Alaska recently launched **The Compass**, a website designed to help parents access important data about public schools in Alaska. Measures Combine into Index Score

Each indicator noted in the table to the left is given a score for the school. These scores are combined based on the grade span of the school.

In addition to looking at the whole school, each student group in a school is measured in the areas listed in the table to the left. These scores are combined and the student group is given a score.

How is my school designated for support?

Each year an overall school index value is calculated for each school and a school designation is assigned. There are three school designations for Alaska's schools:

- **Comprehensive Support**
  - **Lowest 5%** - If the overall school index value of a school falls in the lowest 5% of Title I schools, that school receives a designation of Comprehensive Support (Lowest 5%).
  - **Graduation Rate** - If a secondary school has a graduation rate of less than 66.66%, that school receives a designation of Comprehensive Support (Graduation Rate).
- **Targeted Support** - If a school has any student groups with index values under the Comprehensive Support (lowest 5%) threshold, that school receives a designation of Targeted Support.
- **Universal Support** - All other schools are considered Universal Support schools.
