

School Capital Project Funding Under SB237

A Report to the Legislature

Introduction

This is the seventh annual Senate Bill (SB) 237 report from the Department of Education & Early Development (DEED) in accordance with Alaska Statute 14.11.035. During the 2010 legislative session the 26th Legislature passed SB237. SB237 added statutory language affecting the school construction and major maintenance grant programs as well as the debt reimbursement program. These programs are established and defined in AS 14.11.

SB237 included these statutory changes:

- AS 14.11.008(b) updated the assessed value limits per Average Daily Membership (ADM) used in determining the amount the local government will contribute to the capital (the local share) for projects prioritized under the grant program at AS 14.11.011.
- Changes to AS 14.11.100 removed the sunset provision in the statute for the debt reimbursement program.

(In 2015, through SB64, the legislature placed a moratorium on approving projects for debt reimbursement which are funded by debt authorized by local voters on or after January 1, 2015 until July 1, 2020.)

- A new fund was established for school construction in Regional Educational Attendance Areas (REAA) and was funded beginning July 1, 2012. This fund created a revenue stream to fund prioritized REAA projects on the department's annual Capital Improvement Project (CIP) school construction list.
- SB237 requires DEED to provide an annual report to the legislature on school construction and major maintenance funding. The report is being prepared in accordance with AS 14.11.035 that states:

AS 14.11.035. Report on school construction and major maintenance funding. [Effective July 1, 2012.] Beginning in February 2013, the department shall provide to the governor and the legislature an annual report on the effectiveness of the school construction and major maintenance grants, state aid for school construction in Regional Educational Attendance Areas, and state aid for costs of school construction debt under this chapter. The report must include an analysis of funding sources and the short-term and long-term fiscal effects of the funding on the state. Copies of the report shall be made available to the public and to the legislature.

During the 2013 legislative session, the 28th Legislature passed SB62. SB62 added small municipal school districts with an ADM of not more than 300 and a full-assessed value per ADM of not more than \$500,000 to the districts that are included in the REAA fund. This change allowed small municipal school districts (four as of this report) that had the legal framework to bond, but did not have the capacity to bond, to be included in the REAA funding stream that is used to fund projects on the department's annual CIP school construction list.

During the 2018 legislative session, the 30th Legislature passed HB212. HB212 modified the language of AS 14.11.030(a) to expressly permit use of the REAA Fund for major maintenance projects while stating that the primary function of the fund was to fund school construction projects. The department used this new authority to provide funding from the REAA Fund for the priority one project on the FY2019 Major Maintenance Grant Fund List, St. Mary's Campus Upgrades.

SB237 has now been in place for the past eight and a half years, and data has been tracked for that period. This report will cover the entire period and provide a picture of funding for school construction and major maintenance programs administered by DEED. The period of analysis for this report is July 1, 2010 through December 31, 2018. This report covers the following programs and funding sources:

- I. School Construction and Major Maintenance Grant programs, which provides for prioritization of school construction and major maintenance grant projects statewide [AS 14.11.011];

- II. State Aid for School Construction in Regional Educational Attendance Areas and Small Municipal School Districts, which provides funding for school construction projects located in the Regional Educational Attendance Areas and Small Municipalities [AS 14.11.025], these projects are funded from the annual DEED school construction list; and
- III. State Aid for the Costs of School Construction Debt, which provides for debt reimbursement for districts that have the ability and capacity to bond for school construction and major maintenance [AS 14.11.100].

This report covers the program funding for these programs as authorized under AS 14.11, and does not include non-AS 14.11 funding such as direct appropriations to school districts for school construction or major maintenance projects. Nor does it include funds reappropriated (grant) or redirected (debt) within the period of analysis if the original funding occurred prior to July 1, 2010.

