

Learning Model of Operation for the School Year 2023-2024

This graph illustrates the predominant learning models for schools in Alaska during the 2023-2024 school year, based on approved or unexpected building closures due to Covid-19. The Levels (described below) indicate whether the schools operated on a standard operation schedule or a hybrid operation schedule. Schools are depicted in groups according to Level and month of the year.

Levels:

Standard Operations: Schools were open, in-person, and students attended 5 days/week on campus.

Level 1: Schools operated on a hybrid schedule, students attended in-person 4 days/week on campus, 1 day/week remote.

Level 2: Schools operated on a hybrid schedule, students attended in-person 3 days/week on campus, 2 days/week remote.

Level 3: Schools operated on a hybrid schedule, students attended in-person 2 days/week on campus, 3 days/week remote.

Level 4: Schools operated on a hybrid schedule, students attended in-person 1 days/week on campus, 4 days/week remote.

Level 5: Schools operated on a fully remote schedule, with no in-person attendance, 0 days/week on campus and 5 days/week remote.
