 127. If grade UG is submitted an error will occur.</td>
</tr>
<tr>
<td><strong>Certification Checkbox Error</strong></td>
<td>&quot;Certification checkbox not checked.&quot;</td>
</tr>
<tr>
<td></td>
<td>Users must check the Eligibility Data Certification boxes prior to submitting or approving an ARC. If the box is not checked, an error will occur.</td>
</tr>
</tbody>
</table>
COE Errors, Submission Checks, and Warnings

**Web System COE Alerts**

When entering COEs in the Web System, a series of messages may appear if information is entered incorrectly and/or when a user attempts to submit a COE. The systems will not allow incorrect COE information to be entered/submitted. This ensures that information entered and uploaded to the State is complete and accurate.

<table>
<thead>
<tr>
<th>Error and Warning Messages</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Data Locked Error**      | The error message, will appear for one of two reasons:  
1. When creating a new COE on the wrong school year, usually the prior school year.  
2. When trying to enter data on a locked COE. Changes to approved COEs made after December 31 of each year require districts to notify the MEO. This is to protect information from being accidentally changed. Additionally, COEs from previous years cannot be changed because they are considered historical information. |
<p>| <strong>New Enrollment Error</strong>    | This error message will appear when districts try to enter child data without clicking on the <strong>NEW ENROLLMENT</strong> button first. |
| <strong>Student Graduated Error</strong> | District staff cannot modify migratory children who have graduated from high school. This includes updating name, birthdate, demographic information, creating a new school history line, or adding the child to a COE. [Contact the MEO](page 150) if it is believed that a child’s birth date was entered incorrectly or if there is some other reason that the child should be editable by the district. |
| <strong>Child has Reached Age 22 Error</strong> | District staff cannot modify migratory children who have reached age 22. This includes updating name, birthdate, demographic information, creating a new school history line, or adding the child to a COE. [Contact the MEO](page 150) if it is believed that a child’s birth date was entered incorrectly or if there is some other reason that the child should be editable by the district. |
| <strong>AK State ID Already in Use Error</strong> | An error message is received when districts enter an <strong>ALASKA STUDENT ID (AKSID)</strong> for a child and the AKSID is already in use in MIS2000. |
| <strong>No AK Student ID, But Enrolled in Public School Error</strong> | All children enrolled in a public school in the State of Alaska (including statewide correspondence schools) are required to have an <strong>AKSID</strong> entered into MIS2000. COEs cannot be submitted from <strong>COE DRAFT</strong> view without it. |
| <strong>Child Missing First or Last Name Error</strong> | Each child listed on the COE must have both a <strong>FIRST</strong> and <strong>LAST NAME</strong>. If one of these names are missing the COE cannot be submitted to the next level of approval. |
| <strong>Date of Birth is After the QAD Error</strong> | The child has a date of birth that is after the QAD. A child must have been born prior to the QAD in order to be listed in the Child Data Section of the COE. |
| <strong>Missing Birthdate Verification Code Error</strong> | The <strong>VER (BIRTH DATE VERIFICATION) FIELD</strong> must be completed for each child on the COE. This field cannot be blank. |
| <strong>Missing Sex (Gender) Error</strong> | The <strong>SEX (GENDER) FIELD</strong> must be specified for each child listed on the COE. This field cannot be blank. |
| <strong>Missing Birthdate Error</strong> | Each child listed on the COE must have the <strong>BIRTH DATE FIELD</strong> complete, and it must be in mm/dd/yyyy format. |</p>
<table>
<thead>
<tr>