I. School Construction and Major Maintenance Grant Programs Results (AS 14.11.011)

Under AS 14.11.011, DEED is authorized to receive and prioritize applications for school construction and major maintenance grant funding. On or before September 1 of each year, the department accepts applications for school construction and major maintenance grants. The applications must be for projects that cost more than \$25,000 [4 AAC 31.900(21)], and that can be demonstrated to be construction or major maintenance related and not routine maintenance [4 AAC 31.022(e)(6)]. DEED scores and prioritizes the applications and generates two project lists: one list is for school construction projects that construct new school facilities, add space to existing facilities, improve the instructional program, or correct unsafe conditions that threaten the physical welfare of the occupants; and a second list is for major maintenance projects that protect the structure of an existing school building, correct building code deficiencies of an existing school building, or result in an operational cost savings for an existing school building.

This program is the department's school construction and major maintenance grant programs funded by the legislature based on the two priority lists developed during the department's annual Capital Improvement Project (CIP) rating process described above. Under these programs, during the period between July 1, 2010 and December 31, 2018, funding was provided for 24 school construction projects totaling \$561,089,586, and 78 major maintenance projects totaling \$121,888,881 for a combined total of \$682,978,467.

Table 1 Grant Funding Summary by Fiscal Year

Fiscal Year	Construction	Maintenance
FY2011	\$128,500,000	\$24,786,959
FY2012	\$61,910,901*	\$25,854,691
FY2013	\$60,973,515	\$17,979,185
FY2014	\$60,619,572	\$22,991,057*
FY2015	\$43,279,791	\$0
FY2016	\$43,237,400	\$2,623,689*
FY2017	\$73,735,471	\$0
FY2018	\$46,305,477	\$0*
FY2019	\$42,527,459	\$27,653,300*
Totals	\$561,089,586	121,888,881

**See endnote.*

The funding resulted in a nine-year average for school construction of \$62,343,287 and a nine-year average for major maintenance of \$13,543,209. This compares with a ten-year average of funding for school construction of \$56,108,959 and a ten-year average of funding for major maintenance of \$16,490,477.

Tables 2 and 3 below break down the funding from FY2011 to FY2019 by district and by project type for each of the two CIP program lists.

Table 2 Construction Funding by District

District	Number of <u>School Construction</u> Projects Funded	Approved Amount
Bering Strait	1	\$16,674,008
Kenai Peninsula	1	\$10,867,503
Kuspuk	1	\$18,641,380
Lower Kuskokwim	13	\$328,819,680
Lower Yukon	3	\$82,556,700*
Northwest Arctic	1	\$50,475,822
Saint Mary's	1	\$11,762,891
Southwest Region	1	\$24,916,815
Yukon-Koyukuk	1	\$16,374,787
Totals	24	\$561,089,586

Table 3 Maintenance Funding by District

District	Number of <u>Major Maintenance</u> Projects Funded	Approved Amount
Aleutians East	4	\$290,939*
Anchorage	3	\$21,306,131*
Annette Island	5	\$15,855,663*
Bering Strait	1	\$9,176,358

FY2018 Construction	15	\$123,294,419	3	\$46,305,477**
FY2018 Maintenance	107	\$164,887,094	16	\$0*
FY2019 Construction	11	\$179,214,343	7	\$42,527,459
FY2019 Maintenance	84	\$142,892,281	17	\$27,653,300*

*See endnote.

**Includes additional appropriation/allocation for Kivalina, Huslia, Tuntutuliak, and Shishmaref.

II. State Aid for School Construction in Regional Educational Attendance Areas and Small Municipal School District Grant Program Results (AS 14.11.025)

In SB237, the legislature added language to AS 14.11 establishing a fund that is available to provide funding for school construction projects in Regional Educational Attendance Areas (REAA). In SB62, as discussed earlier, small municipal school districts were included in the fund of which there are four at the time of this report. The specific language is provided below, the SB62 language is provided in italics in this to enable the reader to identify the change in an easy manner:

AS 14.11.025. State aid for school construction in regional educational attendance areas *and small municipal school districts*. [Effective July 1, 2012 and SB62 effective July 1, 2013]

