Note 1: The Alaska Developmental Profile is an observational tool administered by teachers to all kindergarten students at the beginning of the school year. Although first-grade students who were not assigned ratings in kindergarten are also rated, the percentages in this report include kindergarten students only. Teachers are encouraged to complete a profile for each student during the first four weeks of the school year. Teachers provide a rating for each student in 13 goals within five domains. A student "consistently demonstrates" a goal if they are generally able to demonstrate the indicative skills and behaviors of the goal 80 percent or more of the time.

Note 2: The values listed for each of the 13 goals represent the percentage of rated students who consistently demonstrated the particular goal.

Note 3: Percentages have been suppressed (noted with an asterisk) or generalized with a percentage range when necessary to protect student privacy. Full suppression occurs when fewer than five students were rated. Percentage ranges are reported with certain distributions of students between those who consistently demonstrated a goal and those who did not. More information about assessment suppression rules is located at <https://education.alaska.gov/assessments/results>.

Note 4: "Secondary" suppression (noted with a double asterisk) has been applied when simple subtraction would otherwise have allowed for the determination of suppressed percentages. An example of when this occurs is a district with multiple schools and only one school has a suppressed percentage. Secondary suppression was applied to the school with the fewest number of students with a reported percentage.