<tr>
<td>Error and Warning Messages</td>
<td>Description</td>
</tr>
<tr>
<td>-----------------------------</td>
<td>-------------</td>
</tr>
<tr>
<td><strong>QAD and RES Date are the Same Warning</strong>&lt;br&gt;“QAD and RES dates are the same. Please indicate the length of move in comments.”</td>
<td>The QAD and Residency Date can be the same on the COE. However, when this occurs a comment is required to describe the length of engagement in the migratory work as listed in questions 4 and 5 of the Qualifying Moves &amp; Work Section. This pop-up will not prevent users from submitting the COE to the next level of approval. However, if this comment is not in the Comments Section, the MEO Eligibility Specialist will reject the COE back to the records manager.</td>
</tr>
<tr>
<td><strong>Residency Date Reminder</strong>&lt;br&gt;“The RES date is more than 30 days after the QAD Date. Please make a note in the Comments box explaining the duration of the migratory move (start and end date) and why the RES date is much later than the QAD date.”</td>
<td>When entering data in the Qualifying Data Section of the COE, this pop-up message may appear if data was entered incorrectly or the data entered needs more clarification. The system does not allow for the Residency date to be more than 30 days after the QAD date. This warning does not prevent the COE from being submitted to the next level of approval. If the Residency date entered is correct and is 30 days or more after the QAD, a comment must be provided in the Comments Section.</td>
</tr>
<tr>
<td><strong>Less than Seven Nights on COE Warning</strong>&lt;br&gt;“There are less than seven nights listed on the COE. Enter a comment detailing at least seven nights of engagement in qualifying work. Ensure that all additional qualifying moves accounted for. Number of nights is currently X.”</td>
<td>When there are less than seven nights listed on the COE (including Additional Qualifying Moves) a warning message will be displayed. When this occurs a comment is required to describe the length of engagement in the migratory work as listed in numbers 4 and 5 of the Qualifying Moves &amp; Work Section. This pop-up will not prevent users from submitting the COE to the next level of approval. However, if this comment is not in the Comments Section, the MEO Eligibility Specialist will reject the COE back to the records manager.</td>
</tr>
<tr>
<td><strong>Pole Comment Reminder</strong>&lt;br&gt;“Comment is needed verifying pole was not used for Sport or Recreation.”</td>
<td>When users select <strong>POLE</strong> for the gear listed in the Qualifying Data Section, a warning will occur. This will not prevent the user from submitting the COE. The message serves as a reminder for a required comment regarding the use of the pole.</td>
</tr>
<tr>
<td><strong>Additional Qualifying Move Date Error</strong>&lt;br&gt;“Additional move dates must be before the QAD.”</td>
<td>The system does not allow the <strong>ADDITIONAL MOVE DATES</strong> to be after the QAD date.</td>

Technical Assistance Visit Preparation Checklist

Each school year, the MEO travels to approximately ten migrant school districts to conduct technical assistance visits with migrant staff. During these visits, a staff member from the MEO will conduct a thorough review of the district’s identification and recruitment procedures, migratory child files, and compliance with eligibility requirements.

- Files organized according to recommended Alaska MEO procedures.
- Migrant reports and lists readily available and filed for easy access.
- Identification & Recruitment materials are up-to-date and readily available.
- Knowledgeable about the supplemental services provided to migratory children.
- Knowledgeable about the mass withdrawal and summer withdrawal process, including reporting.
- Documented identification and recruitment procedures.
- Written Identification and Recruitment Plan.
- Written procedures for collection of migrant parent and staff surveys.
- Written migrant staff job descriptions.
- Written Quality Control Plan on file.
- Maps of district boundaries and common fishing areas readily available.
- Access to the Alaska Migrant Web System.
- Knowledgeable about the Alaska Migrant Web System.

Sample Migrant Work Questionnaire #1

Please take time to complete this quick survey. All of your answers will be kept confidential. The information you provide may help ______ School District qualify for Federal funding to provide more education services to our students.

This program serves children of migratory families who participate in fishing, logging, and/or agricultural industries.

1. Within the past three years, has anyone in your family engaged in any of the following activities? If so, please check the appropriate categories.
   □ Commercial Fishing (cannery work, fishing boat, deckhand, etc.)
   □ Subsistence Fishing (catching fish for personal use, fish camps, etc.)
   □ Logging (cultivation or harvesting of trees)
   □ Agriculture, including berry picking (producing or processing crops, dairy products, livestock, etc.)

   If you have not checked any of the above, please go no further and discard this survey.
   If you have checked one of the above, please complete the rest of this survey.

2. Who was/were the individual(s) that engaged in the activity checked above?

<table>
<thead>
<tr>
<th>Name</th>
<th>Relationship to Children (parent, guardian, grandparent, sibling, self, etc.)</th>
</tr>

Sample Migrant Work Questionnaire #2

Dear Parents/Guardians:

In order to better serve your children, _____ School District would like to identify students who may qualify to receive additional educational services and/or free lunch. The information provided below will be kept confidential. Please answer the following questions and return this survey to your child(ren)’s school or the local Migrant Education Program located at ______. Or, if you prefer, for more information call your district’s Migrant Education Program at ______.