- (a) In addition to other appropriations and funding sources, the department may provide grant funding from the fund established under AS 14.11.030 to a school district that is a regional educational attendance area *or a small municipal school district*.
- (b) The amount of money available each fiscal year for expenditure under (a) of this section shall be the annual debt service on debt incurred under AS 14.11.100(a) divided by the percentage of all schools that are located in a city or borough school district *that is not a small municipal school district*, the quotient of which is to be multiplied by .244.
- (c) *In this section, "small municipal school district" means a city or borough school district in the state that has an ADM of not more than 300 and in which the district's full value per ADM is determined by dividing the full and true value of the taxable real and personal property in the district, calculated as described in AS 14.17.510, by the district ADM, as defined in AS 14.17.990, for the same fiscal year in which the valuation was made.*

AS 14.11.030. Regional Educational Attendance Area and Small Municipal School District School Fund. [Effective July 1, 2012 and SB62 effective July 1, 2013]

- (a) The regional educational attendance area *and small municipal school district school* fund is created as an account in the general fund to be used, in addition to other funding sources, to fund projects approved under AS 14.11.025 for the costs of school construction in regional educational attendance areas *and small municipal school districts*.
- (b) Legislative appropriations, including appropriations of interest earned on the fund, shall be deposited in the fund established under this section. The fund balance may not exceed \$70,000,000.
- (c) Money appropriated to the fund does not lapse except to the extent money in the fund exceeds the maximum fund balance specified in (b) of this section.
- (d) *In this section, "small municipal school district" has the meaning given in AS 14.11.025.*

This REAA and Small Municipal School District funding stream took effect on July 1, 2012. The law provides for a calculation to determine annual funding for the REAA and Small Municipal funding stream that can be applied to ranked projects on the department's annual construction list. The calculation in law is based on the annual spending in the debt reimbursement program under AS 14.11.100, the number of schools in municipalities and not in municipalities, and a constant multiplier in law of 24.4%.

The calculation for the eighth year of funding under AS 14.11.030 (FY2020) produced an amount of \$39,389,000. The FY2020 proposed budget funding request was calculated as follows:

\$112,824,287(Annual Debt Service) divided by 69.89% (Percent of Schools in City/Boroughs) times 24.4%. The number of schools statewide is 435 and the number of schools in city/boroughs less small municipalities is 304. All data used in the FY2020 calculation was from FY2018.

Summary of Fund Activity

(Note: these project dollars are already included in the grant charts, this illustration provides a summary of the fund)

As of December 31, 2018, \$260,953,378 has been appropriated into the fund and the current FY2020 projected appropriation of \$39,389,000, if transferred to the fund, would bring the total, including interest appropriations, to \$301,211,906 over the eight-year period.

Table 5 Appropriation into the REAA and Small Municipal School District Fund

Appropriation Fiscal Year	Appropriated Amount
FY2013	\$35,512,300
FY2014	\$35,200,000
FY2015	\$39,921,078
FY2016	\$38,789,000
FY2017	\$31,230,000
FY2018	\$40,640,000
FY2019	\$39,661,000
<i>FY2020 (Proposed Transfer)</i>	<i>\$39,389,000</i>
Accumulated Interest to date	\$869,528
Total	\$301,211,906

Table 6 Allocations from the REAA and Small Municipal School District Fund

Fiscal Year & Project Name	Allocation Amount
FY2014 Nightmute School Renovation/Addition	\$32,965,301
FY2014 Kuinerramiut Elitnaurviat K-12 Renovation/Addition, Quinhagak (additional funds to complete)	\$13,207,081
FY2014 Kwethluk K-12 Replacement (partial funding)	\$25,008,100
FY2015 Kwethluk K-12 Replacement (completes funding)	\$31,516,900
FY2015 Andreafski High School Gym, St. Mary's	\$8,958,100
FY2016 <i>No capital projects from the REAA fund.</i>	\$0.00
FY2017 Bethel Regional High School Multipurpose Addition	\$7,129,765
FY2017 Lewis Angapak K-12 School Renovation/Addition, Tuntutuliak	\$40,343,416
FY2017 Jimmy Huntington K-12 School Renovation/Addition, Huslia	\$15,394,787
FY2018 Lewis Angapak K-12 School Renovation/Addition, Tuntutuliak	\$704,620
FY2018 Jimmy Huntington K-12 School Renovation/Addition, Huslia	\$980,000
FY2018 Shishmaref K-12 School Renovation/Addition	\$16,184,008
FY2018 J. Alexie Memorial K-12 School Replacement, Atmautluak (design only)	\$3,261,667
FY2018 Auntie Mary Nicoli Elementary School Replacement, Aniak	\$18,641,380
FY2019 Shishmaref K-12 School Renovation/Addition	\$490,000
FY2019 J. Alexie Memorial K-12 School Replacement, Atmautluak (construction)	\$39,556,086
FY2019 Eek K-12 School Renovation/Addition	2,481,373
FY2019 St. Mary's Campus Upgrades (major maintenance)	3,449,928
Total	\$260,272,512

