# Alaska Department Reading Program Purpose and Information

The Alaska Department Reading Program, established under Alaska's Reads Act, is a voluntary initiative for schools serving kindergarten through third grade that receive state funding and meet eligibility requirements as identified through Alaska Statutes 14.03.123 and described in AS 14.30.765 and 14.30.770.

Designed to provide direct support for participating schools in raising literacy proficiency in Alaska's lowest-performing 25% of K-3 schools, this program offers comprehensive support from a Department Reading Specialist for each participating school. Through collaborative planning, the District Reading Improvement Plan/Multi-Tiered System of Support (DRIP/MTSS) will be strengthened. As part of the plan, the program will enhance the ability of schools to implement a K-3 Intensive School Reading Improvement Plan (ISRIP). Support addresses evidence based instructional materials and practices, data dialogue, professional development, student focused scheduling and intervention practices, and communication with parents/guardians and other stakeholders.

DEED will notify eligible districts/schools about the opportunity to apply for the Department Reading Program. All completed applications received by DEED on or before the due date will be reviewed. Selection of program participants will be based on the evidence provided in the completed application packet and the district/school's readiness to receive and implement department reading intervention support.

Completed applications and all required documents are to be submitted to:

**The Department Reading Program's application process** follows AS 14.30.770 and AAC 06.310.

The Department Reading Program, as outlined in AS 14.30.777, aims to support schools within the lowest performing 25% of schools. The Alaska Department of Education and Early Development (DEED) will evaluate eligible applicants by reviewing historical and current student achievement data and the District Reading Improvement Plan (DRIP/MTSS). Complete all three parts of this application. Part 1 requires the following:

- Attach your District Reading Improvement Plan (DRIP/MTSS)
- Complete the following data tables

## Part 2 - Self-Evaluation of Readiness to Engage with DRP

The Self Evaluation of Readiness tool is designed to help applicants assess their school's readiness to engage with the Department Reading Program (DRP). Evaluate the following elements based on your school's current literacy practices. Identify strengths and areas for improvement to enhance literacy outcomes for students. Each rating should be grounded in evidence, not perceptions, to accurately reflect the school's progress in implementing the AK Reads K-3 District Plan.

**1 = Important, but not feasible now 3 = Partially in place, under development 2 =**

**Area to Develop 4 = Completely in place**

### Part 3 - District/School Commitment to Student Learning

Required Component	Response
Provide a statement describing the district or school's commitment and dedication to enhancing reading outcomes and implementing targeted reading improvement goals through the Department Reading Program.	The Lower Yukon School District (LYSD) is dedicated to enhancing reading outcomes and achieving targeted reading improvement goals through a comprehensive and proactive approach. With the support of CLSD funding, we have made significant strides in bolstering our reading instruction. LYSD has purchased a six-year contract for the <i>Amplify CKLA</i> Tier I reading curriculum, ensuring a strong foundational literacy program across all grade levels. Additionally, we have integrated the <i>mCLASS Intervention</i> with BOOST and aligned it with the <i>mCLASS DIBELS</i> screener to

	<p>target the specific needs of struggling readers.</p> <p>To further support our students, we have fully implemented Tier II and III instruction during the school day using <i>mCLASS Intervention</i> and <i>Lexia CORE5</i> as our primary interventions. These tools have proven effective in supporting students' growth and building their literacy skills. We have also introduced our first Literacy Night at Kotlik, with additional events at Emmonak and Alakanuk, using resources and presentations from the Family Engagement Center to engage families and promote literacy in the home.</p> <p>Over the past two years, we have successfully completed all Individualized Reading Intervention Plans (IRIPs) and have collaborated with families on implementing the Multi-Tiered System of Supports (MTSS). Moving forward, we recognize the importance of increasing family involvement in improving both attendance and reading scores. As we continue to develop our literacy programs, LYSD is committed to enhancing instruction through professional development and seeking further collaboration with the Department Reading Program (DRP). With the foundational tools in place, we now seek additional support to refine our instructional practices and strengthen our partnership with families to ensure sustained student success.</p>
<p>Based on your self-assessment, describe the desired support and how it will improve K-3 reading proficiency.</p>	<p>Based on our self-assessment, LYSD seeks targeted support in several key areas to improve K-3 reading proficiency. We would greatly benefit from implementation training and support focused on phonemic awareness to strengthen foundational literacy skills. Specifically, we would like to ensure consistency across the district by utilizing <i>Heggerty</i> materials as a supplement following the training, ensuring a unified approach to phonemic instruction.</p> <p>Additionally, we aim to expand and enhance our Literacy Family Nights, making them more engaging and meaningful. These events will not only promote literacy but also foster excitement and involvement from both students and parents, helping to improve</p>

	<p>attendance and overall family engagement.</p> <p>LYSD also seeks further training in instructional practices, particularly for our teachers (especially J1's), and we would like to extend this professional development to include paraprofessionals, ensuring that all staff members are equipped with the tools and strategies needed to support student success.</p> <p>Finally, we would appreciate continued feedback and guidance from Heather DeBerry, whose consistent support has led to positive changes in our practices. Her input has been invaluable, and we are eager to continue working with her to further refine our instructional approaches and improve student outcomes. With these additional supports, we believe we can make significant progress in enhancing reading proficiency across the district.</p>
