

Districts Required to Submit the Title I Report of Comparability

All districts are required to submit a Title I Report of Comparability by February 15, 2011 for the 2010-2011 school year unless one of the following conditions exists:

- All schools in the district, or all schools except one, have less than 100 students enrolled on the October 1, 2010 count date.
- The district is a single site district with only one school, or only one school per grade span.
- No schools in the district are served with Title I, Part A funds.
- The only schools in the district with an enrollment greater than or equal to 100 are in different grade spans.

Based on the October 1, 2009 data for the 2009-2010 school year, it is anticipated that the following districts must file a Title I Report of Comparability for the 2010-2011 school year. *If the configurations or sizes of schools have changed for 2010-2011 in a school district that is not listed, so that it does not meet the criteria above, a comparability report will be required.*