III. State Aid for the Cost of School Construction Debt (AS 14.11.100)

The debt reimbursement program that was authorized under HB13 in 2006 (24th Legislature), continues under the provisions in SB237. The change made with SB237 was removal of the sunset provisions of both the 70% [AS 14.11.100(a)(16)] and 60% [AS 14.11.100(a) (17)] reimbursement programs. The debt reimbursement program provides that any municipality, when authorized by local voters, can issue bonds for the funding of school capital projects. The principal and interest payments are eligible for partial reimbursement by the state subject to availability of funding. For every \$100 million in approved principal, the annual principal and interest eligible for reimbursement amounts to approximately \$7 million per year over 20 years. The Governor vetoed 25% of all FY2017 debt reimbursement payments in 2016 (29th Legislature); the total amount vetoed was \$30,293,819.

(In 2015, through SB64, the legislature placed a moratorium on approving projects for debt reimbursement, which are funded by debt authorized by local voters on or after January 1, 2015 until July 1, 2020.)

The specific language as shown in SB64 is as follows:

Sec. 4. AS 14.11.100 is amended by adding a new subsection to read:

(s) Notwithstanding any other provision of law, the commissioner may not approve an application for bond debt reimbursement made by a municipality for school construction or major maintenance for indebtedness authorized by the qualified voters of the municipality on or after January 1, 2015, but before July 1, 2020.

SB64 also sets a state reimbursement rate of 50 percent for school bonds authorized by local voters on or after July 1, 2020. Likewise, the bill prevents the Commissioner of DEED from allocating funds to a municipality to retire debt authorized by local voters on or after January 1, 2015, but before July 1, 2020.

The following table lists those districts authorized to participate in the debt reimbursement program and their community population certified by the Department of Labor and Workforce Development, Research and Analysis Section for 2018. The table also identifies those local governments that have submitted applications for debt reimbursement projects, and those that also received voter approval for their projects since July 1, 2010 through December 31, 2018.

Table 7 Participation by Eligible Districts (sorted by population)

Municipality/Borough	2018 Population	Submitted DR Application(s)	Submitted to Voters
Anchorage	295,365	Yes	Yes
Mat-Su	105,743	Yes	Yes
Fairbanks	97,121	Yes	Yes
Kenai	58,471	Yes	Yes
Juneau	32,247	Yes	Yes

Kodiak	13,136	Yes	Yes
North Slope	9,925	Yes	Yes
Sitka	8,652	No	No
Northwest Arctic	7,791	No	No
Unalaska	4,333	No	No
Valdez	,903	Yes	Yes
Nome	3,662	No	No
Petersburg	3,198	No	No
Aleutians East	2,959	No	No
Wrangell	2,426	No	No
Cordova	2,360	No	No
Dillingham	2,382	Yes	Yes
Denali	1,825	No	No
Haines	1,755	Yes	Yes
Lake and Peninsula	1,663	Yes	Yes
Craig	1,095	No	No
Bristol Bay	879	Yes	Yes

Thirteen districts submitted a total of 95 applications for consideration by the department during the period July 1, 2010 through December 31, 2018, for a total funding request of over \$803 million.

SB237 continues the two-tiered program of reimbursement. Reimbursement of 70% is allowed for projects that meet all of DEED's space eligibility requirements [4 AAC 31.020] and 60% reimbursement is allowed for projects that do not meet DEED's space eligibility requirements. Of the funding requests approved under this program, 69 projects totaling \$552 million were approved at 70%. The remaining 13 projects totaling \$170 million were approved at 60%. The two tables below summarize the above information.

