SEPTEMBER 16

The Alaska Department of Education & Early Development (DEED) is recruiting educators to participate in an Item Review to establish test items for the spring 2023 Alaska Science Assessment.

This is an opportunity for educators to become involved in the assessment item development process. Educators will review potential test items and provide feedback. This feedback will inform and enrich the process of developing items for Alaska's assessments.

Participants must have experience teaching science in grades 5, 8, or 10, be knowledgeable in the K-12 Science Standards for Alaska, and work well as part of a team.

DEED will select participants that reflect the ethnic and regional diversity of Alaska's students. Special Education and EL educators are encouraged to apply.

The review will be held in Anchorage on October 3-4.

Participants' travel to and from Anchorage will be covered as well as lodging, daily per diem, and a daily stipend, if eligible. Continuing Education Units (CEUs) will also be awarded.

Educators should apply by completing [the Interested Applicant Survey](#) by **September 16**.

If interested in also participating in **Science Professional Development on October 5**, contact kari.quinto@alaska.gov for further travel-related details.

For questions about Item Review, please email Kari Quinto, Assessment Coordinator at kari.quinto@alaska.gov.

For more information about the Alaska Science Assessment, see information at this link: <https://education.alaska.gov/assessments/science>.
