FINGERPRINTING INSTRUCTIONS

The Alaska Department of Education & Early Development, Teacher Certification Office, in accordance with 4AAC 12.010(B)(4) and AS14.20.020(F) requires one completed fingerprint card and background check fees for Initial, Professional, Master, Regular, and Student Teaching applicants who have not yet been fingerprinted under our statutes. Alaska also requires one completed fingerprint card and background check fees from renewal applicants not employed by an Alaska public school district in a position that requires Alaska certification at the time of renewal. The fingerprint card is used to generate a criminal history report by the Alaska Department of Public Safety (DPS) and the Federal Bureau of Investigation (FBI).

Criminal History Reports

The criminal history report will be used as one part of the background check required for Alaska certification. The Teacher Certification Office cannot accept criminal history reports completed by other entities, including other states and countries. For the purpose of certification in Alaska, criminal history reports must be generated by the Alaska Department of Public Safety (DPS) and the Federal Bureau of Investigation (FBI).

If there is an error on your criminal history report, you may request the Alaska Department of Public Safety (DPS) correct the information. To begin the correction process, you must complete and submit a Request to Correct Criminal Justice Information form. If the information believed to be inaccurate or incomplete in your criminal history was, or will be used to deny a right or privilege, the Department of Public Safety (DPS) has 5 days to respond to the request or to forward it to the agency responsible for maintaining the requested criminal history information. If you have documentation on your criminal case, please be prepared to provide a copy at the time you request a correction to your record. It may help to expedite your request. One of the most common correction requests is to locate missing disposition information. More information concerning criminal history reports can be located at http://www.dps.state.ak.us/Statewide/background/default.aspx.

Fingerprinting Information

One fingerprint card is required– for a state background check with the Department of Public Safety (DPS) and a federal background check with the FBI.

An applicant fingerprint card, not a *criminal* fingerprint card must be submitted. The applicant fingerprint card must possess the code FD-258 and may be supplied by the Teacher Certification Office or any fingerprinting agency that can supply the correct applicant card.

It is required that the fingerprint technician who rolls the prints sign and fully date the fingerprint card in the appropriate sections on the card.

If an error is made by the technician requiring impressions to be re-rolled, a new card must be prepared. If an acceptable AAFIS re-tab is used instead, the limit is one tab per finger and no more than two re-tabs per fingerprint card.

The Alaska automated fingerprint identification system (AAFIS) will not accept fingerprint cards that have prints taped or stapled to the original card.

Fingerprint Impression Blocks

It is very important that care be taken to roll the fingers from nail to nail when taking the individual finger impressions. This will help ensure legibility. Roll the prints in the correct sequence (note left to right hand designations in the finger blocks) and obtain simultaneous 'plain' impressions. Indicate the amputated fingers or fingers missing at birth.

All information is essential. Read the back of the fingerprint card for additional instructions. Using care in preparing fingerprint cards will save much time and avoid rejected fingerprints. Double-check your work! **Is the fingerprint card completely filled out and are the fingerprints legible?**
