INSTRUCTIONS

This submission is a student level data file that includes all students enrolled in a district on the first day of testing. This year the first day of testing is April 6, 2010. The purpose of this collection is to assist in the calculation of school, district and state level Annual Yearly Progress (AYP). The detail requested in this file allows for disaggregation of AYP subgroups.

1. Districts must submit a complete set of data elements as defined in this data dictionary for each student that was enrolled on Tuesday, **April 6, 2010**.
2. **4 AAC 07.060 (a) (7) states that the AK Student Identifier must appear in each electronic record containing student-level information that is reported to the department. *Please see Appendix B to view the specific regulation.***
3. **Submission of this file should be done using the State Report Manager (SRM). SRM allows submission in four formats: CSV, tab-delimited, zipped CSV, or zipped tab-delimited. Successful submission requires utilization of an exact scripted header. A copy of this header is located within Appendix G. In addition, an excel file containing this header may be downloaded on EED website at <http://www.eed.state.ak.us/forms/SearchAction.cfm>. Please see Appendix F for detailed directions on how to use SRM. If your district is unable to submit the file using SRM contact May Palomo (May.Palomo@alaska.gov) for assistance.**

Note #1: When a file is created using the Comma Separated Values format (CSV) and data fields contain commas, the integrity of the exchange file will be compromised.

A program uploading a CSV file interprets each comma as a field delimiter within each record and expects each record to contain the same number of commas. When a data field contains a comma, as in "Smith, JR." the import program considers the comma between "Smith" and "Jr." as the demarcation of a new field. The solution is to strip-out all commas at the same time the file is created. An alternative is to use tabs instead of commas as field delimiters.

Changes for Spring 2010

Please note that in an effort to align the three OASIS collections (Participation Rate, Summer OASIS, Fall OASIS), the **order of some of the fields has changed over the past year.**

Beginning with the 2010 year, submission of this data file is only allowed through State Report Manager (SRM). If you need assistance with the system refer to Appendix F or contact May Palomo (May.Palomo@alaska.gov).

Field 11 Student Grade Level

In the past, there was no collection of demographic data in the spring Participation Rate file for eleventh and twelfth graders. To provide more accurate reporting for these two grades; Eleventh grade and Twelfth grade have been added to the Student Grade Level field in this collection. Student populations for these grades include **only those students testing.**

This field identifies the grade level of the student.

Accommodations: To provide align the subject areas for Accommodations with other subjects listings in the test environment the following changes will be made:

Field 20 Mathematics now changed to Reading

Field 21 Reading now changed to Writing

Field 22 Writing now changed to Mathematics

Field 23 Accommodation - IEP or 504 Plan

Number 1/1

Description

Science

(Y or N)

Note: Science is now collecting specific accommodations through the testing demographic sheet completed at the time of testing. Any selection on the testing demographic sheet will override an "N" value in the Yes/No (Y or N) data element submitted within this file. This element is only for grades 4, 8, and 10.

NEW FIELDS

(No new fields in 2010.)

Changes for Spring 2011

Please note that in an effort to align with federal requirements, the Participation Rate (spring OASIS data collection) for spring 2011 will include LEP accommodations by subject area. Districts will be required to identify students that will receive appropriate accommodations on the assessment specifically related to their LEP plan. Please review the Participation Guidelines on our web site under the following link for more information: <http://www.eed.state.ak.us/tls/assessment/accommodations.html>.

Field 24	Accommodations - LEP	(Y or N)	
(New field numbers for the below four fields will be assigned in 2011.)

