

Science Standards for Alaska District Planning Guide

	AWARENESS 2019-2020	TRANSITION 2020-2021	IMPLEMENTATION 2021-2022
LEARNING	<p>District leaders and teachers Learn about the revised standards, as well as the supporting documents and webinars for your grade level(s).</p> <p>Refer to the Science Standards for Alaska (SSAs) for further information.</p>	<p>District leaders and teachers Continue to develop a deeper understanding of the Science Standards for Alaska (SSAs) and the theoretical and pedagogical changes present in the revision.</p>	<p>District leaders Learn from and expand upon the work and professional learning completed during the previous transition year. Continue revision and refinement during the 2021-2022 academic year to fully implement redesigned district curriculum based on the Science Standards for Alaska (SSAs).</p>
PLANNING	<p>District leaders Develop a transition plan for updating local curriculum.</p> <p>Teachers Determine a transition plan for updating grade-level instructional plans to address knowledge and skills found in the revised standards, as well as the complexity of thought expected.</p> <p>Research resources, strategies, or classroom examples that address the revisions.</p>	<p>District leaders Make changes as needed to local curriculum transition plan based on the SSAs.</p> <p>Begin transition planning. Efforts should lead toward developing and implementing local curricula based on the SSAs. Identify and record district-level policies on science instruction.</p> <p>Teachers Examine the SSAs for your grade level or course(s). Note any changes from the GLEs, and update your individual transition plan accordingly. Develop expertise in new grade-level content. Revise instructional strategies as needed based on supporting documents.</p> <p>Begin to incorporate new resources, strategies, or classroom examples</p>	<p>District leaders and teachers Fully implement (and continue to refine) redesigned local curriculum based on the SSAs.</p> <p>Evaluate lessons to ensure curricular focus. Eliminate parts of lessons or units that do not have a strong connection to the SSAs.</p> <p>Implement district-level policies on science instruction.</p>
