

American Rescue Plan Act: School Operating Status and Enrollment

Appendix A: School Operating Status and Instructional Mode Data Template

Indicate the date or time period represented by the following data.

March 29, 2021

Table 1

In the most recent time period available, how many schools in your State offered each mode of instruction or learning model described below? Each row should account for all schools in your State, so that, for each row, the sum of the numbers in the “offered to all students,” “offered to some students,” and “not offered” columns is equal to the number in the “all schools” column.

Number of schools	All schools	Offered to all students	Offered to some students	Not offered
Remote or online only	502*	373	26	99
School buildings open with both remote/online and in-person instruction (hybrid)	502*	204	23	271
School buildings open with full-time in-person instruction	502*	382	10	106

*Note: 4 schools have not yet responded. Row totals will sum to 498 which does not match the “All Schools” value.

To the extent data are available, please complete the above table for 1) all schools in the State, and 2) separately for each instructional level (e.g., pre-kindergarten/elementary schools, middle schools, high schools).