	Writing	(Y or N)	1/1
	Mathematics	(Y or N)	1/1
	Science	(Y or N)	1/1

Clarifications

- Students that have previously passed any or all three parts of the High School Graduation Qualifying Exam AND are still defined by your district as being enrolled in the 10th grade **must** be included in the participation rate. Those students are required to take the 10th grade exam which now includes Standards Based Assessment items. The HSGQE component of those results will be suppressed, but a student will receive SBA results for grade 10.
- All students who are enrolled on 04/06/10 are considered for the calculation of the participation rate.
- Participants are students that receive at least one valid score out of any of the three required subjects (Reading, Writing, and Mathematics) for each exam.
- Only the students who are considered to be enrolled for Full Academic Year (FAY) will be considered for the performance levels reported in the AYP calculations. FAY = Continuously enrolled between 10/01/09 and 04/06/10.
- Students that are eligible and/or participate in the alternate assessments will be included in the participation rate and AYP calculations, and should be included in this data collection.
- Please verify your data to ensure the student records reported in this file match at the individual level to the information coded in the test materials. This will ensure the participation rate file matches your performance level file. The performance level data used by EED comes from the file we receive from DRC. **Any discrepancies between the participation rate file and the DRC data file will be resolved by using the data from the participation rate file.**
- All students enrolled for a full academic year who are counted under 4 AAC 09.040 as **more than 0.25 FTE** must be included in the state assessments and will be used in the determination of adequate yearly progress.
- A district may, on a case-by-case basis, exempt an individual student from an assessment if an **unexpected severe medical condition** prevents the student from participating in the administration of the assessment. The student **will not be included** in the determination of adequate yearly progress performance or participation rate. The district shall retain documentation regarding the exemption, including medical records or the condition, within the student's permanent record and provide it to the department upon request. **(4 AAC 06.805. (k)).**
- **Per federal guidance all Migrant students are categorically eligible for Free/Reduced Lunch.**
- Any student that participated in a statewide assessment in the previous year cannot be identified as a First Year Immigrant.
- Please note that 4 AAC 06.805(j) has been changed to include immigrants students that first enrolled in a school in the United States after the previous school year administration of the SBA under 4 AAC 06.710(2).
- The LEP student codes are defined for all data collections. **For the Participation Rate file, the code LT would not be used as the student results from the ELP assessment are not yet available.** Students who are coded as LP for the Participation Rate file may be changed to LT for the Summer OASIS data collection if results from the ELP assessment show that the student is proficient in English.
- **Eleventh and Twelfth grade information collected is not used in conjunction with AYP. These data will provide more accurate demographic HSGQE reports.**

Appendix D: First Year Immigrant Students

Under new flexibility provided by the United States Department of Education, and announced by Secretary Rod Paige on February 19, 2004 states may exclude performance scores of first year immigrant students in the mathematics and reading/language arts assessment results. States have the option of not giving the content reading/language arts assessments to, first year immigrants, and only having the students take the English Language Proficiency exam.

If a district enrolls a student who qualifies as an LEP pupil under 4 AAC 34.090(2), and who is new to the United States, and first enrolls in a school in the United States after the previous school year administration of the state standards-based assessment under 4 AAC 06.710(2), the district may excuse the student from participation in the state assessment in reading and writing; and elect not to include the student's performance in any state assessments in the determination of school and district adequate yearly progress.

If a school excuses a new immigrant student from participation in reading and writing assessments they must have the student participate in statewide English language proficiency assessments.

4 AAC 06.805. Adequate yearly progress

4 AAC 06.805(j) is amended to read:

(j) Notwithstanding any provision in this chapter, if a district enrolls a student who qualifies as an LEP pupil under 4 AAC 34.090(2), [AND WHO] is new to the United States, [DURING THE SCHOOL YEAR IN WHICH THE STUDENT] and first enrolls in a school, in the United States after the previous school year administration of the state standards-based assessment under 4 AAC 06.710(2), the district may

- (1) excuse the student from participation in the state assessments in reading or writing;
and
- (2) elect not to include the student's performance in any state assessment in the determination of adequate yearly progress under 4 AAC 06.810.

Definitions:

An "immigrant child" is one who is not born in any state in the United States of America.

A "limited English proficient (LEP)" student is one who is determined to be LEP based on the local assessment required under 4 AAC 34.055 (c) to determine if the student is limited English proficient.

Appendix E: Disability Categories 15 & 16

Notes:

Disability codes 15 and 16 are only used in the Participation Rate File and will not be accepted in other data collections.

These codes are optional and using them may affect AYP outcomes.

We recommend that you do not overwrite disability code with 15 or 16 in your student management system since you will need to access the former disability code for the Summer OASIS collection.

When calculating AYP, Alaska has been approved to include students who were formerly receiving special education services in the students with disabilities subgroup for two years after they no longer qualify for special education services. Disability codes 15 and 16 allow us to identify these students.

Code 15 should be used to identify students who were receiving special education services at the time of SBA testing last year (was reported with a disability code of 2-14 in the participation rate file last year), but who no longer qualify for special ed at the time of SBA testing this year (does not have a disability code of 2-14). Note: If a 3rd grade student was receiving special education services at testing time last year, but are no longer receives services this year they should be coded as 15 even though they were not in an assessed grade last year.

Code 16 should be used to identify any student who was reported (or should have been reported) as a code 15 last year who still does not qualify for special education services at time of SBA testing this year. If this student does not qualify for special education services next year, they would be reported with a disability code of 00 in that participation rate file.