1. Have your children (from birth up to 20 without a high school diploma) made overnight trips for commercial fishing, subsistence fishing, logging, or agricultural work (including subsistence berry picking) within the past three years?
   - [ ] Yes  [ ] No

2. Have you or your children recently (within the last three years) moved to the [INSERT SCHOOL DISTRICT NAME] or [INSERT CITY/TOWN/VILLAGE NAME]?
   - [ ] Yes  [ ] No

3. Which of the following activities, if any, have you, your children, or any member of your household participated in within the past three years?
   - [ ] Commercial fishing
   - [ ] Cannery/fish processing work
   - [ ] Subsistence fishing (fish camp, personal use – including preparing and processing for home pack)
   - [ ] Logging (commercial)
   - [ ] Agricultural work (including subsistence berry picking)
   - [ ] None of the above, nobody in my household has done any of the above activities

4. If “Yes” has been selected in either question 1 or 2, please list the name(s) of the child(ren) living in the household:

<table>
<thead>
<tr>
<th>First Name</th>
<th>Last Name</th>
<th>School (if any)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>

<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

5. Please provide the following information. A migrant recruiter may contact you to find out if your children are eligible for the Migrant Education Program.

   Parent/Guardian Name: ________________________________
   Home Phone Number: ________________________________
   Cell Phone Number: ________________________________
   Work Phone Number: ________________________________
   Address: ________________________________
Fishing/Berry Picking Calendar

2021 Summer Fishing/Berry Picking Calendar for the _____Migrant Education Program

Keep this calendar on your refrigerator until your children have finished fishing/berry picking for the season. Please mark all the nights your children spent away from home on your fishing or berry picking trips. Please return this to your children’s school or the local Migrant Education Program located at_____.

If you have any question or concerns please contact the _____ School District Migrant Education Program at_____.

Sample Letters to Parents/Guardians

MEP Notification of Eligibility Letter
Dear Parent/Guardian:

A representative from the District Name Migrant Education Program (MEP) recently visited with you and/or your family to determine if the children listed below may be eligible for the Migrant Education Program. This letter is to inform you that, based on information that the Alaska Department of Education & Early Development reviewed, insert child(ren)’s name(s) has been approved for the District Name MEP. Your children’s eligibility for the MEP will end on Insert EOE Date.

As a participant in the MEP, your children are now eligible to receive Insert List of Supplemental Services Available through the MEP. Additionally, your child(ren) will receive free meal benefits. These benefits and services will be available to your child(ren) until Insert EOE Date. It is important to note that a recruiter from our district will contact you, annually to get updated information to extend this eligibility, if possible.

Attached you will find a copy of the information submitted and approved for the children. Please be aware that the State Migrant Education Office periodically will call a small, random sample of families. These phone calls are to help ensure that information for the program has been documented accurately.

If you have questions or need assistance for your child(ren), contact Insert Migrant Contact Name at Phone Number.

Sincerely,

District Representative Name, Title

MEP Notification of Ineligibility Letter
Dear Parent/Guardian:

A representative from the District Name Migrant Education Program (MEP) recently visited with you and/or your family to determine if insert child(ren)’s name(s) may be eligible for the MEP. Based on a review of the forms completed, it was determined that insert child(ren)’s name(s) is ineligible for services in the MEP.

Thank you for allowing the representative the opportunity to visit you and/or your family and to review your Migrant Education Program eligibility information. If you have questions or concerns, contact Insert Migrant Contact Name at Phone Number.

Sincerely,

District Representative Name, Title

End of Eligibility Notification Letter
Dear Parent/Guardian:

This letter is to inform you that your child(ren), insert child(ren)’s name(s), is no longer eligible for District Name Migrant Education Program funded support services in your school or home. Your child(ren)’s last qualifying move was on Insert QAD, and their eligibility to be included in the program ended on Insert EOE Date.

The Migrant Education Program can only serve children who made qualifying move(s) within a three-year period. Our records indicate that your child(ren) has not made a qualifying move within the past three years. Any services for your child(ren) provided through the Migrant Education Program will stop at the end of the current semester. Additionally, if your child(ren) is enrolled in school, the eligibility to receive free meal benefits will continue for remainder of the regular school year.