Under the provisions of 4 AAC 31.065, the department has approved redirection of excess bond proceeds following project completion. Some of these redirections have been made to previously approved projects experiencing a funding shortfall. Others have been made to newly approved projects. In the period of this report, four new projects have been approved with \$2,506,433 in redirected bond proceeds. All of these proceeds were voter approved prior to January 1, 2015.

Table 8 Number of projects at 70%

District	Number of Projects at 70%	Approved Amount
Anchorage	8	\$92,040,000

Analysis

Between July 1, 2010 and December 31, 2018, over \$1.4 billion in school construction and major maintenance projects received funding or authorization, either as grants or through the school debt reimbursement program. A total of 188 school construction and major maintenance projects will be completed with the funding provided during this period. Of the 53 school districts 38 received school construction or major maintenance funding under these combined programs. Of the 188 school

construction and major maintenance projects funded during this period, 45 of the projects were in the REAAs.

The following tables provide information by program and fiscal year.

Table 11 Total Funding Summary by Fiscal Year

Fiscal Year	Construction City/Borough	Construction REAA	Maintenance City/Borough	Maintenance REAA
FY2011	\$500,000	\$128,500,000	\$112,973,055	\$2,965,455

Prioritization on the school construction and major maintenance grant program lists are a reflection of the need as expressed by school districts, and reviewed by the department during the CIP application process. The prioritization process recognizes criteria such as unhoused students, condition of facilities, and level of design work accomplished on behalf of the requested project. The more design work that is accomplished on behalf of a project, the more confidence the department has in the estimates provided in support of a project application.

Districts seeking funding under the programs administered by the department are required to submit a six-year plan listing anticipated projects by year and corresponding estimated total project amounts. The district six-year plans are compiled annually by the department to provide anticipated capital program needs. Participating districts, based on current and prior years plans, are documenting a total capital funding need of \$1.39 billion over the next six years.. Changes to the total six-year capital funding needs can fluctuate from year-to-year based on the size of any individual district's program, the number of districts participating in the programs, the total number of applications submitted, and variations in project sizes and costs.

Table 14 Total Six-Year Plan Requests by Fiscal Year

Fiscal Year	Total Six-Year Plan Requests
FY2011	\$1,414,709,641
FY2012	\$1,996,553,852
FY2013	\$1,920,005,961
FY2014	\$1,800,302,814
FY2015	\$1,947,268,401
FY2016	\$1,765,110,357
FY2017	\$1,789,440,292
FY2018	\$1,687,522,113
FY2019	\$1,663,103,027
FY2020	\$1,389,376,552

Conclusions

The school construction and major maintenance grant programs and the debt reimbursement program provide important funding to keep our schools in good condition and to provide for new construction or major renovation. The REAA and Small Municipal funding stream available for funding projects on the school construction grant list has been valuable in reducing the number of schools on the construction list. Primarily, those have been schools that are significantly over capacity based on current and projected student populations.

The school construction and major maintenance grant programs are the only significant programs to provide for new construction, renovations, or major maintenance in schools in our communities that do not have bonding capacity. A continued grant program for construction, when needed, and ongoing major maintenance provides a vetted solution to the funding of high priority major maintenance needs on boilers, roofs and other important systems in our schools in these communities. It should also be noted that the grant program remains open to municipalities at all times, even though they may have bonding capacity.

SB64 (Ch 3, SLA 2015) prevents the Commissioner of DEED from approving an application for bond debt reimbursement using indebtedness authorized by local voters on or after January 1, 2015 through July 1, 2020. One likely outcome of SB64 is an increase in applications vying for legislative funding on the school construction and major maintenance grant lists. Maintaining our schools and providing for new or renovated schools remains an important task for our communities, the department, and the state. The

department maintains the grant and debt programs to manage requests in a consistent manner and to provide school construction and major maintenance in the most cost effective manner considering both capital and operating costs.

APPENDIX A- Project Funding by Districts

For the Eight-Year Period 7/1/2010 through 12/31/ 2018
