- The statute further sets out that the report must describe efforts of the board to develop, maintain, and continuously improve a comprehensive quality public education system, as provided for under the bylaws of the board.
- The legislature later added intent language that requested inclusion of the most recent National Assessment of Educational Progress (NAEP) data in the written report.
- The first presentation to the legislature took place in January 2012.
- The draft report can be found under Agenda Item 3. The final report will be presented to the board for approval during its January 2022 meeting.