If you have questions, or would like to be interviewed for a recent move, contact Insert Migrant Contact Name at Phone Number.

Sincerely,

District Representative Name, Title
Sample Continuation of Services Approval Form
This form must be submitted to the Migrant Coordinator for approval prior to serving a child that met the end of their migratory eligibility (EOE’d).

Student Information

Student Name: ___________________________ Alaska Student ID: ___________________________
Birth Date: ___________________________ Grade: ___________________________
End of Eligibility (EOE) Date: ___________________________

COS Proposal

1. Check the box that applies to this request for Continuation of Services:
   - [ ] A child’s eligibility ends during the school term and the district provides services until the end of the term (fall, spring, summer)
   - [ ] A child’s eligibility ends and the district provides services for an additional school year because comparable services are not available through other programs.
   - [ ] A district continues to serve students who were eligible for services in secondary school through credit accrual programs until they graduate.

2. List of Title I-C funded service(s) to be continued:

3. Explanation of why the educational service(s) listed above should be continued:

4. Explanation of the process used to determine that the MEP is the only resource available to meet this student’s need for the continuation of services(s) listed above:

Alaska Schools & Education Map from the Alaska Community Database Online (CDO)

This map can be a useful tool during recruitment. Among its possible uses, it can generate maps to help determine whether or not moves made by potential migratory children and workers meet distance requirements. Below are instructions on how to find and use this resource.

Instructions for Alaska Schools & Education Map

In order to use this map, the user will need to use Google Chrome or Mozilla Firefox as the internet browser.

The Alaska Schools & Education Map is part of the State of Alaska’s Community Database Online (dcra-cdo-ddced.opendata.arcgis.com), hosted by the Division of Community and Regional Affairs, (commerce.alaska.gov/web/dcra) within the Department of Commerce (commerce.alaska.gov). This particular map will show all of Alaska’s public school district boundaries, as well as the communities & schools within them.

By clicking on the link that leads directly to the Alaska Schools & Education Map, users can simply zoom in on the school district to start exploring. To measure distances between places, follow these steps:

1. Navigate to/zoom in on the desired part of the map.
2. Click on the three lined “hamburger” menu button in the upper-right corner of the map.

![Find Schools by Location]

3. In the window that opens, click on the “Measurement” tool on the right-hand side of the window.

![Measurement]

4. This will open up a “Measurement” sidebar on the right-hand side of the map; click on the “Distance” icon.
5. Now the user can start measuring distance. Click once at the desired starting point (this will drop a green “pin”). Move the cursor to the next desired spot to drop a pin (a blue line should be following the cursor), and click once to drop another pin. Do this as many times as necessary to get to the desired end location – **double click on the end location to stop drawing the distance line.**

6. The distance will be calculated in the “Measurement” sidebar to the right of the map, under “Measurement Result.”

![Measurement Result](image)

64.3 Miles

7. The user can clear the pins/distance lines at any time by clicking on the “Clear” button (if a printed a map with the pins/distance line is desired, do not clear them until after printing/downloading the map – instructions below).

![Clear Button](image)

64.3 Miles
8. To print a map, click on the hamburger menu in the upper-right corner of the map again. Click on the “Print” icon when the new window opens. **Be sure to zoom out so that the entire district’s boundaries are shown.**

9. This will open a “Print” sidebar to the right of the map where the user can enter a map title, choose a page layout, and select a file format. Click the “Print” button when done to create a print file that will appear in the “Print” sidebar.

10. Open the map by clicking on the map name in the “Print” sidebar. A map will open in a new tab in the browser.

11. When the map opens in a new tab, the user can download it by clicking on the “download” icon, and/or print it, by clicking on the “print” icon; both should be in the upper-right corner of the map.

12. Repeat these steps to create any additional maps needed.

The [Community Database Online](dcced.maps.arcgis.com/apps/MapSeries/index.html?appid=be78977ace3c4d708ba80c5bd54b717a) is a powerful tool that can do much more than measure distances on a map. To learn more about this resource visit the [“How to Use the Alaska DCRA Data Portal” page](dcced.maps.arcgis.com/apps/MapSeries/index.html?appid=be78977ace3c4d708ba80c5bd54b717a).
