Measuring Success with Standardized Recipes

8:00am-10:00am

Training package addresses the benefits of using and developing standardized recipes. This training was designed to assist school food service, child care managers, and employees with development and use of standardized recipes in their operations

Meeting Children's Special Food and Nutrition Needs in Child Nutrition Programs 10:15am – 12:00pm

This training was developed to help food service assistants understand and to apply the laws and regulations that require accommodations for children with special food and nutrition needs and to familiarize child nutrition assistants with special needs frequently seen in programs including diabetes, food allergies, and inborn errors of metabolism.

On the Road to Professional Food Preparation

1:00pm-4:30pm

This session focuses on basic skills needed to produce high quality foods for your child nutrition program. The training is designed for the food service manager to train food service assistants. Topics to include: The Recipe, Weights and Measures, Portion Control, and Recipe Adjustment.

- There is no registration fee to attend this training
- Training is in Anchorage at the Westmark Hotel.
- The NFSMI training does not replace annual training requirements by the Alaska Child Nutrition Programs.
